

## DISCOVERY OF GOLD MADE ON HANCOCK COUNTY LAND CLOSE TO TOWN OF CHESTER

**A Piece of Quartz Which Experts Say Is Rich  
in Precious Metal Found On  
Stevenson Farm.**

A piece of quartz was handed to a representative of the News Review today by John D. West, who claimed to have broken it from a much larger piece found near Chester. The rock bears unmistakable evidence of being gold quartz, with a large percentage of gold contained in it.

The piece of rock was taken to the office of Dr. W. L. Thompson, who examined it and stated, after breaking and reducing a piece of the quartz to a powder, that the ore, without question, was an excellent quality of gold. The piece of ore knocked from the large piece was not much larger than a peach stone, but the amount of metal secured from it was considerable and very heavy.

Dr. Thompson for 25 years was closely connected with the mining industry, and it took him but little time to form a favorable impression.

Mr. West and a friend, J. B. Mallin,

were leisurely strolling about the Thomas Stevenson farm in the vicinity of the reservoir, above Chester, when their attention was drawn to the glittering substance in the rock, and both were enough interested in the matter to secure a specimen of it. The large amount of the valuable metal secured from so small a piece of rock, would not necessitate a very large vein being discovered to place the finder in affluent circumstances.

This is not far from the oil developments on the Kinney farm and the quality of oil being drawn from the ground comes so near being pure, that the immediate territory may develop some surprises. The metal was later taken to a prominent jeweler and stood the severest tests and after a thorough examination, he pronounced it to be of exceptionally good quality and of a grade between 14 and 18 carats.

## HUGHES BUSY AT TRENTON

**Personally Investigating the Sanitary Pressers' Grievance  
on Dunted Ware.**

### FOR PERMANENT RESULTS

From a Staff Correspondent.

Trenton, N. J., March 13.—President A. S. Hughes, of the National Brotherhood of Operative Potters, since his arrival here last Tuesday, has been conducting a personal investigation of the grievance advanced by Sanitary Pressers' local No. 45, growing out of the action of the manufacturers in compelling its members to shoulder the responsibility for "dunted" ware. Meantime he has sent a communication to the secretary of the manufacturers' association, asking for a conference, but as yet has received no reply.

President Hughes was present Tuesday night at the meeting of the pressers' local when the question was discussed in all its phases, winding up in the members informing the national executive that they were prepared to strike if the manufacturers refuse to abandon their policy in charging them for the defective ware.

According to the statistics presented at the meeting it is inferred that several of the sanitary potteries have lost considerable money during the past two months in being compelled to find a market for their products in the slip house. In fact, according to the reports submitted by the various shop committees the dunted ware problem has had the effect of placing many of them behind in their orders.

The settlement, if one is effected according to President Hughes, will have a permanent governing influence on the entire sanitary trade. The national executive board of the Brotherhood at its meeting last week, delegated President Hughes and Vice President Hutchins to conduct the terms of the settlement, with the conference committee of the local to act in conjunction with them. The committee representing the local is composed of Joseph T. Cotton, national statistician; Reuben McDevitt, William Wooton, William Christian and Thomas Dennis.

Unless the "dunted" ware problem is not given a satisfactory solution, the sanitary pressers will have few matters to bring before the national convention of the organization, which meets at Wheeling in May. The local is entitled to send 14 delegates, but at the meeting last Tuesday night but three were elected, as the members felt that it would only be an additional expense in sending the full quota set forth in the constitution. The delegates who will represent the local are Joseph T. Cotton, George Martin and William Wooton.

A composite child labor bill was placed on second reading after it had

been freely amended by the house of assembly last Wednesday night. It provides that no boys under 14 years of age shall work in factories, work shops or mills. The bill also prohibits children under 12 years of age from selling newspapers during the school hours or before 5:30 a. m. or after 7:30 p. m. The bill will come up for final passage next week.

The making of brick, sewer pipe and other clay products is the object of the Howard Clay Manufacturing company, incorporated in the county clerk's office a few days ago. The company has an authorized capital stock of \$250,000, and the incorporators are Emery V. Donaldson and Charles G. Edwards, of Baltimore, and Benjamin Wilson, of this city.

Assemblyman Colclough has introduced in the New Jersey legislature a bill making obligatory the use of blow fans in potteries and other manufacturing establishments where dust circulates. Colclough is a potter.

**Fire at Rush Run Destroys Power  
House and Coal  
Plant.**

Rush Run, March 13.—The power house and plant of the Lewis Coal & Coke company burned to the ground Wednesday night at 8 o'clock. The origin of the fire is unknown, but is thought to have been caused by electric wires becoming crossed.

The Lewis Coal & Coke company's mines are located on the Dr. Kelly farm, adjoining the C. & P. railroad tracks, midway between Rush Run and Warrenton. About 85 to 100 men are employed in the mines, which are lighted and operated with modern electrical machinery. The power plant, which was burned, is located on top of the hill above the tipple and at the head of the incline. The office of the company is located in Lewis Bros.' store building, near the W. & L. E. railroad station at Warrenton, and all or near all the stock of the company is owned by Ellsworth Lewis, of Belaire, and William A. Ward, of Wheeling.

**Present Members Will Be Re-Chosen,  
But Can Serve Only  
One Year.**

East Liverpool will likely be the only city of its size and class in the state that will elect members of the board of education at the coming spring election. According to a ruling of the supreme court those who are at the present time members of the board will hold the position for another year without an election. As a result all cities but East Liverpool will name no names under that head on the ticket.

The conditions existing in this city are different from those in any of the others heard from. The men who have received the nomination are now acting members of the board, and whether they be elected or not they would continue to serve for another year. There is but one difficulty apparent that can arise over their election, that is that next year when an order is issued that new members be elected, those who are nominees at the present time will be compelled to run for the nomination again notwithstanding that, according to the rule now in effect, that they will be elected for three years.

Columbus, March 13.—The question of school board elections is causing the state officials no end of trouble. Notwithstanding the ruling of the attorney general to the effect that no elections shall be held in cities where the ward boundaries have been changed, there seems to be a feeling of uneasiness about the matter among the educators and boards of elections as to what constitutes their duties in the premises. Communications are still pouring in daily upon the attorney general and the secretary of state for more light on the subject.

## A SPLENDID OFFER.

The News Review, in its issue of next Saturday, will inaugurate a voting contest which it will be worth while for representatives of organized labor of East Liverpool and vicinity to enter.

Briefly summarized the offer is this: To the person, male or female, receiving the highest number of votes on coupons cut from the News Review, A FREE TRIP TO EUROPE AND RETURN. To the person receiving the second highest number of votes, A TRIP UP THE GREAT LAKES OR TO SOME ATTRACTIVE SUMMER RESORT AT THE EXPENSE OF THE NEWS REVIEW.

No offer approaching this in liberality was ever before made by a newspaper in East Liverpool. The contest will be open to all representatives of organized labor in good standing, and men and women, boys and girls may vote. Rules and conditions of the contest will be published in full, along with the first coupon.

Much controversy has been indulged in over the state in regard to the peculiar question and the supreme court has been applied to in numerous instances. Its decision was made official in the case from Steubenville. Two candidates for school board had filed a motion for a mandamus to compel the board of elections to place their names on the ticket and the court in refusing to rule favorably for the applicants announced that it did so because their right to be placed on the ballot was not clear.

John Allison's Canton  
Trip.**

The slumbers of Aaron Lake, a hobo whose home is wherever he happens to stop, were rudely interrupted while he was snugly cornered in a shed at Thompson's pottery last evening, by Officer Patrick Woods. The officer escorted him to the city jail and gave him the best of city provides. Before he was arraigned this morning the mayor was invited to take a peep at his personal appearance. As a result Mr. Lake was instructed to take a cold water bath. It was his first one in many months and he fears that he will not be able to stand the shock. Being penniless, he was ordered out of the city.

Officer Aufderheide left on the early train this morning with John Allison, who will spend the coming half year in the Canton workhouse.

## MORE CASH TODAY FOR THE LAIRD FUND

**Sixteen Dollars in Cash Turned Over  
to the Treasurer  
Today.**

Sixteen dollars were paid into the fund for Mrs. Nell Laird and her children today, a part of which has already been reported. Local No. 12 paid the contribution it had previously made and Local No. 16 sent in \$5. Mrs. W. V. Maley sent \$1.

The Beal local option law has been in force less than a year and under it over 500 saloons have been closed. Local option elections have been held in 177 municipalities and 114 of these have voted "dry." The Dow tax paid by the saloons closed was about \$175,000 annually. Next Monday the people of Ashtabula will vote on the question of whether the 105 saloons within its borders shall be retained or abolished.

The wholesale and retail coal dealers' association of the state met here Thursday and discussed matters relating to the business. The shortage caused by the theft of coal from cars, the application of car service, tolls on railroads and uncollectable accounts were among the important matters considered.

The manager of the Columbus base ball team will introduce an extremely novel feature this year. He will establish a nursery under the grand stand at the local base ball park where the babies and children can be cared for by maids while the parents are witnessing the game. The innovation will probably attract attention throughout the entire base ball world.

Governor Nash and party, including Auditor of State Guilbert, Attorney General Sheets and Secretary of State Laylin will arrive here today from Cambridge Springs, where they have been for a week, the guests of the Erie railroad.

Lisbon, March 13.—(Special)—County Chairman John S. McNutt, of the Republican central committee, gave out the following letter this afternoon, announcing the withdrawal of Lewis C. Moore, of Sallenville, as a candidate for the nomination for prosecuting attorney:

"John S. McNutt, Chairman Republican Central Committee, Columbiana County, Lisbon, O.

"Sir—I regret very much the necessity of addressing you at this time, but circumstances over which I have no control compel me to withdraw my name as a candidate for prosecuting attorney of this county. I take this step after visiting in the short time given me, a large part of the county and after consultation with many friends, and a fair consideration of my private business. I now and here thank each and all of my friends throughout the county for the kindness shown me, for the pledges of support they gave me and for the interest shown in my candidacy, and I shall always remember them and be ready to reply if the opportunity should present itself.

"This withdrawal in no manner affects my politics. I am and always have been and expect to be a Republican, and I shall be in the future, as in the past, a supporter of the Republican party, its candidates and its principles.

L. C. MOORE."

## PITTSBURG TO WHEELING BY NEW TROLLEY LINE

**Street Railway Company Arranging  
For Double Track Between  
The Two Cities.**

Washington, Pa., March 13.—It is learned that the Western Street Railway company, of Pittsburgh, is making every arrangement possible preparatory to the construction of a double track street car line from Finleyville to Washington, a distance of fifteen miles, and it is given out that later on the company will extend the line to Wheeling. This line would join the company's Pittsburgh and Charlestown line, which will be in operation by July 1, at Finleyville. The road, if built, will give a twenty-five-mile route to Pittsburgh, and over this line the company proposes running electric cars between Washington and Pittsburgh.

Last night at a meeting of the East Washington council, A. M. Linn, a local attorney, was present, representing the Pittsburgh company, asking that an ordinance granting them the right of way through the borough be granted. The ordinance calls for operations to be commenced within a year, and the line to be completed within two years. The greater part of the right of way from Washington to Finleyville has been granted. The members of council will consider the matter of granting a franchise to the company at their next meeting.

## FELL FROM FREIGHT TRAIN LOSING BOTH OF HIS LEGS AND NOT LIKELY TO LIVE

**A Wellsville Brakeman the Victim of a Terrible  
Accident While at Work in  
the Yards Today.**

Bleeding and mangled from terrible injuries and without the slightest hope of recovery, James Lightner, a C. & P. brakeman, was taken to Pittsburgh hospital on the noon train today. It is the opinion of the physicians that he cannot survive longer than a few hours. His death will make the third fatality in a few days among the railroad men near the same spot in Wellsville.

Lightner went out on a run this morning shortly after 7 o'clock and the accident happened before his train had cleared the Wellsville yards. He was walking the running board of a box car, and in stepping from one car to another he fell between them. Clutching wildly at the iron ladder in that awful second of his fall when a horrible death seemed so near, Lightner made a desperate effort to save himself, and the other brakemen who

noticed his sudden disappearance hastened to his assistance. Lightner could not arrest his terrible plunge, and in another moment the car wheels had crushed him. Both legs and the right arm were severed and his head was terribly cut.

Lightner was unconscious when he was picked up by the train crew and had lost a large quantity of blood. For this reason it is thought that he cannot stand an operation. The injury to his head is in itself fatal, the physicians states.

Dr. Fraser was taken to the scene with all possible haste and rendered medical attention. It was decided to take the injured man to a Pittsburgh hospital on the noon train, owing to the nature of the injuries.

Just what caused Lightner to stumble and fall between the cars is not known. The train was not under full control.

**As a Result the Mother Takes Steps  
to Institute a Damage  
Suit.**

As the result of alleged negligence on the part of those upon whom the responsibility of keeping the streets free from obstructions rests a damage suit of no small proportions which will likely be instituted against the city. The fact became known today when Mrs. Joseph Elsenhuth appeared at the office of Squire McCarron, accompanied by her 3-year-old daughter Hazel, who by falling over an obstacle on the pavement landing from the Elsenhuth home on Avondale street, sustained serious and most painful injuries.

The little one was walking down the street yesterday afternoon with her mother when she stumbled on a part of a wrecked wagon extending from the road several feet on the pavement, and in falling a sharp piece of iron penetrated her eye, causing excruciating pain and what is thought may result in the loss of sight. Mrs. Elsenhuth carried the child home and a physician was immediately summoned. He was unable to determine just how serious the injury is, but gave the information that the unfortunate child may be blinded for life.

An attorney was consulted by Mrs. Elsenhuth this afternoon, and although the amount has not yet been decided upon, the city will have a fight against the payment of a large sum. It is stated by Mrs. Elsenhuth that the wagon lay across the pavement for at least four months.

## MONEY IN SIGHT TO START WORK

**St. Clair Township Will Proceed  
With the Work of Paving  
Calcutta Road.**

## CONTRACT FOR \$33,000

The entire amount of money required for the improvement of Calcutta road from the northern limit of the city to the southern limit of Calcutta has practically been promised, and the mammoth contract will be commenced by Rinehart Bros. during the first week of May.

Considerable difficulty confronted the trustees of St. Clair township last week when the bid of Rinehart Bros., which was several thousand dollars the lowest filed for the work, was found to exceed the legal amount allowed the trustees to bond the township for, but they went to work immediately and have secured the assurance of help from the county commissioners and others, and now the money will be raised without trouble.

The contract amounts to about \$33,000, and the sum that the township will issue bonds for is only \$27,000. The commissioners had previously agreed to give \$2,000, and at a meeting to be held next week will donate another similar sum. The remaining \$2,000 will be given by the contractors and a land company, which will be greatly benefited by the improvement.

James Rinehart, one of the contractors, stated today that when the work is completed it will be one of the best roads in the country, and will be a pride to every one connected with it.

Washington, Pa., March 13.—It is learned that the Western Street Railway company, of Pittsburgh, is making every arrangement possible preparatory to the construction of a double track street car line from Finleyville to Washington, a distance of fifteen miles, and it is given out that later on the company will extend the line to Wheeling. This line would join the company's Pittsburgh and Charlestown line, which will be in operation by July 1, at Finleyville. The road, if built, will give a twenty-five-mile route to Pittsburgh, and over this line the company proposes running electric cars between Washington and Pittsburgh.

Last night at a meeting of the East Washington council, A. M. Linn, a local attorney, was present, representing the Pittsburgh company, asking that an ordinance granting them the right of way through the borough be granted. The ordinance calls for operations to be commenced within a year, and the line to be completed within two years. The greater part of the right of way from Washington to Finleyville has been granted. The members of council will consider the matter of granting a franchise to the company at their next meeting.

### Dr. Gunsaulus Coming Here.

Arrangements have been completed for Dr. Frank Gunsaulus, of Chicago to deliver a lecture here Friday evening, April 3, at the Grand opera house. Dr. Gunsaulus has been secured to take the place of the number of the course omitted some time ago. The title of the lecture will be "The Eloquence of Puritanism."

Orinoco Blockade Raised.

Washington, March 13.—(Special)—A cablegram from Consul Russell at Caracas, Venezuela, says that the blockade of the Orinoco river, declared by Castro on March 7, has been raised.

### LARGEST CIRCULATION.

The Evening News Review has a larger paid circulation than both the other East Liverpool dailies put together. Neither of those papers has attempted to dispute this fact. And neither of them dares to make public its circulation figures or to accept the News Review's challenge to let a committee of business men see their books and find how much of their boasted patronage is real and how much mythical. Men who advertise can draw their own conclusions as to where advertising is most profitable.

## FELL FROM FREIGHT TRAIN LOSING BOTH OF HIS LEGS AND NOT LIKELY TO LIVE

**A Wellsville Brakeman the Victim of a Terrible  
Accident While at Work in  
the Yards Today.**

Bleeding and mangled from terrible injuries and without the slightest hope of recovery, James Lightner, a C. & P. brakeman, was taken to Pittsburgh hospital on the noon train today. It is the opinion of the physicians that he cannot survive longer than a few hours. His death will make the third fatality in a few days among the railroad men near the same spot in Wellsville.

Lightner went out on a run this morning shortly after 7 o'clock and the accident happened before his train had cleared the Wellsville yards. He was walking the running board of a box car, and in stepping from one car to another he fell between them. Clutching wildly at the iron ladder in that awful second of his fall when a horrible death seemed so near, Lightner made a desperate effort to save himself, and the other brakemen who

noticed his sudden disappearance hastened to his assistance. Lightner could not arrest his terrible plunge, and in another moment the car wheels had crushed him. Both legs and the right arm were severed and his head was terribly cut.

Lightner was unconscious when he was picked up by the train crew and had lost a large quantity of blood. For this reason it is thought that he cannot stand an operation. The injury to his head is in itself fatal, the physicians states.

Dr. Fraser was taken to the scene with all possible haste and rendered medical attention. It was decided to take the injured man to a Pittsburgh hospital on the noon train, owing to the nature of the injuries.

Just what caused Lightner to stumble and fall between the cars is not known. The train was not under full

## AN OBSTRUCTION IN THE STREET

CAUSED A CHILD TO FALL AND GET BADLY HURT.

As a Result the Mother Takes Steps to Institute a Damage Suit.

As the result of alleged negligence on the part of those upon whom the responsibility of keeping the streets free from obstructions rests a damage suit of no small proportions which will likely be instituted against the city. The fact became known today when Mrs. Joseph Elsenhuth appeared at the office of Squire McCarron, accompanied by her 3-year-old daughter Hazel, who by falling over an obstacle on the pavement leading from the Elsenhuth home on Avondale street, sustained serious and most painful injuries.

The little one was walking down the street yesterday afternoon with her mother when she stumbled on a part of a wrecked wagon extending from the road several feet on the pavement, and in falling a sharp piece of iron penetrated her eye, causing excruciating pain and what is thought may result in the loss of sight. Mrs. Elsenhuth carried the child home and a physician was immediately summoned. He was unable to determine just how serious the injury is, but gave the information that the unfortunate child may be maimed for life.

An attorney was consulted by Mrs. Elsenhuth this afternoon, and although the amount has not yet been decided upon, the city will have a fight against the payment of a large sum. It is stated by Mrs. Elsenhuth that the wagon lay across the pavement for at least four months.

## DANCER IS GREAT ON THE MISSISSIPPI

Fear That a Levee Near Baton Rouge Will Break and Cause Disaster.

New Orleans, March 13.—(Special)—It is feared today that the Arlington levee, near Baton Rouge, will break and as a result hundreds of laborers have been summoned to the scene. Rain continues to fall and the river is rising steadily.

The people of the entire valley are in great distress over the impending danger and it is thought that only the interference of Providence can prevent the most terrible disaster ever experienced on the Mississippi river.

### Crazed By an Injury.

Lisbon, March 13.—(Special)—John Harkins, of Sallineville, was brought into probate court yesterday afternoon and adjudged insane. Harkins, who is 56 years old, has been a coal miner nearly all his life and his insanity, which is the third attack, is said to be due to an injury received many years ago by a fall of slate. He will be taken to Massillon as soon as a permit is received.

## MONEY IN SIGHT TO START WORK

St. Clair Township Will Proceed With the Work of Paving Calcutta Road.

### CONTRACT FOR \$33,000

The entire amount of money required for the improvement of Calcutta road from the northern limit of the city to the southern limit of Calcutta has practically been promised, and the mammoth contract will be commenced by Rinehart Bros. during the first week of May.

Considerable difficulty confronted the trustees of St. Clair township last week when the bid of Rinehart Bros., which was several thousand dollars the lowest bid for the work, was found to exceed the legal amount allowed the trustees to bond the township for, but they went to work immediately and have secured the assurance of help from the county commissioners and others, and now the money will be raised without trouble.

The contract amounts to about \$33,000, and the sum that the township will issue bonds for is only \$27,000. The commissioners had previously agreed to give \$2,000, and at a meeting to be held next week will donate another similar sum. The remaining \$2,000 will be given by the contractors and a land company, which will be greatly benefited by the improvement.

James Rinehart, one of the contractors, stated today that when the work is completed it will be one of the best roads in the country, and will be a pride to every one connected with it.

## A LOCAL CROKER HAS ASSIGNED

Arthur J. McCoy, of This City, Turns Over His Business to An Assignee.

Lisbon, March 13.—(Special)—Arthur J. McCoy, who has been conducting a grocery in East Liverpool under the name of the McCoy Grocery company, at 325 West Market street, has made an assignment of personal property to Hollis E. Grosshans.

The property assigned consists of books and accounts, merchandise, store fixtures, wagons, harness, etc., to the value of \$1,500. Appraisers David Wells, Daniel McIntosh and George Schmidt. The assignee's bond of \$3,000 has been approved.

### Sehring Will Issue Bonds.

Sebring, March 13.—The election upon the proposition to issue bonds to the amount of \$4,000 to pay for the completion of the city hall and debt incurred by reason of the small pox quarantine, was held and was carried by a majority of more than three to one. The result was as follows: For the issue of bonds, 134. Against the issue of bonds, 41.

## DISCOVERY OF GOLD MADE ON HANCOCK COUNTY LAND CLOSE TO TOWN OF CHESTER

**A Piece of Quartz Which Experts Say Is Rich  
in Precious Metal Found On  
Stevenson Farm.**

A piece of quartz was handed to a representative of the News Review today by John D. West, who claimed to have broken it from a much larger piece found near Chester. The rock bears unmistakable evidence of being gold quartz, with a large percentage of gold contained in it.

The piece of rock was taken to the office of Dr. W. L. Thompson, who examined it and stated, after breaking and reducing a piece of the quartz to a powder, that the ore, without question, was an excellent quality of gold. The piece of ore knocked from the large piece was not much larger than a peach stone, but the amount of metal secured from it was considerable and very heavy.

Dr. Thompson for 25 years was closely connected with the mining industry, and it took him but little time to form a favorable impression.

Mr. West and a friend, J. B. Mallin,

were leisurely strolling about the Thomas Stevenson farm in the vicinity of the reservoir, above Chester, when their attention was drawn to the glittering substance in the rock, and both were enough interested in the matter to secure a specimen of it. The large amount of the valuable metal secured from so small a piece of rock, would not necessitate a very large vein being discovered to place the finder in affluent circumstances.

This is not far from the oil developments on the Kinney farm and the quality of oil being drawn from the ground comes so near being pure, that the immediate territory may develop some surprises. The metal was later taken to a prominent jeweler and stood the severest tests and after a thorough examination, he pronounced it to be of exceptionally good quality and of a grade between 14 and 15 carats.

## HUGHES BUSY AT TRENTON

**Personally Investigating the Sanitary Pressers' Grievance on Dunted Ware.**

### FOR PERMANENT RESULTS

From a Staff Correspondent.

Trenton, N. J., March 13.—President A. S. Hughes, of the National Brotherhood of Operative Pottery, since his arrival here last Tuesday, has been conducting a personal investigation of the grievance advanced by Sanitary Pressers' local No. 45, growing out of the action of the manufacturers in compelling its members to shoulder the responsibility for "dunted" ware. Meantime he has sent a communication to the secretary of the manufacturers' association, asking for a conference, but as yet has received no reply.

## DESTRUCTIVE BLAZE THROWS MEN IDLE

**Fire at Rush Run Destroys Power House and Coal Plant.**

Rush Run, March 13.—The power house and plant of the Lewis Coal & Coke company burned to the ground Wednesday night at 8 o'clock. The origin of the fire is unknown, but is thought to have been caused by electric wires becoming crossed.

The Lewis Coal & Coke company's mines are located on the Dr. Kelly farm, adjoining the C. & P. railroad tracks, midway between Rush Run and Warrenton. About 85 to 100 men are employed in the mines, which are lighted and operated with modern electrical machinery. The power plant, which was burned, is located on top of the hill above the tipple and at the head of the incline. The office of the company is located in Lewis Bros.' store building, near the W. & L. E. railroad station at Warrenton, and all or near all the stock of the company is owned by Ellsworth Lewis, of Belaire, and William A. Ward, of Wheeling.

According to the statistics presented at the meeting it is inferred that several of the sanitary potteries have lost considerable money during the past two months in being compelled to find a market for their products in the slip house. In fact, according to the reports submitted by the various shop committees the dunted ware problem has had the effect of placing many of them behind in their orders.

The settlement, if one is effected according to President Hughes, will have a permanent governing influence on the entire sanitary trade. The national executive board of the Brotherhood at its meeting last week, delegated President Hughes and Vice President Hutchins to conduct the terms of the settlement, with the conference committee of the local to act in conjunction with them. The committee representing the local is composed of Joseph T. Cotton, national statistician; Reuben McDewitt, William Wooton, William Christian and Thomas Dennis.

Unless the "dunted" ware problem is not given a satisfactory solution, the sanitary pressers will have few matters to bring before the national convention of the organization, which meets at Wheeling in May. The local is entitled to send 14 delegates, but at the meeting last Tuesday night but three were elected, as the members feel that it would only be an additional expense in sending the full quota set forth in the constitution. The delegates who will represent the local are Joseph T. Cotton, George Martin and William Wooton.

A composite child labor bill was placed on second reading after it had

been freely amended by the house of assembly last Wednesday night. It provides that no boys under 14 years of age shall work in factories, work shops or mills. The bill also prohibits children under 12 years of age from selling newspapers during the school hours or before 5:30 a. m. or after 7:30 p. m. The bill will come up for final passage next week.

The making of brick, sewer pipe and other clay products is the object of the Howard Clay Manufacturing company, incorporated in the county clerk's office a few days ago. The company has an authorized capital stock of \$250,000, and the incorporators are Emery V. Donaldson and Charles G. Edwards, of Baltimore, and Benjamin Wilson, of this city.

Assemblyman Colclough has introduced in the New Jersey legislature a bill making obligatory the use of blow fans in potteries and other manufacturing establishments where dust circulates. Colclough is a potter.

## HOSPITAL BENEFIT

**Proceeds of Dr. Pratt's Lecture to Swell the Hospital Fund.**

Arrangements have been completed by the Hospital association for a lecture to be delivered by Mr. Milton Butler Pratt, pastor of the First M. E. church of this city, for the benefit of the association. This lecture will be given next Thursday evening at the M. E. church. Dr. Pratt will lecture on "Abraham Lincoln."

The well known ability of Rev. Dr. Pratt will insure a large attendance at this lecture and will mean a considerable sum for the benefit of the hospital.

**Judge Day is Better.**

Washington, March 13.—(Special)—Judge Day was pronounced by his physicians at noon today as being slightly improved.

## EAST LIVERPOOL WILL STAND ALONE

**ONLY CITY ABOUT HERE TO VOTE FOR SCHOOL BOARD.**

**Present Members Will Be Re-Chosen, But Can Serve Only One Year.**

East Liverpool will likely be the only city of its size and class in the state that will elect members of the board of education at the coming spring election. According to a ruling of the supreme court those who are at the present time members of the board will hold the position for another year without an election. As a result all cities but East Liverpool will name no names under that head on the ticket.

The conditions existing in this city are different from those in any of the others heard from. The men who have received the nomination are now acting members of the board, and whether they be elected or not they would continue to serve for another year. There is but one difficulty apparent that can arise over their election, that is that next year when an order is issued that new members be elected, those who are nominees at the present time will be compelled to run for the nomination again notwithstanding that, according to the rule now in effect, that they will be elected for three years.

When such complications are likely

**Cincinnati Pays No Heed to Attorney General's School Board Decision.**

### A GREAT DEAL OF TROUBLE

**To the State Officials By the Question Raised—Success of the Real Law in Closing Saloons—Other Notes from the Capital.**

From a Staff Correspondent.

Columbus, March 13.—The question of school board elections is causing the state officials no end of trouble. Notwithstanding the ruling of the attorney general to the effect that no elections shall be held in cities where the ward boundaries have been changed, there seems to be a feeling of uneasiness about the matter among the educators and boards of elections as to what constitutes their duties in the premises. Communications are still pouring in daily upon the attorney general and the secretary of state for more light on the subject.

Cincinnati is ignoring the decision of the attorney general completely. The situation there differs from that

## A SPLENDID OFFER.

The News Review, in its issue of next Saturday, will inaugurate a voting contest which it will be worth while for representatives of organized labor of East Liverpool and vicinity to enter.

Briefly summarized the offer is this: To the person, male or female, receiving the highest number of votes on coupons cut from the News Review, A FREE TRIP TO EUROPE AND RETURN. To the person receiving the second highest number of votes, A TRIP UP THE GREAT LAKES OR TO SOME ATTRACTIVE SUMMER RESORT AT THE EXPENSE OF THE NEWS REVIEW.

No offer approaching this in liberality was ever before made by a newspaper in East Liverpool. The contest will be open to all representatives of organized labor in good standing, and men and women, boys and girls may vote. Rules and conditions of the contest will be published in full, along with the first coupon.

to arise it is thought by some inadvisable for any to run for election, but it has been stated that no steps will be taken to prevent the candidates remaining on the ticket if they desire.

Much controversy has been indulged in over the state in regard to the peculiar question and the supreme court has been applied to in numerous instances. Its decision was made official in the case from Steubenville. Two candidates for school board had filed a motion for a mandamus to compel the board of elections to place their names on the ticket and the court in refusing to rule favorably for the applicants announced that it did so because their right to be placed on the ballot was not clear.

## ORDERED TO LEAVE EAST LIVERPOOL

**A Hobo Asleep in a Pottery Arrested. John Allison's Canton Trip.**

The slumbers of Aaron Lake, a hobo whose home is wherever he happens to stop, were rudely interrupted while he was snugly cornered in a shed at Thompson's pottery last evening, by Officer Patrick Woods. The officer escorted him to the city jail and gave him the best the city provides. Before he was arraigned this morning the mayor was invited to take a peep at his personal appearance. As a result Mr. Lake was instructed to take a cold water bath. It was his first one in many months and he fears that he will not be able to stand the shock. Being penniless, he was ordered out of the city.

Officer Aufferheide left on the early train this morning with John Allison, who will spend the coming half year in the Canton workhouse.

## MORE CASH TODAY FOR THE LAIRD FUND

**Sixteen Dollars in Cash Turned Over to the Treasurer Today.**

Sixteen dollars were paid into the fund for Mrs. Nell Laird and her children today, a part of which has already been reported. Local No. 12 paid the contribution it had previously made and Local No. 16 sent in \$5. Mrs. W. V. Maley sent \$1.

## L. C. MOORE NOW OUT OF THE RACE

**HE DECIDES NOT TO CONTINUE AS A CANDIDATE.**

**A Letter Explains His Reasons For Withdrawing From the Precinctors Contest.**

Lisbon, March 13.—(Special)—County Chairman John S. McNutt, of the Republican central committee, gave out the following letter this afternoon, announcing the withdrawal of Lewis C. Moore, of Salineville, as a candidate for the nomination for prosecuting attorney:

"John S. McNutt, Chairman Republican Central Committee, Columbiana County, Lisbon, O.

"Sir—I regret very much the necessity of addressing you at this time, but circumstances over which I have no control compel me to withdraw my name as a candidate for prosecuting attorney of this county. I take this step, after visiting in the short time given me, a large part of the county and after consultation with many friends, and a fair consideration of my private business. I now and here thank each and all of my friends throughout the county for the kindness shown me, for the pledges of support they gave me and for the interest shown in my candidacy, and I shall always remember them and be ready to reply if the opportunity should present itself.

"This withdrawal in no manner affects my politics. I am and always have been and expect to be a Republican, and I shall be in the future, as in the past, a supporter of the Republican party, its candidates and its principles.

L. C. MOORE."

## WITH THE WORKMEN IN THE CLAY PLANTS

### OWNS VALUABLE COINS.

John Swartz, a packer employed at the National pottery, who lives on West Market street, has recently received some valuable coins, the gift of his half-brother, Joseph Lucas, who is serving in the regular army in the Philippines. Mr. Swartz has quite a collection of coins and the addition sent by his brother are highly prized. One of the coins is made of copper and bears the date 1204. This is probably the oldest coin owned by a person in the city. Mr. Lucas is expected home some time in the coming year, as he has been in the army for about 30 years, but expects to retire after his present term of enlistment runs out.

### THE FIRE LOSS.

The recent fire in the decorating shop at the Dresden did not interfere to any great extent with the operation of that department and now all traces of it have been removed. Although the flames were confined to a very small territory, they caused a great

deal of damage. The sprinklers that were in action covered a large floor space and a great deal of ware that had been decorated was damaged to such an extent that it had to be washed and redecorated. The loss on this labor amounted to almost \$200. The Dresden continues busy in all departments.

### HENRY TO LEAVE.

Pat Henry, the kilnman at the National, who was called to Trenton a short time ago by the death of a sister, has returned to the city. His mother, who lives in Trenton, is quite sick and in order to be near her he will move to Trenton. He is working out his notice at the National and expects to leave some time next week. Mr. Henry is one of the biggest and best kilnmen in the country and he will leave behind him a host of warm friends who will greatly deplore losing him.

### WORK PROGRESSING.

Work is progressing finely at the Minerva pottery. The engine was started this week for the first time, and the making of saggers has begun.

### PACKERS TO MEET.

An important meeting of Packers' local No. 25 will be held this evening

at which the delegates to the national convention will be elected and steps taken to bring about the adoption of the piece scale, a question that has so far caused a great deal of strife and contention.

### CO-OPERATIVE STORE.

The American Sewer Pipe company is about to open a co-operative grocery near the sewer pipe works, east of Lisbon, for the benefit of its employees.

### NOTES OF THE WORKMEN.

Harry Dawson and Jack Creel, of the glost end at the Dresden, have been laid up several days this week with sickness.

Will Maloney, of the glost end at the Dresden, was called to his home in the west end yesterday by an accident that occurred to his little girl. The child sustained painful injuries in a fall.

### RAPID RISE TO FORTUNE

Sharon Man Who Engaged in Manufacture Cleared \$4,000,000 On a Deal.

Sharon, Pa., March 13.—John Stevenson, who recently sold his holdings in the Sharon Steel and Tinsplate companies to the United States Steel corporation, cleared \$4,000,000 through the deal. He received more than \$5,000,000 for his holdings in the steel company.

Stevenson's rise to fortune has been very rapid. He had less than \$20,000 when he moved to New Castle in the '80's, and induced William Patterson and other capitalists to embark in the wire and nail business. This prospered, and rod and billet mills were added. The capacity of the steel mill was too great, and a bar mill was built. These were sold to the United States Steel corporation when that concern was launched. After the New Castle plants were sold Stevenson moved his \$50,000 mansion to Sharon and became interested in the Sharon Steel company. He placed his money in that concern and it, too, was gobbled by the combine.

Stevenson has now gone to Europe to secure patents held by Germans, and will again enter the manufacturing business.

### How Kennedy Lost \$10.

A special from Washington says: Representative James Kennedy, who succeeds R. W. Taylor in the Eighteenth Ohio district, discovered a new prerogative of office the other day. Ever since election to office he has been answering numberless letters relating to official business and putting a stamp on each. He was telling about this when a colleague said: "Kennedy, don't you know that every one of those letters could have been sent free?" The Youngstown man began to figure and found he was \$10 poorer than need be. "This cuts my visit down two days," he declared. "I must break even somehow."

### Independent Tug Fleet.

Cleveland, March 13.—L. S. Sullivan, of Toledo, was in this city organizing an independent tug system for the coming season of navigation. Mr. Sullivan says an independent fleet will be in operation at this port which will work in conjunction with independent fleets at Buffalo and Toledo.

### Teamsters Strike Increases.

Toledo, March 13.—The men employed by the A. J. Wolaver company, a large coal trucking firm, joined the teamsters' strike, taking off about 30 teams. There were several small disturbances, which the police were called upon to settle, but nothing of a serious character.

Winter time is the time you realize, through the sensitiveness to cold, how good or bad your blood is. It's the time when Hage's Cordial of Cod Liver Oil is most needed to multiply the little red corpuscles, so necessary to rich, red, healthy blood, full of natural heat.

## LITTLE CHICKENS WERE MISSING

OWNER ACCUSED A BOY OF THEFT AND TROUBLE BEGAN.

Two Arrests And a Fine for Assault And Battery the Result of the Dispute.

Five little chickens, worth probably 20 cents a piece, caused a lot of trouble in the vicinity of Michael Costello's fruit store on Sixth street yesterday morning, and as a result the pockets of Squire McLane are bulging and hanging low.

For several days Costello worried over the loss of his birds and watched closely to locate them. In some way he became convinced that a young lad by the name of Scalpan knew something about them, and when he met the boy yesterday he accused him. The youngster stoutly denied any knowledge of the chickens, but stated that his brother knew all about them. Costello was sure he was on the right track then, and placing his hands on the boy's shoulder demanded that he go with him in search of the elder brother.

While on their way, the father of young Scalpan met the pair. A big fuss being made by his son he pounced upon Costello and gave him quite a severe drubbing. While the fight was in progress James Darrah appeared on the scene and proceeded to take a hand. The scrap did not last long after he mixed in it. It is alleged that only one blow was struck and that Jim landed it on the ear of the elder Scalpan, who, with a groan, tumbled to the pavement and for several minutes lay there as if dead.

The Scalpans were much enraged over the sudden turn in the scrimmage and proceeded to the office of the justice, where they had a warrant issued for the arrest of Darrah, charging him with assault and battery. He was arrested later and when arraigned pleaded guilty. For the offense he was fined \$2 and costs and upon payment was released.

Following close to this hearing Costello appeared at the squire's office and swore out a warrant charging Mr. Scalpan, father of the boys, with the same offense. He was arrested this morning, and entered a plea of not guilty. His trial was set for next week, and then he wanted revenge, resulting in a warrant being issued for Mike Costello on charges similar to the others.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store 50 cents.

## NO MEETING CALLED BY THE CHAIRMAN

Another Indication That All is Not Harmonious in the Local Democracy.

The working of the mind of the chairman of the local Democratic central committee is as a closed book to the rest of the Democratic leaders in this city. The News Review recently told of the breach which was threatened between the chairman of the committee and the balance of the local politicians. It does not appear to heal. Mexican salve and all other known varieties have been applied in allopathic doses, but still the sore spot continues to crop out, notwithstanding the efforts of both sides to keep up a tranquil appearance to the general public and to the rank and file of the party.

As stated before, the chairman of the committee was determined that a citizens' ticket should be placed in the field instead of a straight Democratic ticket. The other leaders of the party succeeded in thwarting this attempt and a straight ticket was named. At the same time the chairman of the Democratic central committee was ordered to call a meeting of the central committee the first part of this week, in order to rearrange the judges and clerks of the elections made necessary by the change in the boundaries in the wards of the city. So far no call has been issued.

The officers of the election must be named by a certain day and are selected by the central committees. They must be certified to before a certain date, or else they will not be qualified to serve. If the matter rests open until election morning then the judges are selected from the bystanders at the polls at the time the polls are opened. The local leaders are wondering why the chairman has ignored the order of the convention for a meeting of the central committee and it is possible some of them may take the matter in their own hands and issue a call if one is not forthcoming in a short time from the chairman.

What's In a Name? Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases. DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine.

## WITH THE WORKMEN IN THE CLAY PLANTS

### OWNS VALUABLE COINS.

John Swartz, a packer employed at the National pottery, who lives on West Market street, has recently received some valuable coins, the gift of his half-brother, Joseph Lucas, who is serving in the regular army in the Philippines. Mr. Swartz has quite a collection of coins and the addition sent by his brother are highly prized. One of the coins is made of copper and bears the date 1304. This is probably the oldest coin owned by a person in the city. Mr. Lucas is expected home some time in the coming year, as he has been in the army for about 30 years, but expects to retire after his present term of enlistment runs out.

### THE FIRE LOSS.

The recent fire in the decorating shop at the Dresden did not interfere to any great extent with the operation of that department and now all traces of it have been removed. Although the flames were confined to a very small territory, they caused a great

deal of damage. The sprinklers that were in action covered a large floor space and a great deal of ware that had been decorated was damaged to such an extent that it had to be washed and redecorated. The loss on this labor amounted to almost \$200. The Dresden continues busy in all departments.

### HENRY TO LEAVE.

Pat Henry, the kilnman at the National, who was called to Trenton a short time ago by the death of a sister, has returned to the city. His mother, who lives in Trenton, is quite sick and in order to be near her he will move to Trenton. He is working out his notice at the National and expects to leave some time next week. Mr. Henry is one of the biggest and best kilnmen in the country and he will leave behind him a host of warm friends who will greatly deplore losing him.

### WORK PROGRESSING.

Work is progressing finely at the Minerva pottery. The engine was started this week for the first time, and the making of saggers has begun.

### PACKERS TO MEET.

An important meeting of Packers' local No. 25 will be held this evening

at which the delegates to the national convention will be elected and steps taken to bring about the adoption of the piece scale, a question that has so far caused a great deal of strife and contention.

### CO-OPERATIVE STORE.

The American Sewer Pipe company is about to open a co-operative grocery near the sewer pipe works, east of Lisbon, for the benefit of its employees.

### NOTES OF THE WORKMEN.

Harry Dawson and Jack Creel, of the glost end at the Dresden, have been laid up several days this week with sickness.

Will Maloney, of the glost end at the Dresden, was called by his home in the west end yesterday by an accident that occurred to his little girl. The child sustained painful injuries in a fall.

### RAPID RISE TO FORTUNE

Sharon Man Who Engaged in Manufacture Cleared \$4,000,000 On a Deal.

Sharon, Pa., March 13.—John Stevenson, who recently sold his holdings in the Sharon Steel and Tinplate companies to the United States Steel corporation, cleared \$4,000,000 through the deal. He received more than \$5,000,000 for his holdings in the steel company.

Stevenson's rise to fortune has been very rapid. He had less than \$20,000 when he removed to New Castle in the '80's, and induced William Petterson and other capitalists to embark in the wire and nail business. This prospered, and rod and billet mills were added. The capacity of the steel mill was too great, and a bar mill was built. These were sold to the United States Steel corporation when that concern was launched. After the New Castle plants were sold Stevenson moved his \$50,000 mansion to Sharon and became interested in the Sharon Steel company. He placed his money in that concern and it, too was gobbled by the combine. Stevenson has now gone to Europe to secure patents held by Germans, and will again enter the manufacturing business.

### How Kennedy Lost \$10.

A special from Washington says: Representative James Kennedy, who succeeds R. W. Taylor in the Eighteenth Ohio district, discovered a new prerogative of office the other day. Ever since election to office he has been answering numberless letters relating to official business and putting a stamp on each. He was telling about this when a colleague said: "Kennedy, don't you know that every one of those letters could have been sent free?" The Youngstown man began to figure and found he was \$10 poorer than he had. "This cuts my visit down two days," he declared. "I must break even somehow."

### Independent Tug Fleet.

Cleveland, March 13.—L. S. Sullivan, of Toledo, was in this city organizing an independent tug system for the coming season of navigation. Mr. Sullivan says an independent fleet will be in operation at this port which will work in conjunction with independent fleets at Buffalo and Toledo.

### Teamsters Strike Increases.

A special from Washington says: Representative James Kennedy, who succeeds R. W. Taylor in the Eighteenth Ohio district, discovered a new prerogative of office the other day. Ever since election to office he has been answering numberless letters relating to official business and putting a stamp on each. He was telling about this when a colleague said: "Kennedy, don't you know that every one of those letters could have been sent free?" The Youngstown man began to figure and found he was \$10 poorer than he had. "This cuts my visit down two days," he declared. "I must break even somehow."

### Independent Tug Fleet.

Cleveland, March 13.—L. S. Sullivan, of Toledo, was in this city organizing an independent tug system for the coming season of navigation. Mr. Sullivan says an independent fleet will be in operation at this port which will work in conjunction with independent fleets at Buffalo and Toledo.

### Teamsters Strike Increases.

Toledo, March 13.—The men employed by the A. J. Wolever company, a large coal trucking firm, joined the teamsters' strike, taking off about 30 teams. There were several small disturbances, which the police were called upon to settle, but nothing of a serious character.

Winter time is the time you realize, through the sensitiveness to cold, how good or bad your blood is. It's the time when Hagee's Cordial of Cod Liver Oil is most needed to multiply the little red corpuscles, so necessary to rich, red, healthy blood, full of natural heat.

## LITTLE CHICKENS

### WERE MISSING

OWNER ACCUSED A BOY OF THEFT AND TROUBLE BEGAN.

Two Arrests and a Fine for Assault And Battery the Result of the Dispute.

Five little chickens, worth probably 20 cents a piece, caused a lot of trouble in the vicinity of Michael Costello's fruit store on Sixth street yesterday morning, and as a result the pockets of Squire McLane are bulging and hanging low.

For several days Costello worried over the loss of his birds and watched closely to locate them. In some way he became convinced that a young lad by the name of Scalpan knew something about them, and when he met the boy yesterday he accused him. The youngster stoutly denied any knowledge of the chickens, but stated that his brother knew all about them. Costello was sure he was on the right track then, and placing his hands on the boy's shoulder demanded that he go with him in search of the elder brother.

While on their way, the father of young Scalpan met the pair. A big fuss being made by his son he pounced upon Costello and gave him quite a severe drubbing. While the fight was in progress James Darrah appeared on the scene and proceeded to take a hand. The scrap did not last long after he mixed in it. It is alleged that only one blow was struck and that Jim landed it on the ear of the elder Scalpan, who, with a groan, tumbled to the pavement and for several minutes lay there as if dead.

The Scalpans were much enraged over the sudden turn in the scrimmage and proceeded to the office of the justice, where they had a warrant issued for the arrest of Darrah, charging him with assault and battery. He was arrested later and when arraigned pleaded guilty. For the offense he was fined \$2 and costs and upon payment was released.

Following close to this hearing Costello appeared at the 'squire's office and swore out a warrant charging Mr. Scalpan, father of the boys, with the same offense. He was arrested this morning and entered a plea of not guilty. His trial was set for next week, and then he wanted revenge, resulting in a warrant being issued for Mike Costello on charges similar to the others.

## NO MEETING CALLED

### BY THE CHAIRMAN

Another Indication That All Is Not Harmonious in the Local Democracy.

The working of the mind of the chairman of the local Democratic central committee is as a closed book to the rest of the Democratic leaders in this city. The News Review recently told of the breach which was threatened between the chairman of the committee and the balance of the local politicians. It does not appear to heal. Mexican salve and all other known varieties have been applied in allopathic doses, but still the sore spot continues to crop out, notwithstanding the efforts of both sides to keep up a tranquil appearance to the general public and to the rank and file of the party.

As stated before, the chairman of the committee was determined that a citizens' ticket should be placed in the field instead of a straight Democratic ticket. The other leaders of the party succeeded in thwarting this attempt and a straight ticket was named. At the same time the chairman of the Democratic central committee was ordered to call a meeting of the central committee the first part of this week, in order to rearrange the judges and clerks of the elections made necessary by the change in the boundaries in the wards of the city. So far no call has been issued.

The officers of the election must be named by a certain day and are selected by the central committees. They must be certified to before a certain date, or else they will not be qualified to serve. If the matter rests open until election morning then the judges are selected from the bystanders at the polls at the time the polls are opened. The local leaders are wondering why the chairman has ignored the order of the convention for a meeting of the central committee and it is possible some of them may take the matter in their own hands and issue a call if one is not forthcoming in a short time from the chairman.

### What's In a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases. DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine.

# ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it, I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly,

## EAST END

### OFFICERS ELECTED

By the Missionary Society of the Erie Street M. E. Church.

The meeting of the missionary society of the Erie street M. E. church last night at the home of Mrs. Elizabeth Owen, of St. George street, was well attended. The most important of the business before the society was the election of officers, the following ladies being elected to the respective positions:

President—Mrs. Laura Cooper.  
Vice President—Mrs. Isabelle Jones.  
Recording Secretary—Mrs. Sarah Dawson.  
Corresponding Secretary and Treasurer—Mrs. G. W. Orcutt.  
The society is in a flourishing condition, and the subjects coming before the meeting added much interest.

#### Camping Club Meeting.

The Oriental Camping club met last night at Hopkins' hall and elected Thomas J. Putnam in the place of George Nelson, who resigned at a former meeting. The place for holding the camp during the coming summer was discussed, and while five or six places have been suggested, nothing definite was done in the matter. A committee will be appointed at the next meeting who will visit some of the places and make all arrangements.

#### Crowd Will Go to Toronto.

One of the largest excursions that will leave the East End will be the turn-out of Cleopatra court No. 1101, when it visits the lodge at Toronto on Saturday evening, March 21. A committee of the court will try to make arrangements for special cars, as it is expected that at least 200 from here will attend. Invitations have been sent out to Chester, East Liverpool and Wellsville courts.

#### New K. G. E. Castle.

A new castle of the Knights of the Golden Eagles will be organized in the East End, and the project is meeting with much success. Thirty names have been signed to the application for a charter, which will be forwarded to headquarters tonight.

#### To Entertain Friends.

Miss Bertha Grant, of Pennsylvania avenue, will entertain friends to the number of 15 at her home this evening. The evening will be passed in the enjoyment of music and games. Refreshments will also be served.

#### EAST END AFFAIRS.

Mrs. Sarah Dawson is visiting friends at Smith's Ferry.

Archibald Searight, of Pennsylvania avenue is at his home, indisposed.

M. W. Taylor and O. M. Hendershot have gone to Beaver on business.

Miss Della Richmond, of High street, is threatened with fever.

Mrs. Thomas Hays, of High street, is recovering from a severe attack of pleurisy.

William Williamson, who has been visiting friends, has returned to his home at New Martinsville.

Reuben Martin, who attended the Finley funeral, left this morning for his home at New Martinsville.

Rev. J. N. Swan has gone on a visit to his son, who is pastor of the Presbyterian church at Newcomerstown.

The infant child of Mrs. Pearl Martin, of Pennsylvania avenue, which has been ill all winter, is much improved.

'Squire L. W. Carman will leave tomorrow morning on a business trip to Wellsburg, W. Va., and expects to be gone until Tuesday morning.

#### Will Duplicate Amount Raised.

Halifax, N. S., March 13.—The governor of Acadia college at Wolfville has received an offer from John D. Rockefeller to give to Acadia one dollar for each dollar raised by the college, up to \$100,000, before Jan. 1, 1908.

#### American Tourists Reach Genoa.

Genoa, March 13.—The Dominion line steamer New England arrived with 262 American tourists aboard. All are well and are proceeding on the New England to Alexandria, whence they will visit Cairo.

# FROM PRAIRIE TO HOME

Within a few years has sprung up a most unique industry, that of converting the hitherto considered worthless Prairie or Wire Grass into Furniture, Carpets and Rugs.

By a patented process this grass which is as tough as wire is rendered so pliable that it can be woven into beautiful designs and shapes and makes the most elastic of Chairs and Rockers. It is more elastic than rattan and its color being a rich dark green it does not soil as does the rattan.

We advise that you get a few pieces for your home as they are the most comfortable you can possibly get.

## HARD'S.

### THE BIG STORE.

#### NEW ROADS FOR WEST VIRGINIA

Rivalry of Pennsylvania and Wabash Systems Will Open Up Vast Resources of the State.

Chaleston, W. Va., March 13.—A corps of engineers is now making a survey for a line for the Pennsylvania railroad from this city to Sutton, along the opposite side of Elk river from that traversed by the Charleston, Glendennin and Sutton road. When ex-Senator Henry G. Davis recently purchased this road, which runs up the Elk river 35 miles, it was generally understood that it was in the interest of the Wabash, to which Mr. Davis had just sold the West Virginia Central and the Little Kanawha roads and which has been engaged in connecting its lines so as to get a tidewater outlet to the east.

The Pennsylvania system, owning both the Chesapeake and Ohio and the Baltimore and Ohio, has been trying to block the progress of the Wabash ever since its intention became apparent. The control of the Charleston, Glendennin and Sutton road, which is to be extended at once to a connection with the Wabash's Little Kanawha extension, will open up a fine territory of coal and timber for that road and also will give it valuable connections between this section and the northern section of the state. The Pennsylvania, recognizing this, has set out to make a connection between its Baltimore and Ohio branches at Sutton, 100 miles north of here, and the Chesapeake and Ohio here, thus dividing the territory and the trade.

#### The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough the food and run down limbs and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia, and all stomach troubles.

#### No Change in Scale.

Youngstown, O., March 13.—The bi-monthly settlement of the Amalgamated wage scale governing the puddlers and finishers was made at the office of the American Steel Hoop company. No change in the scale for March and April was made.

#### Infected Cattle Killed.

Bedford, N. H., March 13.—Four herds of cattle, aggregating 63 animals, located in this vicinity, were found infected with foot and mouth disease and slaughtered.

#### A Prisoner in Her House.

Mrs. W. H. Lavha, of 1001 Agnes avenue, Kansas City, Mo., has for several years been troubled with severe hoarseness and at times a hard cough, which she says, "Would keep me in doors for days. I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, have no hesitation in saying I realize that I am entirely cured. From this time on Chamberlain's Cough Remedy will be in my house constantly." This remedy is for sale by Alvin H. Bulger.

Chardon, O., March 13.—The failure of the Boughton, Ford & Co. bank at Burton is now known to have reached the sum of \$813,633 in excess of the assets. Only a few business houses were wrecked by the crash, and the credit of the merchants of Geauga county has probably not been impaired. Individual depositors suffered the greatest loss, and to many of them the failure means ruin. One of the saddest things in connection with the failure, was the feeling of security manifested by elderly people in the stability of the bank. ## EAST END OFFICERS ELECTED

By the Missionary Society of the Erie Street M. E. Church.

The meeting of the missionary society of the Erie street M. E. church last night at the home of Mrs. Elizabeth Owen, of St. George street, was well attended. The most important of the business before the society was the election of officers, the following ladies being elected to the respective positions:

President—Mrs. Laura Cooper.  
Vice President—Mrs. Isabelle Jones.  
Recording Secretary—Mrs. Sarah Dawson.  
Corresponding Secretary and Treasurer—Mrs. G. W. Orcutt.

The society is in a flourishing condition, and the subjects coming before the meeting added much interest.

**Camping Club Meeting.**  
The Oriental Camping club met last night at Hopkins' hall and elected Thomas J. Putnam in the place of George Nelson, who resigned at a former meeting. The place for holding the camp during the coming summer was discussed, and while five or six places have been suggested, nothing definite was done in the matter. A committee will be appointed at the next meeting who will visit some of the places and make all arrangements.

**Crowd Will Go to Toronto.**  
One of the largest excursions that will leave the East End will be the turnout of Cleopatra court No. 1101, when it visits the lodge at Toronto on Saturday evening, March 21. A committee of the court will try to make arrangements for special cars, as it is expected that at least 200 from here will attend. Invitations have been sent out to Chester, East Liverpool and Wellsville courts.

**New K. G. E. Castle.**  
A new castle of the Knights of the Golden Eagles will be organized in the East End, and the project is meeting with much success. Thirty names have been signed to the application for a charter, which will be forwarded to headquarters tonight.

**To Entertain Friends.**  
Miss Bertha Grant, of Pennsylvania avenue, will entertain friends to the number of 15 at her home this evening. The evening will be passed in the enjoyment of music and games. Refreshments will also be served.

**EAST END AFFAIRS.**  
Mrs. Sarah Dawson is visiting friends at Smith's Ferry.  
Archie Seagriff, of Pennsylvania avenue, is at his home, indisposed.  
M. W. Taylor and O. M. Hendershot have gone to Beaver on business.  
Miss Della Richmond, of High street, is threatened with fever.  
Mrs. Thomas Hays, of High street, is recovering from a severe attack of pleurisy.

William Williamson, who has been visiting friends, has returned to his home at New Martinsville.  
Reuben Martin, who attended the Finley funeral, left this morning for his home at New Martinsville.

Rev. J. N. Swan has gone on a visit to his son, who is pastor of the Presbyterian church at Newcomerstown.  
The infant child of Mrs. Pearl Martin, of Pennsylvania avenue, which has been ill all winter, is much improved.  
Squire L. W. Carman will leave tomorrow morning on a business trip to Wellsburg, W. Va., and expects to be gone until Tuesday morning.

**Will Duplicate Amount Raised.**  
Halifax, N. S., March 13.—The governor of Acadia college at Wolfville has received an offer from John D. Rockefeller to give to Acadia one dollar for each dollar raised by the college, up to \$100,000, before Jan. 1, 1908.

**American Tourists Reach Genoa.**  
Genoa, March 13.—The Dominion line steamer New England arrived with 262 American tourists aboard. All are well and are proceeding on the New England to Alexandria, whence they will visit Cairo.

# FROM PRAIRIE TO HOME

Within a few years has sprung up a most unique industry, that of converting the hitherto considered worthless Prairie or Wire Grass into Furniture, Carpets and Rugs.

By a patented process this grass which is as tough as wire is rendered so pliable that it can be woven into beautiful designs and shapes and makes the most elastic of Chairs and Rockers. It is more elastic than rattan and its color being a rich dark green it does not soil as does the rattan.

We advise that you get a few pieces for your home as they are the most comfortable you can possibly get.

### NEW ROADS FOR WEST VIRGINIA

Rivalry of Pennsylvania and Wabash Systems Will Open Up Vast Resources of the State.

Chaleston, W. Va., March 13.—A corps of engineers is now making a survey for a line for the Pennsylvania railroad from this city to Sutton, along the opposite side of Elk river from that traversed by the Charleston, Glendennin and Sutton road. When ex-Senator Henry G. Davis recently purchased this road, which runs up the Elk river 35 miles, it was generally understood that it was in the interest of the Wabash, to which Mr. Davis had just sold the West Virginia Central and the Little Kanawha roads and which has been engaged in connecting its lines so as to get a tidewater outlet to the east.

The Pennsylvania system, owning both the Chesapeake and Ohio and the Baltimore and Ohio, has been trying to block the progress of the Wabash ever since its intention became apparent. The control of the Charleston, Glendennin and Sutton road, which is to be extended at once to a connection with the Wabash's Little Kanawha extension, will open up a fine territory of coal and timber for that road and also will give it valuable connections between this section and the northern section of the state. The Pennsylvania, recognizing this, has set out to make a connection between its Baltimore and Ohio branches at Sutton, 100 miles north of here, and the Chesapeake and Ohio here, thus dividing the territory and the trade.

I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, have no hesitation in saying I realize that I am entirely cured. ## ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it. I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly,

A Bank at Burton Which Was Run At a Continual Loss.

Chardon, O., March 13.—The failure of the Boughton, Ford & Co. bank at Burton is now known to have reached the sum of \$813,633 in excess of the assets. Only a few business houses were wrecked by the crash, and the credit of the merchants of Geauga county has probably not been impaired. Individual depositors suffered the greatest loss, and to many of them the failure means ruin. One of the saddest things in connection with the failure, was the feeling of security manifested by elderly people in the stability of the bank. Some of the depositors will have passed away when a small dividend is finally declared. It is the most unfortunate

FRIDAY, MARCH 13, 1903.

The celebration of the centennial of Ohio, to be held at Chillicothe May 20 and 21, is of great interest to the people throughout the state, and Ohio's first capital is preparing to entertain on that occasion the largest crowd in the town's history. The News Review acknowledges the receipt, through the Scioto Gazette, of an invitation stating that the press committee will open special headquarters and afford every facility to visiting newspaper men for work and enjoyment. Chillicothe people are duly impressed with the magnitude and importance of the coming event and will do everything possible to make the celebration a credit to their city and to Ohio.

More railroads across Columbian county are being projected or promised. We are willing to give them all a chance. The trouble has been heretofore to induce the promoters to take advantage of the chances given. But new capitalists and new men are now interested and it would be surprising indeed if some of the ambitious schemes now so numerous should not materialize.

Columbian county will be 100 years old on May 1. Are the people going to celebrate the anniversary or to merge it with the centennial of the village of Lisbon? Columbian county is big enough to have a good-sized celebration of its own.

## DO NOT DOSE THE STOMACH

Cure Catarrh by Nature's Own Method—Every Breath of Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete outfit of Hyomei costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and there is enough Hyomei for more than a month's treatment of catarrh. If one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

Will Reed has sold hundreds of Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

Those who are subject to catarrh or catarrhal colds will do themselves an injustice if they do not purchase a Hyomei outfit at once, so as to be prepared for the sudden changes of the season.

liberty to select as many other dates as he pleases for tree planting. It beautifies any man's property and adds to its value. Everybody who owns a piece of land should not neglect to have one or several Arbor days.

The senate is considering the question whether it is possible to improve its rules. To an outsider it would seem that a rule which would make it impossible for one or two members to do so much talking that the rest can do no business ought to be made and put in force instantly.

Wife Murderer Knapp is receiving floral tributes at Hamilton from women who refuse to give their names. If this isn't false modesty what would you call it?

Criticisms were hurled at the governor of West Virginia for putting 40,000 words in his message. Senator Morgan can put more than that in a parenthesis.

Now let Russia give its subjects civil as well as religious freedom and it will no longer be necessary for the czar to keep himself in a bomb-proof cage.

The keenest-sighted political observers can see nothing ahead for the Democracy but an impenetrable fog in which shipwreck is certain.

Cleveland is right. The Democracy needs an advisor. It needs to heed good advice, also, and that is something it never did.

Mr. Bryan's renewed visits to Tom Johnson suggest an aggregation of circumstances that have been playing in hard luck.

What is the weather going to be when the groundhog lets go?

The czar is learning that despotism is out of date.

There are five surviving children, other than Mrs. Wasbutsky, all of whom live in New York.

## THE NEW OIL FIELD A PROMISING ONE

Prospects Great at Uniontown, Ohio. One Company Offered \$175,000 For Holdings.

Uniontown, O., March 13.—The Uniontown oil field will be the mecca of oil men from many parts of the country, during the coming season. Latest developments go to prove that the field is certain to attract attention, and while it may not prove to be so large as many had hoped, yet it undoubtedly will prove to be a profitable one.

The latest well to come in is one on the Caldwell farm. It was drilled in Wednesday and is good for thirty-five or forty barrels per day. The well is owned by the Hartley Oil & Gas company, the company which, so far, has been the most successful in the field.

A start has been made on the Hays farm, by the Doolittle company. The new well is being drilled at a distance of but 400 feet from a 45-barrel well on the Caldwell farm, which now contains four producers. Mr. Caldwell, it is understood, now is drawing something like \$500 per month on his one-eighth of the production.

The field now contains twenty-five producers and only three dusters have been drilled. That oil men, generally, have faith in the field is shown by the fact that the Hartley company has been offered the neat sum of \$175,000 for its holdings. The Caldwell company also has valuable holdings for which a fancy price has been offered.

## LOOKING AFTER INTERESTS

Chas. Morris Learns Some Interesting Facts About Durbin's Removal.

Charles Morris, of Allegheny, was a visitor in this city yesterday, looking after his property on Walnut street. Mr. Morris is a relative of Andrew Carnegie. The property which he is looking after was the building occupied by S. P. Durbin, who recently removed his fixtures from the building without his creditors learning what was being done. Durbin adopted an ingenious method in placing a small pox sign on the front of the house and no one would dare to cross his threshold. He was able to get away with his goods, elude his creditors and evade the payment of a month's rent. Mr. Morris expects to move to this city in a short time, but has not yet decided where he will live, as he intends to build, but so far has not found a desirable location.

## LOCAL MAN A DIRECTOR

W. E. Wells One of the Official Board of a Newly Organized Railroad Company.

The Lake & River railroad company has been organized as an outgrowth of the Richland & Mahoning Railway company, projected some time ago by C. W. French, of Cleveland. It is the intention of the new company to consolidate the roads projected by French and build a short line through the state from Chicago to Pittsburgh.

No surveys have yet been made and nothing definite has yet been done on the work. It is the intention of the company to run a spur of the road from some point yet to be determined, to this city.

W. E. Wells, of this city, has been chosen as a member of the board of directors of the company.

### To Straighten the Road.

A number of options were taken yesterday by representatives of the C. & P. company on lots in and around Hammondsville. The lots are being secured, it is stated, so that some of the bad curves in the track can be straightened. Other options will be taken.

The train by which he was injured was a west-bound freight and had been made up in the Wellsview yards. It had just passed the coal tippie on which Martin Bauchman and Albert Richards were killed last Monday.

## OVER TWO BILLION IN THE TRUSTS

Showing of Pittsburg in the List Reported by Congressman Littlefield.

Pittsburg, March 13.—Pittsburg is either the home or else an important part of no less than 46 corporations which are listed by Congressman Charles E. Littlefield, of Maine, as trusts engaged in interstate commerce for whose operations the Littlefield bill is designed. Congressman Littlefield divides these "trusts" into two classes. One he calls "industrial trusts," the other "local and natural monopolies." Of the first class Pittsburg has 40, with a combined capital of \$2,172,604,000, and of the second class 6 with a combined capital of \$81,720,000. In computing the capital, both common and preferred stock as well as bonds, are taken into the reckoning.

The word "trust" as used by Mr. Littlefield means a corporation resulting from the combination of other corporations.

It is claimed that this list is the most accurate one of the trusts that has ever been collected. It gives \$9,231,136,689 as the combined capitalization of the industrial combines and \$4,519,597,819 for the local and natural monopolies of the country over. At several parts of the list there are doubtful statements, but on the whole it is probably the most accurate that has yet been produced.

### A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength."

## JUBILEE DINNER AT THE Y. M. C. A.

FREEDOM FROM DEBT TO BE APPROPRIATELY CELEBRATED.

The Event of March 24 Promises to Be Great in Association History.

Secretary Wright, of the Y. M. C. A., and the members of that organization are making great preparations for their banquet to be held in the Y. M. C. A. hall Tuesday evening, March 24. This is to be the jubilee dinner to commemorate the freeing of the organization from debt. While the subscriptions were all taken several months ago to pay the balance of the debt on the association, the money has just been turned over. It was a hard task to collect all the subscriptions at the time they were due and that work has just been completed.

It is the intention of having all prior secretaries of the local Y. M. C. A. here at the banquet and all will be called upon to make a few remarks. Several speakers of prominence will also be present and addresses will be given. Glenn K. Shurtliff, general secretary of the Cleveland Y. M. C. A., will be present and deliver an address on "Some Recent Phases of Association Work." T. J. Gillespie, secretary of the Lockhart Iron & Steel company, of Pittsburgh, will also be present and speak on the "Value of the Young Men to a Community." Dr. Milton Butler Pratt will also take for the theme of an interesting address the "Value of the Community to Young Men."

A large number of invitations will be issued and the members of the organization will be permitted to bring one or more friends with them. A banquet will be served at 7:30 in the evening and it has been decided to charge \$1.00 per plate to help cover the expense of the affair. Every effort will be made to make this one of the greatest events in the history of the local Y. M. C. A. and every indication points to the success of the affair.

Mr. Caldwell, it is understood, now is drawing something like \$500 per month on his one-eighth of the production.

The field now contains twenty-five producers and only three dusters have been drilled. That oil men, generally, have faith in the field is shown by the fact that the Hartley company has been offered the neat sum of \$175,000 for its holdings. The Caldwell company also has valuable holdings for which a fancy price has been offered.

## LOOKING AFTER INTERESTS

Chas. Morris Learns Some Interesting Facts About Durbin's Removal.

Charles Morris, of Allegheny, was a visitor in this city yesterday, looking after his property on Walnut street. Mr. Morris is a relative of Andrew Carnegie. The property which he is looking after was the building occupied by S. P. Durbin, who recently removed his fixtures from the building without his creditors learning what was being done. Durbin adopted an ingenious method in placing a small box sign on the front of the house and no one would dare to cross his threshold. He was able to get away with his goods, elude his creditors and evade the payment of a month's rent. Mr. Morris expects to move to this city in a short time, but has not yet decided where he will live, as he intends to build, but so far has not found a desirable location.

## LOCAL MAN A DIRECTOR

W. E. Wells One of the Official Board of a Newly Organized Railroad Company.

The Lake & River railroad company has been organized as an outgrowth of the Richland & Mahoning Railway company, projected some time ago by C. W. French, of Cleveland. It is the intention of the new company to French the solidate the roads projected by French and build a short line through the state from Chicago to Pittsburgh.

No surveys have yet been made and nothing definite has yet been done on the work. It is the intention of the company to run a spur of the road from some point yet to be determined, to this city.

W. E. Wells, of this city, has been chosen as a member of the board of directors of the company.

## To Straighten the Road.

A number of options were taken yesterday by representatives of the C. & P. company on lots in and around Hammondsville. The lots are being secured, it is stated, so that some of the bad curves in the track can be straightened. Other options will be taken.

## OVER TWO BILLION IN THE TRUSTS

Showing of Pittsburg in the List Reported by Congressman Littlefield.

Pittsburg, March 13.—Pittsburg either the home or else an important part of no less than 46 corporations which are listed by Congressman Charles E. Littlefield, of Maine, as trusts engaged in interstate commerce for whose operations the Littlefield bill is designed. Congressman Littlefield divides these "trusts" into two classes. One he calls "industrial trusts," the other "local and natural monopolies." Of the first class Pittsburg has 40, with a combined capital of \$2,172,604,000, and of the second class 6 with a combined capital of \$81,720,000. In computing the capital, both common and preferred stock as well as bonds, are taken into the reckoning.

The word "trust" as used by Mr. Littlefield means a corporation resulting from the combination of other corporations.

It is claimed that this list is the most accurate one of the trusts that have ever been collected. It gives \$9,231,136,689 as the combined capitalization of the industrial combines and \$4,519,597,819 for the local and natural monopolies of the country over. At several parts of the list there are doubtful statements, but on the whole it is probably the most accurate that has yet been produced.

## JUBILEE DINNER AT THE Y. M. C. A.

FREEDOM FROM DEBT TO BE APPROPRIATELY CELEBRATED.

The Event of March 24 Promises to Be Great in Association History.

Secretary Wright, of the Y. M. C. A., and the members of that organization are making great preparations for their banquet to be held in the Y. M. C. A. hall Tuesday evening, March 24. This is to be the jubilee dinner to commemorate the freeing of the organization from debt. While the subscriptions were all taken several months ago to pay the balance of the debt on the association, the money has just been turned over. It was a hard task to collect all the subscriptions at the time they were due and that work has just been completed.

It is the intention of having all prior speakers of the local Y. M. C. A. here at the banquet and all will be called upon to make a few remarks. Several speakers of prominence will be given. Glenn K. Shurtliff, general secretary of the Cleveland Y. M. C. A., will be present and deliver an address on "Some Recent Phases of Association Work." T. J. Gillespie, secretary of the Lockhart Iron & Steel company, of Pittsburg, will also be present and speak on the "Value of the Young Men to a Community." Dr. Milton Butler Pratt will also take for the theme of an interesting address the "Value of the Community to Young Men."

A large number of invitations will be issued and the members of the organization will be permitted to bring one or more friends with them. A banquet will be served at 7:30 in the evening and it has been decided to charge \$1.00 per plate to help cover the expense of the affair. Every effort will be made to make this one of the greatest events in the history of the local Y. M. C. A. and every indication points to the success of the affair.

FRIDAY, MARCH 13, 1903.

The celebration of the centennial of Ohio, to be held at Chillicothe May 20 and 21, is of great interest to the people throughout the state, and Ohio's first capital is preparing to entertain on that occasion the largest crowd in the town's history. The News Review acknowledges the receipt, through the Scioto Gazette, of an invitation stating that the press committee will open special headquarters and afford every facility to visiting newspaper men for work and enjoyment. Chillicothe people are duly impressed with the magnitude and importance of the coming event and will do everything possible to make the celebration a credit to their city and to Ohio.

More railroads across Columbiana county are being projected or promised. We are willing to give them all a chance. The trouble has been heretofore to induce the promoters to take advantage of the chances given. But new capitalists and new men are now interested and it would be surprising indeed if some of the ambitious schemes now so numerous should not materialize.

Columbiana county will be 100 years old on May 1. Are the people going to celebrate the anniversary or to merge it with the centennial of the village of Lisbon? Columbiana county is big enough to have a good-sized celebration of its own.

## DO NOT DOSE THE STOMACH

Cure Catarrh by Nature's Own Method—Every Breath of Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by dosing the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete outfit of Hyomei costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and there is enough Hyomei for more than a month's treatment of catarrh. If one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

Will Reed has sold hundreds of Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

Those who are subject to catarrh or catarrhal colds will do themselves an injustice if they do not purchase a Hyomei outfit at once, so as to be prepared for the sudden changes of the season.

liberty to select as many other dates as he pleases for tree planting. It beautifies any man's property and adds to its value. Everybody who owns a piece of land should not neglect to have one or several Arbor days.

The senate is considering the question whether it is possible to improve its rules. To an outsider it would seem that a rule which would make it impossible for one or two members to do so much talking that the rest can do no business ought to be made and put in force instantly.

Wife Murderer Knapp is receiving floral tributes at Hamilton from women who refuse to give their names. If this isn't false modesty what would you call it?

Criticisms were hurled at the governor of West Virginia for putting 40,000 words in his message. Senator Morgan can put more than that in a parenthesis.

Now let Russia give its subjects civil as well as religious freedom and it will no longer be necessary for the czar to keep himself in a bomb-proof cage.

## THE NEW OIL FIELD A PROMISING ONE

Prospects Great at Uniontown, Ohio. One Company Offered \$175,000 For Holdings.

Uniontown, O., March 13.—The Uniontown oil field will be the mecca of oil men from many parts of the country, during the coming season. Latest developments go to prove that the field is certain to attract attention, and while it may not prove to be so large as many had hoped, yet it undoubtedly will prove to be a profitable one.

The latest well to come in is one on the Caldwell farm. It was drilled in Wednesday and is good for thirty-five or forty barrels per day. The well is owned by the Hartley Oil & Gas company, the company which, so far, has been the most successful in the field.

A start has been made on the Hays farm, by the Doolittle company. The new well is being drilled at a distance of but 400 feet from a 45-barrel well on the Caldwell farm, which now contains four producers. Mr. Caldwell, it is understood, now is drawing something like \$500 per month on his one-eighth of the production.

The field now contains twenty-five producers and only three dusters have been drilled. That oil men, generally, have faith in the field is shown by the fact that the Hartley company has been offered the neat sum of \$175,000 for its holdings. ### SHOWALTER'S HOPES

The Assistant District Attorney Says  
He Will Be the Next  
Congressman.

Assistant U. S. District Attorney Showalter, in an interview in Wheeling, says he is quite certain that he will be the next congressman from this district. In the interview Mr. Showalter spoke very confidently of his prospects and gave the reason for the faith that is in him.

"I did not expect to get the nomination in the last campaign. I entered the race merely to do the preliminary work. I wanted to meet the people and let them know who I was. These things I accomplished and I propose to win the nomination next time, no matter who enters the contest against me. I expect to have the Marion delegation solid, and look for strong support in Harrison and Wetzel. In every county in the district I have friends, and in Wheeling some of your most influential Republicans have pledged themselves to my candidacy. The nomination is coming to Marion, as sure as anything in politics, and I am going to be the next congressman from this district."

### THE BRIDGE TOLLS

Are Upheld By the United States  
Court And the Present  
Schedule Stands.

A decision was handed down yesterday in the United States district court at Parkersburg that will have the effect of imparting a more thorough understanding of the rules and regulations of the East Liverpool Bridge company. The trouble which ensued the early part of the year between the toll collectors and a crowd of men pressing over the bridge who refused to pay toll, except for the driver and teams, was brought before the notice of the court, and the court fully sustained the action of the receiver and Supt. Brown for enforcing the collection of tolls as heretofore collected, and entered an order directing him to enforce the tolls as heretofore listed during the time the bridge will be in the custody of the court, and to report at once to the court, the names of any and all persons refusing to pay tolls which are at present in vogue.

The rule relating to wagons and vehicles is: "Except in case of funerals and on Sunday, extra passengers over and above the driver and helper shall

## WELLSVILLE

### STREET NUMBERS

And Street Signs Are One of the Acknowledged Needs of  
Wellsville.

All the residences and business buildings in Wellsville should be renumbered. Should the receipts of the local postoffice increase to such an extent that free delivery is established this would be a necessity, as well as a convenience. A number of years ago the houses were all numbered. Should an inspection be made now, not one-fourth of the houses would be found with numbers. The other fourth of the numbers are so rusted that they are illegible.

In connection with the house numbers are the street signs. Should a stranger come into the city and wish to make a tour of the town it would be a difficult task unless he engaged some person familiar with the streets to act as guide.

In the West End there are four "Short" streets. How all received this same name is a mystery. A stranger in this part of the city would have no little trouble to get his bearings. Street signs at the corners would soon do away with this difficulty.

Before these things can be done council will be compelled to take action. Some expense would be attached to the work, but with such results, as it would bring council should not hesitate to act. Mayor Fozo has always favored this plan, and does not understand why it has not been carried out before.

### BURGLARS ACTIVE

A Number of Wellsville Business Places Visited by Light Fingering Gentry.

Several Wellsville business houses were visited by thieves early Tuesday morning. Patrick Fitzpatrick's saloon, in the West End, was entered by the rear door, the cash register emptied of its contents, which was about five dollars, and a small quantity of whisky taken. "Ginger" Davis' place on Front street was also visited. An entrance here was effected through a rear hall door leading from Main street. Davis reports his loss to be small, five dollars in cash, which amount is always left in the register for change and one quart of his best whisky. Had the thief been more diligent in his search for money at Davis' place he could have added about \$20 more to his plunder as it was found unguarded in the back of the drawer covered with some papers just as it was left.

Butler & Howe's dry goods store was another place which received a call but was not entered, as the colored man who sleeps in the store was awakened by the noise at the back door and set up a scream which frightened the intruders away. No clue as to who the guilty party is has yet been found, but an effort is being made by the local police to locate the thief.

### WEST END BUILDING BOOM

New Houses in That Section Are Springing Up With Great Rapidity.

Business in the West End is advancing rapidly and the people in that vicinity look for the greatest boom in their history this coming summer. Houses on Clark and Kelly avenues are being built as fast as the material arrives. One firm of this city, White & Wilkes, has the contract for the stone work of 16 of the foundations.

The tract of land back of Commerce street, between Fifteenth and Eighteenth streets, which was once known as the Wellsville fair grounds, is being built up so rapidly that by the dawn of another year it will be a cluster of dwellings. The new two-story building being erected by H. C. Aughinbaugh, at the corner of Eighteenth and Main streets, is being pushed ahead with all possible speed. The people of the West End think it is only a matter of a few years when that part of the city will be the business center of Wellsville.

### A DOUBLE FORCE

Will Be Put on at the Wells Stone Quarry as Soon as Improvements Are Done.

Improvements at the Wellsville stone quarry, near Wellsville, are progressing rapidly. A new rock-bedded road has been built from the main road on the west side leading to the quarry and also one from the east side. In all probability one of these roads will be used to have a switch connecting with the C. & P. railroad run up to the quarry.

The stone taken from this quarry is being used by most of the local contractors, and they report it to be excellent. The company has established a large trade and has a number of large orders to fill. About 12 men are

employed, but as soon as the switch is put in the force will be doubled.

### His Brother Dead.

Julius Goetz yesterday received word that his only brother was dead at Berlin.

### TEMPORARY ROAD TO AVOID THE MUD

Otherwise Teams Could not Get to the Wharf—Contractors' New House Boat.

The river is falling somewhat more rapidly than had been expected, and today there is about a 16-foot stage. The local wharfbots would have been inaccessible owing to the deep mud left upon the banks by the receding waters had not Wharfmaster Martin still constructed temporary roads with broken ware from the potteries. Business was never better than it has been this week and freight receipts and shipments have been unusually heavy. The passenger lists of the packets have been unusually long.

The big two-deck houseboat, Lone Star, recently purchased by the contracting firm of C. A. Sims & Co., which will be utilized by them as a home for a number of their workmen while the work of grading for the new double tracking of the C. & P. is now moored at the local wharf, just above the Pilgrim coal flat. The Lone Star is one of the best boats of its kind on the river and can be converted into a veritable floating palace. It has ten rooms.

Today Mr. Sims was at the wharf to arrange for the removal of the boat to Yellow Creek, where a large force of men are at work on the grading. The Greenwood will take her down to night if the arrangement can be made. The Virginia lost so much time on her last up trip that she will be held over at Pittsburgh so that she can come out on her regular time Saturday. The Greenwood did not come up until 1 o'clock this morning, the time being lost by the heavy business she encountered. She will be down tonight at 8 o'clock.

### KENNEDY SIGNS WITH PITTSBURG

Well Known Bellaire Ball Player Becomes a Member of the Pirates.

Bellaire, March 13.—William Kennedy, the well-known Bellaire professional base ball player, has signed with Pittsburgh and has received orders to join the team next Monday. This bit of information was announced by the friends of the pitcher yesterday morning, and it proved to be the base ball development of the week. It is the intention of the Bellaire man to go at once to Hot Springs, where they begin their practice games.

Kennedy was with Brooklyn for a good while and won an enviable reputation for good, strong pitching, but unfortunately he was compelled to secure his release, as it was feared that he would not recover of what was thought to be an attack of consumption. Since he has been out of the game Kennedy has had good luck with his health, and he is now as sound as a dollar.

### Election at New Cumberland.

The municipal election held in New Cumberland was a very quiet affair. There was but one ticket in the field and only in one ward was there more than one candidate for council. In the Fourth ward the contest was rather exciting between H. S. Cain and J. A. Smith, but the former won out easily. Bradley was elected mayor, Burford recorder, and Pickett, Cassidy, McNeil, Cain and Crow councilmen. Only 128 votes were cast.

### Landslide Blocked the Road.

A landslide took place some time last night on the Fairview road about half a mile back of Chester, which has left the road in an impassable condition. The slide occurred on the farm of C. R. Prof. Armstrong has recently passed every examination with a credit of "A" in every branch except one.

When it is taken into consideration what this means at an institution like Harvard, it will be seen that Mr. Armstrong is maintaining his reputation already established as being a brilliant student. His five years' work in this city was marked with great success and during that time he made many firm friends who will rejoice with him at his success at Harvard.

### TEMPORARY ROAD TO AVOID THE MUD

Otherwise Teams Could not Get to the Wharf—Contractors' New House Boat.

The river is falling somewhat more rapidly than had been expected, and today there is about a 16-foot stage. The local wharfboat would have been inaccessible owing to the deep mud left upon the banks by the receding waters had not Wharfmaster Martin-dill constructed temporary roads with broken ware from the potteries. Business was never better than it has been this week and freight receipts and shipments have been unusually heavy. The passenger lists of the packets have been unusually long.

The big two-deck houseboat, Lone Star, recently purchased by the contracting firm of C. A. Sims & Co., which will be utilized by them as a home for a number of their workmen while the work of grading for the new double tracking of the C. & P. is now moored at the local wharf, just above the Pilgrim coal flat. The Lone Star is one of the best boats of its kind on the river and can be converted into a veritable floating palace. It has ten rooms.

Today Mr. Sims was at the wharf to arrange for the removal of the boat to Yellow Creek, where a large force of men are at work on the grading. The Greenwood will take her down tonight if the arrangement can be made.

The Virginia lost so much time on her last up trip that she will be held over at Pittsburgh so that she can come out on her regular time Saturday. The Greenwood did not come up until 1 o'clock this morning, the time being lost by the heavy business she encountered. She will be down tonight at 8 o'clock.

### KENNEDY SIGNS WITH PITTSBURG

Well Known Bellaire Ball Player Becomes a Member of the Pirates.

Bellaire, March 13.—William Kennedy, the well-known Bellaire professional base ball player, has signed with Pittsburgh and has received orders to join the team next Monday. This bit of information was announced by the friends of the pitcher yesterday morning, and it proved to be the base ball development of the week. It is the intention of the Bellaire man to go at once to Hot Springs, where they begin their practice games.

Kennedy was with Brooklyn for a good while and won an enviable reputation for good, strong pitching, but unfortunately he was compelled to secure his release, as it was feared that he would not recover of what was thought to be an attack of consumption. Since he has been out of the game Kennedy has had good luck with his health, and he is now as sound as a dollar.

### SHOWALTER'S HOPES

The Assistant District Attorney Says  
He Will Be the Next  
Congressman.

Assistant U. S. District Attorney Showalter, in an interview in Wheeling, says he is quite certain that he will be the next congressman from this district. In the interview Mr. Showalter spoke very confidently of his prospects and gave the reason for the faith that is in him.

"I did not expect to get the nomination in the last campaign. I entered the race merely to do the preliminary work. I wanted to meet the people and let them know who I was. These things I accomplished and I propose to win the nomination next time, no matter who enters the contest against me. I expect to have the Marion delegation solid, and look for strong support in Harrison and Wetzel. In every county in the district I have friends, and in Wheeling some of your most influential Republicans have pledged themselves to my candidacy. The nomination is coming to Marion, as sure as anything in politics, and I am going to be the next congressman from this district."

### THE BRIDGE TOLLS

Are Upheld By the United States  
Court And the Present  
Schedule Stands.

A decision was handed down yesterday in the United States district court at Parkersburg that will have the effect of imparting a more thorough understanding of the rules and regulations of the East Liverpool Bridge company. The trouble which ensued the early part of the year between the toll keepers and a crowd of men pressing over the bridge who refused to pay toll, except for the driver and teams, was brought before the notice of the court, and the court fully sustained the action of the receiver and Sept. Brown for enforcing the collection of tolls as heretofore collected, and entered an order directing him to enforce the tolls as heretofore listed during the time the bridge will be in the custody of the court, and to report at once to the court, the names of any and all persons refusing to pay tolls which are at present in vogue.

The rule relating to wagons and vehicles is: "Except in case of funerals and on Sunday, extra passengers over and above the driver and helper shall

be charged at the rate of five cents each."

**Election at New Cumberland.**  
The municipal election held in New Cumberland was a very quiet affair. There was but one ticket in the field and only in one ward was there more than one candidate for council. In the Fourth ward the contest was rather exciting between H. S. Cain and J. A. Smith, but the former won out easily. Bradley was elected mayor, Burford recorder, and Pickles, Cassidy, McNeil, Cain and Crow councilmen. Only 128 votes were cast.

**Landslide Blocked the Road.**  
A landslide took place some time last night on the Fairview road about half a mile back of Chester, which has left the road in an impassable condition. The slide occurred on the farm of C. R. Cunningham at the Porter bridge, and from appearances came from the top of the hill, completely covering the public road with rock and earth. It will take some days to clear it.

**Grand Jurors.**  
R. B. Brown, Joseph Hough, Cyrus Brennenman and Charles A. Gear, all of Grant district, have been drawn to serve on the grand jury at the March term of the Hancock county circuit court.

## WELLSVILLE

### STREET NUMBERS

And Street Signs Are One of the Acknowledged Needs of  
Wellsville.

All the residences and business buildings in Wellsville should be renumbered. Should the receipts of the local postoffice increase to such an extent that free delivery is established this would be a necessity, as well as a convenience. A number of years ago the houses were all numbered. Should an inspection be made now, not one-fourth of the houses would be found with numbers. The other fourth of the numbers are so rusted that they are illegible.

In connection with the house numbers are the street signs. Should a stranger come into the city and wish to make a tour of the town it would be a difficult task unless he engaged some person familiar with the streets to act as guide.

In the West End there are four "Short" streets. How all received this same name is a mystery. A stranger in this part of the city would have no little trouble to get his bearings. Street signs at the corners would soon do away with this difficulty.

Before these things can be done council will be compelled to take action. Some expense would be attached to the work, but with such results, as it would bring council should not hesitate to act. Mayor Fogo has always favored this plan, and does not understand why it has not been carried out before.

### BURGLARS ACTIVE

A Number of Wellsville Business Places Visited by Light Fingering Gentry.

Several Wellsville business houses were visited by thieves early Tuesday morning. Patrick Fitzpatrick's saloon, in the West End, was entered by the rear door, the cash register emptied of its contents, which was about five dollars, and a small quantity of whisky taken. "Ginger" Davis' place on Front street was also visited. An entrance here was effected through a rear hall door leading from Main street. Davis reports his loss to be small, five dollars in cash, which amount is always left in the register for change and one quart of his best whisky. Had the thief been more diligent in his search for money at Davis' place he could have added about \$20 more to his plunder as it was found unguarded in the back of the drawer covered with some papers just as it was left.

Butler & Howe's dry goods store was another place which received a call but was not entered, as the colored man who sleeps in the store was awakened by the noise at the back door and set up a scream which frightened the intruders away. No clue as to who the guilty party is has yet been found, but an effort is being made by the local police to locate the thief.

### WEST END BUILDING BOOM

New Houses in That Section Are Springing Up With Great Rapidity.

Business in the West End is advancing rapidly and the people in that vicinity look for the greatest boom in their history this coming summer. Houses on Clark and Kelly avenues are being built as fast as the material arrives. One firm of this city, White & Wilkes, has the contract for the stone work of 16 of the foundations.

The tract of land back of Commerce street, between Fifteenth and Eighteenth streets, which was once known as the Wellsville fair grounds, is being built up so rapidly that by the dawn of another year it will be a cluster of dwellings. The new two-story building being erected by H. C. Aughinbaugh, at the corner of Eighteenth and Main streets, is being pushed ahead with all possible speed. The people of the West End think it is only a matter of a few years when that part of the city will be the business center of Wellsville.

### A DOUBLE FORCE

Will Be Put on at the Wells Stone Quarry as Soon as Improvements Are Done.

Improvements at the Wellsville stone quarry, near Wellsville, are progressing rapidly. A new rock-bedded road has been built from the main road on the west side leading to the quarry and also one from the east side. In all probability one of these roads will be used to have a switch connecting with the C. & P. railroad run up to the quarry.

The stone taken from this quarry is being used by most of the local contractors, and they report it to be excellent. The company has established a large trade and has a number of large orders to fill. About 12 men are

employed, but as soon as the switch is put in the force will be doubled.

### His Brother Dead.

Julius Goetz yesterday received word that his only brother was dead at Berlin.

COLLEGE PRESIDENT  
FOND OF FOOTBALL

Players Should Be Strong And Well Trained, Says Head of Western Reserve University.

President Charles F. Thwing, of Western Reserve University, does not agree with Prof. Hollis, of Harvard, on the subject of foot ball.

President Thwing is a lover of the popular college game. Prof. Hollis is not. This is the difference.

About three months ago, before any agitation had been started by Prof. Hollis in an effort to abolish the game at Harvard university, Dr. Thwing started an investigation of his own to ascertain the causes which have led to the death of men who have played foot ball.

President Thwing had a suspicion that the cause of death in many of the cases reported did not arise from legitimate conditions of foot ball. His suspicion has been more than confirmed in certain cases. On the dangers of the game he says:

"Foot ball is a dangerous game when the player is not in a good physical condition, or when he has not been well trained, or when the team against which he is playing has not been well trained."

"Investigation has proved that in several cases in which death resulted in the games of last year the players were not in good condition, or they had never played before the game in which they met their death, or that the team opposing them had men who were ignorant of the game. Of one of the men who met his death it is said: 'He had heart disease occasioned by cigarette smoking and the excitement of the game was too much. He was not a student; he was an amateur player; the team opposing his was not well trained.' Of another man, living in Hartford, Conn., who was killed, it is said: 'He had never played in a game until the day of the accident, and then went in to take the place of a friend.'"

The result of the examination helps to prove what President Thwing has long felt that for the men in good health, properly trained, and playing with other men who are also properly trained, foot ball is as free from danger as most college sports which are good for American college men.

"There are certain physical conditions which should be required of all who aspire for positions on any team," said President Thwing. "A man who intends to play foot ball should be strong. He should have an active heart. He should be well trained. He should see to it before entering a game that the men whom he is playing against are properly trained and rugged men."

"When these conditions are obtained there can be no harm in foot ball. It is the most popular game of the American colleges today."

"The different colleges of the country should see to it that all of these conditions are fulfilled. They should see that good trainers are provided for the candidates who aspire for positions on the 'varsity teams.'"

## BOXING BILL WILL PASS

Such is the Opinion of Senator Frawley, Father of the New York Measure.

Every sporting man in New York will turn his eyes toward Albany for the next week or so, and when he directs his gaze away from the capital boxing in New York state will have been either sanctioned or condemned by the legislators. If legislative sentiment and the sanguine statements of Senator James J. Frawley count for anything, boxing will again resume its favored position under the aegis of the law.

Sensor Frawley is the father of a bill having for its object the reinstatement of boxing in legal favor. The game is now in worse odor in the Empire state than it has ever been, but the majority of those familiar with

## JUDGE GLANGY

Of Hornellsville, N. Y., Hands Down an Important Decision.

Judge James H. Clancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worthy of the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Tift of 878 River street, Troy, N. Y., suffered from liver trouble and his blood was all out of order and after using "Favorite Remedy," has this to say:

"For any one suffering from that run down or tired out feeling, caused by blood or liver trouble, Dr. David Kennedy's Favorite Remedy is the best medicine you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy.

It matters not how sick you are, how long you have suffered, or how many physicians have failed to help you, Dr. David Kennedy's Favorite Remedy will cure you if a cure is possible.

The sentiment of the legislature declare emphatically that, could boxing be permitted to resume its place on the athletic calendar under conditions that would not outrage the public's sense of decency, the lawmakers would gladly allow it to be resumed.

The aim of Senator Frawley's bill is in line with this sentiment against malodorous tactics in the sporting world.

Sensor Frawley says there is not the slightest doubt that his bill will pass both houses at Albany without friction, and that the governor will sign it.

"No one can reasonably object to good, clean bouts, such as are assured by my bill," he says, in substance.

Sporting men seem to be confident that the measure will meet with legal approval.

## BOWLING MATCHES

Exciting Games Between Colts And Windsor And Eclipse And Crescents.

Two exciting games were played last night on the Imperial bowling alleys in this city between the Colts and Windsor and the Eclipse and Crescent teams. The bowling was pretty even throughout and the interest was maintained till the last. The score follows:

Colts—Rigby, 161, 194, 144; Clark, 179, 184, 179; Powell, 156, 116, 140. Windsor—Wood, 136, 177, 141; Brick, 109, 128, 114; Blind, 147, 132, 135. Eclipse—Logan, 134, 158, 130; McNicol, 138, 147, 142; Rose, 157, 149, 132. Crescents—Litten, 146, 151, 117; Schultz, 153, 136, 157; Blind, 136, 156, 153.

## Season's Averages.

The season for the East Liverpool Bowling league has been finished. Much interest was taken in the game and the Ralstons easily won out. The standing of the clubs is as follows: Ralstons, won 12, lost 3, 800 per cent; Walkovers, won 8, lost 7, 533 per cent; Queen Quality, won 6, lost 9, 400 per cent; Regals, won 4, lost 11, 266 per cent.

## SPORTING MISCELLANY.

"Mugsy" McGraw has signed Jack McLean, a catcher once tried by Boston.

Al Miller, of Zanesville, well known outfielder, has signed with New Orleans.

Burke, traded by Pittsburgh to St. Louis for Kruger, refuses to join the Cardinals unless he is assured that he will not be asked to play anywhere but third base.

Pitcher Wilhelm, of the Pirates, is ill at his home in Wooster from the effects of being poisoned by pineapple that had been canned in tins. His whole family was similarly affected.

Among the ball players boiling out at Hot Springs are Jack Doyle, Kruger, "Ducky" Holmes, Dan McGann, McGinnity, Jim Callahan and Jake Beckley. Others who have just left are Clarke Griffith, McGraw, Jack O'Connor and Mique Kahoe.

## VOTE ON TREATY AGREED TO.

Cuban Measure With Amendments Agreed on by Committee—Little Opposition Looked for—Approval of House of Representatives Required.

Washington, March 13.—There were important developments regarding the treaties pending in the senate. It was decided to vote on the Panama canal treaty on Tuesday next, and the Cuban reciprocity treaty was reported to the senate by the committee on foreign relations. The end of the work for which the extra session was called, therefore, is in sight. The agreement to vote on the canal treaty was arrived at soon after the senate assembled at noon and without discussion of moment. The terms had been made satisfactory to Senator Morgan before the request to fix a day for a vote was preferred by Senator Frye, so the former made no objection.

The Cuban treaty with the various amendments agreed on by the committee on foreign relations then reported by Mr. Culom and at his request it was read for the information of the senate. The reading was followed by a formal request by Mr. Culom to take up the Cuban treaty for discussion, but while this was denied still the greater part of the session was devoted to it. The amendments made include, in addition to those of last session, a provision requiring the approval of the house of representatives to make the treaty effective.

With the adoption of this amendment the Democrats as a body probably will cease opposition to the Cuban treaty, but some of them, the sugar interests of whose states are affected by the treaty, will continue to oppose it. The Republican side of the senate will vote practically, if not absolutely, solidly for the treaty, and it is now generally believed that it will be ratified after action on the Panama treaty.

Individual Democratic senators will offer a number of amendments to the canal treaty, and they will unite in pressing some of them, but if they should be voted down, as seems likely, a number of the Democrats will vote for the ratification of the treaty.

The progress made leads many senators to predict an adjournment by the close of next week. The action of the committee on commerce in postponing a vote on Dr. Crum's nomination is generally accepted as disposing of that matter for this session.

## WHAT CONSTITUTES REASONABLE DOUBT?

JUDGE LAUBIE, OF CIRCUIT COURT, RAISES AN ISSUE.

Disagrees With a Supreme Court Decision—Eminent Jurists Support Him.

Youngstown, March 13.—Because of the decision of the circuit court of this district it is probable that another standard definition of "reasonable doubt" will have to be established in Ohio. Since the December term, 1843, when Judge Burchard, in the case of White versus the state of Ohio, affirmed the present commonly used definition, the courts have not questioned the term as defined. Recently, however, Judge Laubie has raised the point and has been sustained by Judges Burrows and Cook, that the term as popularly defined throws the burden of proof on the defendant when it should be on the state, applying to criminal cases. The disposition of this circuit court to reverse the old dictum of the supreme court of 1843 is becoming pretty well known to attorneys throughout the district and many cases are being taken up on error in cases in which the Burchard definition of reasonable doubt has been applied in the charge to the jury.

It was on this point that Attorneys Frank Jacobs and W. S. Anderson yesterday went before the circuit court with the cases of Henry E. Ellis and William Allen. Ellis is now serving a term of eight years in the penitentiary for alleged assault on a 16-year-old girl. Allen is serving time in the reformatory, having been sent up for holding up a man with whom he was seen one evening when they were both drunk and were at one time together. Both of these cases were tried originally before Judge Robinson.

In charging the jury Judge Robinson, on both occasions used the following: "You will be justified and are required to consider a reasonable doubt as existing in the material facts, without which guilt cannot be established, may fairly be reconciled with innocence."

On this very point Judge Laubie expressed himself in part as follows in the case of Thompson versus the state of Ohio, in Columbiana county, several weeks ago. He said:

"And there is the part of the (Burchard) charge that we have heretofore held in similar cases, or in criminal cases. We have done so in the face, it is true, of an old dictum of the supreme court, or judge of the supreme court, upon the question; but it is so plainly and palpably wrong, that we have forbidden it, and concluded to hold it to be wrong and erroneous, and therefore, as I say, we will call attention to it in this charge. There are two objections to it. One is that it applies to all material facts, and not single one, and the other is that it substantially throws the burden of the proof upon the defendant of his innocence."

If the circuit court decides in the Ellis and Allen cases as it did in the Thompson case, new trials will be granted the prisoners. The only point the attorneys raised was that of the definition of reasonable doubt.

## Bananas Scarce.

Kingston, Jamaica, March 13.—Owing to the extreme scarcity of bananas the United Fruit company has decided to alternate their Jamaican service with Port Limon, Costa Rica, their steamers thus leaving Jamaica and Port Limon every fortnight. This arrangement will be only a temporary one. The scarcity of bananas is due to the largely increased demand and the drought, which, however, is now breaking.

## Disputes Will Be Arbitrated.

Chicago, March 13.—Eight thousand metal polishers, platers, buffers and brass molders and 12,000 allied craftsmen are benefited by an agreement made between the Chicago Brass Manufacturers' association and the local unions of the employees. The agreement provides for a nine-hour day without reduction in wages, which is the beginning of a movement to extend all over the country. The principal feature of the agreement is that no strike or lockout shall occur during the life of the agreement and all disputes are to be settled by arbitration.

## Rebels Capture Fort and Town.

New Orleans, March 13.—The fruit steamer Duncan, of the Vaccaro line, reached quarantine from Ceiba, Honduras, with the most significant war news since the outbreak of the Bonilla rebellion. A battle was fought at Ceiba the night of March 6 and the forces of Bonilla defeated the government forces, killing six, wounding 14 and capturing the fort and town. American Vice Consul W. C. Wildt sent a message by one of the passengers asking that a warship be sent to protect American interests.

## Life Plant Cures Rheumatism.

Because it purifies the Blood. Rheumatism is caused by the presence of an excess of Uric acid in the Blood. Uric acid is caused by a peculiar fermentation product. You must remove the cause to cure Rheumatism. Drive out the Uric acid, and prevent its formation. Life Plant opens up the organs of excretion, which in time carry off the Uric acid, and thus removes the cause. It not only removes the cause, but it prevents the formation of the Uric acid, and prevents a recurrence of the disease. It renews life, restores and renews the vital element in the blood and makes you strong and vigorous. Read what Geo. Crater says:

Life Plant Company, Messrs:—For the benefit of those who have Rheumatism, I take the liberty to inform you of my remarkable cure by the use of Life Plant. I had Rheumatism for six years. Shoulders so affected as to prevent my lying on either side. Sciatic Rheumatism in my right leg. Had Rheumatism for six years. At last I was induced to try Life Plant, three bottles cured me. No more lumps, no more soreness, no more pain. I am well and all right. Yours truly, George Crater.

The sentiment of the legislature declare emphatically that, could boxing be permitted to resume its place on the athletic calendar under conditions that would not outrage the public's sense of decency, the lawmakers would gladly allow it to be resumed. The aim of Senator Frawley's bill is in line with this sentiment against malodorous tactics in the sporting world.

Senator Frawley says there is not the slightest doubt that his bill will pass both houses at Albany without friction, and that the governor will sign it.

"No one can reasonably object to good, clean bouts, such as are assured by my bill," he says, in substance.

Sporting men seem to be confident that the measure will meet with legal approval.

## BOWLING MATCHES

Exciting Games Between Colts And Windsor And Eclipse And Crescents.

Two exciting games were played last night on the Imperial bowling alleys in this city between the Colts and Windsor and the Eclipse and Crescent teams. The bowling was pretty even throughout and the interest was maintained till the last. The score follows:

Colts—Rigby, 161, 194, 144; Clark, 179, 184, 179; Powell, 156, 116, 140. Windsor—Wood, 136, 177, 141; Brick, 109, 128, 114; Blind, 147, 132, 135. Eclipse—Logan, 134, 158, 130; McNicol, 138, 147, 142; Rose, 157, 149, 132. Crescents—Litten, 146, 151, 117; Schultz, 153, 136, 157; Blind, 136, 156, 153.

## Season's Averages.

The season for the East Liverpool Bowling league has been finished. Much interest was taken in the game and the Ralstons easily won out. The standing of the clubs is as follows: Ralstons, won 12, lost 3, 806 per cent; Walkovers, won 8, lost 7, 533 per cent; Queen Quality, won 6, lost 9, 400 per cent; Regals, won 4, lost 11, 266 per cent.

## SPORTING MISCELLANY.

"Mugsy" McGraw has signed Jack McLean, a catcher once tried by Boston.

Al Miller, of Zanesville, well known outfielder, has signed with New Orleans.

Burke, traded by Pittsburgh to St. Louis for Kruger, refuses to join the Cardinals unless he is assured that he will not be asked to play anywhere but third base.

Pitcher Wilhelm, of the Pirates, is ill at his home in Wooster from the effects of being poisoned by pineapple that had been canned in tins. His whole family was similarly affected.

Among the ball players boiling out at Hot Springs are Jack Doyle, Kruger, "Ducky" Holmes, Dan McGann, McGinnity, Jim Callahan and Jake Beckley. Others who have just left are Clarke Griffith, McGraw, Jack O'Connor and Mique Kahoe.

## Refused Nomination.

## VOTE ON TREATY AGREED TO.

Cuban Measure With Amendments Agreed on by Committee—Little Opposition Looked for—Approval of House of Representatives Required.

Washington, March 13.—There were important developments regarding the treaties pending in the senate. It was decided to vote on the Panama canal treaty on Tuesday next, and the Cuban reciprocity treaty was reported to the senate by the committee on foreign relations. The end of the work for which the extra session was called, therefore, is in sight. The agreement to vote on the canal treaty was arrived at soon after the senate assembled at noon and without discussion of moment. The terms had been made satisfactory to Senator Morgan before the request to fix a day for a vote was preferred by Senator Frye, so the former made no objection.

The Cuban treaty with the various amendments agreed on by the committee on foreign relations then reported by Mr. Culom and at his request it was read for the information of the senate. The reading was followed by a formal request by Mr. Culom to take up the Cuban treaty for discussion, but while this was denied still the greater part of the session was devoted to it. The amendments made include, in addition to those of last session, a provision requiring the approval of the house of representatives to make the treaty effective.

With the adoption of this amendment the Democrats as a body probably will cease opposition to the Cuban treaty, but some of them, the sugar interests of whose states are affected by the treaty, will continue to oppose it. The Republican side of the senate will vote practically, if not absolutely, solidly for the treaty, and it is now generally believed that it will be ratified after action on the Panama treaty.

Individual Democratic senators will offer a number of amendments to the canal treaty, and they will unite in pressing some of them, but if they should be voted down, as seems likely, a number of the Democrats will vote for the ratification of the treaty.

The progress made leads many senators to predict an adjournment by the close of next week. The action of the committee on commerce in postponing a vote on Dr. Crum's nomination is generally accepted as disposing of that matter for this session.

## WHAT CONSTITUTES REASONABLE DOUBT?

JUDGE LAUBIE, OF CIRCUIT COURT, RAISES AN ISSUE.

Disagrees With a Supreme Court Decision—Eminent Jurists Support Him.

Youngstown, March 13.—Because of the decision of the circuit court of this district it is probable that another standard definition of "reasonable doubt" will have to be established in Ohio. Since the December term, 1843, when Judge Burchard, in the case of White versus the state of Ohio, affirmed the present commonly used definition, the courts have not questioned the term as defined. Recently, however, Judge Laubie has raised the point and has been sustained by Judges Burrows and Cook, that the term as popularly defined throws the burden of proof on the defendant when it should be on the state, applying to criminal cases. The disposition of this circuit court to reverse the old dictum of the supreme court of 1843 is becoming pretty well known to attorneys throughout the district and many cases are being taken up on error in cases in which the Burchard definition of reasonable doubt has been applied in the charge to the jury.

It was on this point that Attorneys Frank Jacobs and W. S. Anderson yesterday went before the circuit court with the cases of Henry E. Ellis and William Allen. Ellis is now serving a term of eight years in the penitentiary for alleged assault on a 16-year-old girl. Allen is serving time in the reformatory, having been sent up for holding up a man with whom he was seen one evening when they were both drunk and were at one time together. Both of these cases were tried originally before Judge Robinson.

In charging the jury Judge Robinson, on both occasions used the following: "You will be justified and are required to consider a reasonable doubt as existing in the material facts, without which guilt cannot be established, may fairly be reconciled with innocence."

On this very point Judge Laubie expressed himself in part as follows in the case of Thompson versus the state of Ohio, in Columbiana county, several weeks ago. He said:

"And there is the part of the (Burchard) charge that we have heretofore held in similar cases, or in criminal cases. We have done so in the face, it is true, of an old dictum of the supreme court, upon the question; but it is so plainly and palpably wrong, that we have forbidden it, and concluded to hold it to be wrong and erroneous, and therefore, as I say, we will call attention to it in this charge. There are two objections to it. One is that it applies to all material facts, and not single one, and the other is that it substantially throws the burden of the proof upon the defendant of his innocence."

If the circuit court decides in the Ellis and Allen cases as it did in the Thompson case, new trials will be granted the prisoners. The only point the attorneys raised was that of the definition of reasonable doubt.

Bananas Scarce.

Kingston, Jamaica, March 13.—Owing to the extreme scarcity of bananas the United Fruit company has decided to alternate their Jamaican service with Port Limon, Costa Rica, their steamers thus leaving Jamaica and Port Limon every fortnight. This arrangement will be only a temporary one. The scarcity of bananas is due to the largely increased demand and the drought, which, however, is now breaking.

## Disputes Will Be Arbitrated.

Chicago, March 13.—Eight thousand metal polishers, platers, buffers and brass molders and 12,000 allied craftsmen are benefited by an agreement made between the Chicago Brass Manufacturers' association and the local unions of the employees. The agreement provides for a nine-hour day without reduction in wages, which is the beginning of a movement to extend all over the country. The principal feature of the agreement is that no strike or lockout shall occur during the life of the agreement and all disputes are to be settled by arbitration.

## Rebels Capture Fort and Town.

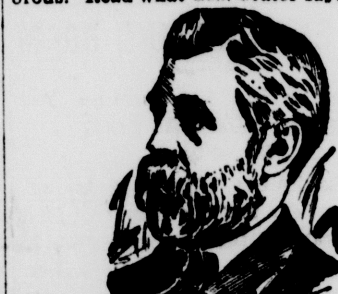

New Orleans, March 13.—The fruit steamer Duncan, of the Vaccaro line, reached quarantine from Ceiba, Honduras, with the most significant war news since the outbreak of the Bonilla rebellion. A battle was fought at Ceiba the night of March 6 and the forces of Bonilla defeated the government forces, killing six, wounding 14 and capturing the fort and town. American Vice Consul W. C. Wildt sent a message by one of the passengers asking that a warship be sent to protect American interests.

## Life Plant Cures Rheumatism.

Because it purifies the Blood. Rheumatism is caused by the presence of an excess of Uric acid in the Blood. Uric acid is caused by a peculiar fermentation product. You must remove the cause to cure Rheumatism. Drive out the Uric acid and prevent its formation. Life Plant opens up the organs of excretion, which in time carry off the Uric acid, and thus removes the cause. It not only removes the cause, but it prevents the formation of the Uric acid, and prevents a recurrence of the disease. It renews life. Restores and renews the vital element of the blood, and makes you strong and vigorous. Read what Geo. Crater says:

Life Plant Company, Messrs.—For the benefit of those who have Rheumatism, I take the liberty to inform you of my remarkable cure by the use of Life Plant. I had Rheumatism for six years. Shoulders affected as to prevent my lying on either side. Sciatic Rheumatism in my right leg gave me many sleepless hours at night. Lumps came in the veins of my wrists and neck, very painful to the touch. Physicians and medicines failed to benefit me. At last I was induced to try Life Plant, three bottles cured me. No more lumps, no more soreness, no more pain. I am well and all right. Yours truly, Geo. Crater.

COLLEGE PRESIDENT  
FOND OF FOOTBALL

Players Should Be Strong And Well Trained, Says Head of Western Reserve University.

President Charles F. Thwing, of Western Reserve university, does not agree with Prof. Hollis, of Harvard, on the subject of foot ball.

President Thwing is a lover of the popular college game. Prof. Hollis is not. This is the difference.

About three months ago, before any agitation had been started by Prof. Hollis in an effort to abolish the game at Harvard university, Dr. Thwing started an investigation of his own to ascertain the causes which have led to the death of men who have played foot ball.

President Thwing had a suspicion that the cause of death in many of the cases reported did not arise from legitimate conditions of foot ball. His suspicion has been more than confirmed in certain cases. On the dangers of the game he says:

"Foot ball is a dangerous game when the player is not in a good physical condition, or when he has not been well trained, or when the team against which he is playing has not been well trained."

"Investigation has proved that in several cases in which death resulted in the games of last year the players were not in good condition, or they had never played before the game in which they met their death, or that the team opposing them had men who were ignorant of the game. Of one of the men who met his death it is said: 'He had heart disease occasioned by cigarette smoking and the excitement of the game was too much. He was not a student; he was an amateur player; the team opposing him was not well trained.' Of another man, living in Hartford, Conn., who was killed, it is said: 'He had never played in a game until the day of the accident, and then went in to take the place of a friend.'"

The result of the examination helps to prove what President Thwing has long felt that for the men in good health, properly trained, and playing with other men who are also properly trained, foot ball is as free from danger as most college sports which are good for American college men.

"There are certain physical conditions which should be required of all who aspire for positions on any team," said President Thwing. "A man who intends to play foot ball should be strong. He should have an active heart. He should be well trained. He should see to it before entering a game that the men whom he is playing against are properly trained and rugged men."

"When these conditions are obtained there can be no harm in foot ball. It is the most popular game of the American colleges today."

"The different colleges of the country should see to it that all of these conditions are fulfilled. They should see that good trainers are provided for the candidates who aspire for positions on the 'varsity teams.'"

## BOXING BILL WILL PASS

Such is the Opinion of Senator Frawley, Father of the New York Measure.

Every sporting man in New York will turn his eyes toward Albany for the next week or so, and when he directs his gaze away from the capital boxing in New York state will have been either sanctioned or condemned by the legislators. If legislative sentiment and the sanguine statements of Senator James J. Frawley count for anything, boxing will again resume its favored position under the aegis of the law.

Senator Frawley is the father of a bill having for its object the reinstatement of boxing in legal favor. The game is now in worse odor in the Empire state than it has ever been, but the majority of those familiar with

Of Hornellsville, N. Y., Hands Down an Important Decision.

Judge James H. Glancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worthy of the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Tift of 578 River street, Troy, N. Y., suffered from liver trouble and his blood was all out of order and after using "Favorite Remedy," has this to say:

"For any one suffering from that run down or tired out feeling, caused by blood or liver trouble, Dr. David Kennedy's Favorite Remedy is the best medicine you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy.

The progress made leads many senators to predict an adjournment by the close of next week. The action of the committee on commerce in postponing a vote on Dr. Crum's nomination is generally accepted as disposing of that matter for this session.

## WHAT CONSTITUTES REASONABLE DOUBT?

JUDGE LAUBIE, OF CIRCUIT COURT, RAISES AN ISSUE.

Disagrees With a Supreme Court Decision—Eminent Jurists Support Him.

Youngstown, March 13.—Because of the decision of the circuit court of this district it is probable that another standard definition of "reasonable doubt" will have to be established in Ohio. Since the December term, 1843, when Judge Burchard, in the case of White versus the state of Ohio, affirmed the present commonly used definition, the courts have not questioned the term as defined. Recently, however, Judge Laubie has raised the point and has been sustained by Judges Burrows and Cook, that the term as popularly defined throws the burden of proof on the defendant when it should be on the state, applying to criminal cases. The disposition of this circuit court to reverse the old dictum of the supreme court of 1843 is becoming pretty well known to attorneys throughout the district and many cases are being taken up on error in cases in which the Burchard definition of reasonable doubt has been applied in the charge to the jury.

It was on this point that Attorneys Frank Jacobs and W. S. Anderson yesterday went before the circuit court with the cases of Henry E. Ellis and William Allen. Ellis is now serving a term of eight years in the penitentiary for alleged assault on a 16-year-old girl. Allen is serving time in the reformatory, having been sent up for holding up a man with whom he was seen one evening when they were both drunk and were at one time together. Both of these cases were tried originally before Judge Robinson.

In charging the jury Judge Robinson, on both occasions used the following: "You will be justified and are required to consider a reasonable doubt as existing in the material facts, without which guilt cannot be established, may fairly be reconciled with innocence."

On this very point Judge Laubie expressed himself in part as follows in the case of Thompson versus the state of Ohio, in Columbiana county, several weeks ago. He said:

"And there is the part of the (Burchard) charge that we have heretofore held in similar cases, or in criminal cases. We have done so in the face, it is true, of an old dictum of the supreme court, or judge of the supreme court, upon the question; but it is so plainly and palpably wrong, that we have forbidden it, and concluded to hold it to be wrong and erroneous, and therefore, as I say, we will call attention to it in this charge. There are two objections to it. One is that it applies to all material facts, and not single one, and the other is that it substantially throws the burden of the proof upon the defendant of his innocence."

If the circuit court decides in the Ellis and Allen cases as it did in the Thompson case, new trials will be granted the prisoners. The only point the attorneys raised was that of the definition of reasonable doubt.

## Bananas Scarce.

Kingston, Jamaica, March 13.—Owing to the extreme scarcity of bananas the United Fruit company has decided to alternate their Jamaican service with Port Limon, Costa Rica, their steamers thus leaving Jamaica and Port Limon every fortnight. This arrangement will be only a temporary one. The scarcity of bananas is due to the largely increased demand and the drought, which, however, is now breaking.

Builds up the system, puts pure, rich blood in the veins; makes men and women strong and healthy—Burdock Blood Bitters. At any drug store.

## Disputes Will Be Arbitrated.

Chicago, March 13.—Eight thousand metal polishers, platers, buffers and brass molders and 12,000 allied craftsmen are benefited by an agreement made between the Chicago Brass Manufacturers' association and the local unions of the employees. The agreement provides for a nine-hour day without reduction in wages, which is the beginning of a movement to extend all over the country. The principal feature of the agreement is that no strike or lockout shall occur during the life of the agreement and all disputes are to be settled by arbitration.

## Rebels Capture Fort and Town.

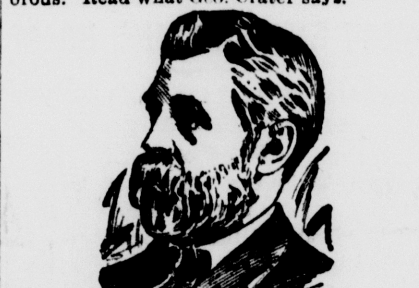

New Orleans, March 13.—The fruit steamer Duncan, of the Vaccaro line, reached quarantine from Ceiba, Honduras, with the most significant war news since the outbreak of the Bonilla rebellion. A battle was fought at Ceiba the night of March 6 and the forces of Bonilla defeated the government forces, killing six, wounding 14 and capturing the fort and town. American Vice Consul W. C. Wildt sent a message by one of the passengers asking that a warship be sent to protect American interests.

## Life Plant Cures Rheumatism.

Because it purifies the Blood. Rheumatism is caused by the presence of an excess of Uric acid in the Blood. Uric acid is caused by a peculiar fermentation product. You must remove the cause to cure Rheumatism. Drive out the Uric acid and prevent its formation. Life Plant opens up the organs of excretion, which in time carry off the Uric acid, and thus removes the cause. It not only removes the cause, but it prevents the formation of the Uric acid, and prevents a recurrence of the disease. It renews life. Restores and renews the vital element in the blood and makes you strong and vigorous. Read what Geo. Crater says:

Life Plant Company, Messrs:—For the benefit of those who have Rheumatism, I take the liberty to inform you of my remarkable cure by the use of Life Plant. Had Rheumatism for six years. Shoulders so affected as to prevent my lying on either side. Sciatic Rheumatism in my right leg gave me many sleepless hours at night. Lumps came in the veins of my wrists and neck, very painful to the touch. Physicians and medicines failed to benefit me. At last I was induced to try Life Plant, three bottles cured me. No more lumps, no more soreness, no more pain. I am well and all right. Yours truly, George Crater.

### NOW ON HIS WAY TO COLON

Where He Proposes to Join the Revo-  
lutionists—A Connecticut Yankee  
Whose Career Has Been Strange,  
Romantic and Perilous.

Columbus, March 13.—During the  
whole of the past week and up to  
Monday evening of this week there  
labored in the ranks of the local news-  
paper men, one of the most remark-  
able characters the profession has  
produced in the last decade. He  
drifted silently into the city from the  
south, secured a temporary position  
during his brief stay, and on Monday  
evening "he folded his tent like the  
Arab" and as silently stole away.

This strange character is C. B.  
Montgomery, native of Connecticut,  
one of the old regimine in the news-  
paper world, reporter, editor, war cor-  
respondent, filibusterer, soldier of for-  
tune, revolutionist, anything you  
please, and anything for excitement.  
For many months previous to the  
outbreak of the Spanish-American war  
he was the associate of the late  
Stephen Crane, and with him was one  
of the two survivors of the ill-fated  
Commodore which went down off the  
coast of Florida while on its way  
to Cuba with recruits and supplies  
for the Cuban insurgents.

Montgomery took part in 22 filibus-  
tering expeditions to Cuba, and was  
once captured by the Spaniards. He  
made his escape the following night.

and for nearly six weeks he roamed  
the jungles of the island dodging the  
Spaniards and trying to find his way  
to a friendly seacoast village. He  
was lost, hopelessly lost, but finally  
managed to make his way to the coast  
and was picked up by a coasting  
bark friendly to the Cuban cause.  
Time after time he was apprehended  
in Florida by the United States author-  
ities who knew him as a filibusterer,  
but each time he made his escape  
to New Orleans until the storm had  
blown over.

Since the war Montgomery has been  
doing newspaper work in Houston,  
Texas, but the fever laid hold of him  
again, and when agents of the Colum-  
bian revolutionary general, Upton Jef-  
fries, organized a filibustering expedi-  
tion in that city, he was one of 150  
to enlist. Week before last the party  
got away and went to New Orleans.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-  
papers is sure to know of the wonderful  
cures made by Dr.  
Kilmer's Swamp-Root,  
the great kidney, liver  
and bladder remedy.

It is the great medi-  
cal triumph of the nine-  
teenth century; dis-  
covered after years of  
scientific research by  
Dr. Kilmer, the emi-  
nent kidney and blad-  
der specialist, and is  
wonderfully successful in promptly curing  
lame back, kidney, bladder, uric acid trou-  
bles and Bright's Disease, which is the worst  
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not  
recommended for everything but if you have kidney,  
liver or bladder trouble it will be found  
just the remedy you need. It has been tested  
in so many ways, in hospital work, in private  
practice, among the helpless too poor to pur-  
chase relief and has proved so successful in  
every case that a special arrangement has  
been made by which all readers of this paper  
who have not already tried it, may have a  
sample bottle sent free by mail, also a book  
telling more about Swamp-Root and how to  
find out if you have kidney or bladder trouble.

When writing mention reading this generous  
offer in this paper and  
send your address to  
Dr. Kilmer & Co., Bing-  
hamton, N. Y. The  
regular fifty cent and  
dollar sizes are sold by all good druggists.

Don't make any mistake, but re-  
member the name Swamp-Root, Dr.  
Kilmer's Swamp-Root, and the address,  
Binghamton, N. Y., on every bottle.

Early last week the 150 men shipped  
on a frigate from Colon, as laborers  
bound to Colombia to work on a new  
railroad. All went well until Montgo-  
mery attempted to board the boat when  
he was recognized and compelled to  
leave the docks. The frigate sailed  
without him. His side partner, another  
newspaper man from Houston, was  
left behind with him, but left New  
Orleans for Tampico while Montgo-  
mery came north on his way to Norfolk,  
Va., from which port he will sail on  
a frigate for Colon, this week. He is  
bound to get to Colon and from that  
point join the revolutionary forces under  
Jeffries at the latter's camp 60  
miles inland from the city. Jeffries  
is said to have an army of 40,000 men,  
and is nearly prepared to seize the  
reins of government, which he has  
already had the pleasure of holding.  
He is also said to have a large force  
of men in Colon, sub rosa, ready to  
seize the city at a moment's notice.

General Jeffries went to Colon sev-  
eral years ago as a news correspond-  
ent. He is a native of New Jersey.  
He is an old friend of Montgomery,  
and the latter has been promised a  
commission by the revolutionist. The  
latter became mixed up in the politics  
of the country, took part in several  
revolutions, developed a following and  
when the proper time came he started  
a little revolution of his own. The  
story gained circulation in the south  
that the revolution was started and  
the filibusterers were going to join it  
for the purpose of making trouble  
for the United States government in  
the building of the great canal across  
the isthmus. This is strenuously de-  
nied, however. At any rate Montgo-  
mery, newspaper man, war corres-  
pondent, filibusterer and soldier of for-  
tune, is about to cast his lot with  
the fortunes of General Jeffries and  
rise or fall with him. He will be in  
the revolutionary camp within a week,  
if not intercepted.

### WILL ASK FOR ADVANCE IN MAY

Trainmen of All Railroads Centering  
in Chicago Will Demand In-  
crease in Wages.

Chicago, March 13.—The Record-  
Herald says:  
Early in May a concerted demand  
will be made by the trainmen of all  
railroads centering in Chicago for a  
raise in wages amounting to between  
12 and 15 per cent. Preceding their  
visit to Chicago the trainmen's com-  
mittees are to make a similar demand  
upon the Northern Pacific and the  
Great Northern Railroads.

They will ask that the pay of con-  
ductors and brakemen of through  
local and way freight, mixed and work  
trains be raised 15 per cent, with pro-  
rata for overtime, and that passenger  
conductors, brakemen, flagmen and  
train porters be given a 12 per cent  
raise. Recent settlements upon this  
basis have been made with the Union  
Pacific and part of the Santa Fe  
roads, and it is expected that no diffi-  
culty will be experienced in inducing  
the Hill lines to meet the advanced  
schedules. The movement will effect  
many thousands of men and the rail-  
road managers are comparing notes  
with a view of standing together in  
the replies made to the demands.

"Have Troubles of Our Own."  
Raleigh, N. C., March 13.—Governor  
Aycock said regarding the Wisconsin  
senate's plans for a race problem con-  
vention in Atlanta: "I think it a  
piece of foolishness. I will let Geor-  
gia attend to her own race troubles  
and let North Carolina attend to hers.  
We have troubles enough of our own  
and have always been diligent enough  
to meet and overcome them."

George Granville Bradley, dean of the  
Order of the Bath and lately dean of  
Westminster, died in his 82d year.

## WAITING FOR INQUEST

Believed That Matter of Impor-  
tance Will Be Brought to  
Light at Hearing

### CASE WILL BE HEARD SATURDAY

Witnesses Must Answer All Questions.

Important Witness Has Left the  
City and Cannot Be Located—Bur-  
dick's Will Filed.

Buffalo, March 13.—Straight from  
the lips of the persons who were im-  
mately associated with him, in his  
family, social and business pursuits,  
the public will hear the story of the  
life of Edwin L. Burdick, its worries,  
its disappointments and its scandals.  
Direct from those who discovered the  
body in his beautiful home in Ash-  
land avenue on the morning of Feb.  
27, it is to learn all the details of the  
tragic morning, and from those whose  
names have been mentioned with  
great care in connection with the  
crime, will hear full stories of ex-  
planation, unless, as the police confi-  
dently hope and must expect, there  
will drop from the tongue of one some-  
one word which will cause a court sen-  
tence, a confession perhaps, and an ar-  
rest.

The inquest is the last card to  
which District Attorney Coatsworth  
so frequently referred not long since.  
He said that when it was played the  
authorities would win all or lose it.  
It will be begun at 10 o'clock Saturday  
morning in the magistrate's court in  
the police headquarters building, and  
will continue all day. If not finished  
then it will continue Monday and  
every day thereafter until the wit-  
nesses have all been examined.

All police cases will be set aside  
Saturday. The old court room, for  
years and years the magisterial home  
of Thomas V. King, a famous police  
justice, will be cleared for action. Po-  
licemen will stand at its doors and  
will form an aisle from the street to  
its main entrance. Only as many as  
can be seated, about 500, will be ad-  
mitted.

"The inquest will be the most  
searching ever held in the county of  
Erie," said Judge Murphy. "I shall  
go into every phase of the situation,  
shall spare no one. No flinching will  
be permitted. Witnesses must an-  
swer every question put to them un-  
less they wish to seek refuge in the  
legal objection that to answer would  
incriminate or degrade. Objections  
on the part of lawyers will not be  
noticed."

"The authorities are going to hold  
this inquest, and it is to be a real  
one. It is due to the innocent people  
of this community who have been un-  
der police surveillance. I shall bring  
out every fact possible in Burdick's  
life and methods."

The Burdick will, it is understood,  
disposes of an estate valued at be-  
tween \$100,000 and \$150,000. Mrs.  
Burdick will be entitled to her dower  
rights in the estate no matter what  
the provisions of the will may be.

In the life insurance policies his  
wife is named as beneficiary. George  
C. Miller, attorney for Mrs. Burdick,  
would not discuss the document, but  
from other sources it was learned that  
it will occasion litigation.

the witnesses wanted for the Burdick

inquest, has left the city. Whether  
she went is not definitely known by  
the police. A detective sergeant was  
looking for her with a summons to  
appear before Judge Murphy, who  
will conduct the Burdick inquest.  
When he called at the house he was  
informed that Mrs. Paine was not at  
home. He was not satisfied with this  
reply and entered the house.

After leaving the Paine home he  
went at once to the New York Central  
station. He was told by the ticket  
agent there that a woman closely an-  
swering Mrs. Paine's description had  
bought a ticket. He did not remem-

**Ames Will Return to Minneapolis.**  
Manchester, N. H., March 13.—Adel-  
bert A. Ames, former mayor of Minne-  
apolis and fugitive from justice, con-  
trary to the advice of his physician,  
and, it is believed here, without the  
knowledge of his counsel, decided to  
return to Minneapolis and stand trial.  
He will leave on the 10:49 train Sat-  
urday and will therefore be out of the  
state when the time limit in which he  
had to get bail is up, at 2 p. m. He  
will be accompanied by Mrs. Ames  
and their child. His decision to re-  
turn was voluntarily made, but it was  
not announced until his wife's rela-  
tives had come forward with sureties  
enough for his bail of \$12,500.

**Judge Day's Condition.**  
Washington, March 13.—Dr. B. L.  
Hardin, the attending physician, made  
the following statement: "Judge Day  
has a moderately severe attack of  
pneumonia. He is very comfortable  
and his symptoms at present do not  
occasion alarm. Dr. Osler of Johns

## LIKES TO MIX IN WARFARE

Soldier of Fortune Who Has Taken Part in Many Filibustering Expeditions.

### NOW ON HIS WAY TO COLON

Where He Proposes to Join the Revolutionists—A Connecticut Yankee Whose Career Has Been Strange, Romantic and Perilous.

Columbus, March 13.—During the whole of the past week and up to Monday evening of this week there lagored in the ranks of the local newspaper men, one of the most remarkable characters the profession has produced in the last decade. He drifted silently into the city from the south, secured a temporary position during his brief stay, and on Monday evening "he folded his tent like the Arab" and as silently stole away.

This strange character is C. B. Montgomery, native of Connecticut, one of the old regime in the newspaper world, reporter, editor, war correspondent, filibuster, soldier of fortune, revolutionist, anything you please, and anything for excitement. For many months previous to the outbreak of the Spanish-American war he was the associate of the late Stephen Crane, and with him was one of the two survivors of the ill-fated tug Commodore which went down off the coast of Florida while on its way to Cuba with recruits and supplies for the Cuban insurgents.

Montgomery took part in 22 filibustering expeditions to Cuba, and was once captured by the Spaniards. He made his escape the following night.

driven horse it balks. The reason for this lies the close nerve relationship existing between the brain and the stomach. Nature intended the stomach to have regular hours. A time to work, a time to rest—and when you break up this habit, you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act, the food does not digest—lies heavy, ferments and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous, irritable feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills its cure.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

**Don't make any mistake, but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.**

Early last week the 150 men shipped on a frigate from Colon, as laborers bound to Colombia to work on a new railroad. All went well until Montgomery attempted to board the boat when he was recognized and compelled to leave the docks. The frigate sailed without him. His side partner, another newspaper man from Houston, was left behind with him, but left New Orleans for Tampico while Montgomery came north on his way to Norfolk, Va., from which port he will sail on a frigate for Colon, this week. He is bound to get to Colon and from that point join the revolutionary forces under Jeffries at the latter's camp 60 miles inland from the city. Jeffries is said to have an army of 40,000 men, and is nearly prepared to seize the reins of government, which he has already had the pleasure of holding. He is also said to have a large force of men in Colon, sub rosa, ready to seize the city at a moment's notice.

General Jeffries went to Colon several years ago as a news correspondent. He is a native of New Jersey. He is an old friend of Montgomery, and the latter has been promised a commission by the revolutionist. The latter became mixed up in the politics of the country, took part in several revolutions, developed a following and when the proper time came he started a little revolution of his own. The story gained circulation in the south that the revolution was started and the filibusters were going to join it for the purpose of making trouble for the United States government in the building of the great canal across the isthmus. This is strenuously denied, however. At any rate Montgomery, newspaper man, war correspondent, filibuster and soldier of fortune, is about to cast his lot with the fortunes of General Jeffries and rise or fall with him. He will be in the revolutionary camp within a week, if not intercepted.

### WILL ASK FOR ADVANCE IN MAY

Trainmen of All Railroads Centering in Chicago Will Demand Increase in Wages.

Chicago, March 13.—The Record-Herald says:

Early in May a concerted demand will be made by the trainmen of all railroads centering in Chicago for a raise in wages amounting to between 12 and 15 per cent. Preceding their visit to Chicago the trainmen's committees are to make a similar demand upon the Northern Pacific and the Great Northern Railroads.

They will ask that the pay of conductors and brakemen of through local and way freight, mixed and work trains be raised 15 per cent, with pro rata for overtime, and that passenger conductors, brakemen, flagmen and train porters be given a 12 per cent raise. Recent settlements upon this basis have been made with the Union Pacific and part of the Santa Fe roads, and it is expected that no difficulty will be experienced in inducing the Hill lines to meet the advanced schedules. The movement will effect many thousands of men and the railroad managers are comparing notes with a view of standing together in the replies made to the demands.

**"Have Troubles of Our Own."**  
Raleigh, N. C., March 13.—Governor Aycock said regarding the Wisconsin senate's plans for a race problem convention in Atlanta: "I think it a piece of foolishness. I will let Georgia attend to her own race troubles and let North Carolina attend to hers. We have troubles enough of our own and have always been diligent enough to meet and overcome them."

London, March 13.—The Very Rev. George Granville Bradley, dean of the Order of the Bath and lately dean of Westminster, died in his 82d year.

## WAITING FOR INQUEST

Believed That Matter of Importance Will Be Brought to Light at Hearing

### CASE WILL BE HEARD SATURDAY

Witnesses Must Answer All Questions.

Important Witness Has Left the City and Cannot Be Located—Burdick's Will Filed.

Buffalo, March 13.—Straight from the lips of the persons who were intimately associated with him, in his family, social and business pursuits, the public will hear the story of the life of Edwin L. Burdick, its worries, its disappointments and its scandals. Direct from those who discovered the body in his beautiful home in Ashland avenue on the morning of Feb. 27, it is to learn all the details of the tragic morning, and from those whose names have been mentioned with great care in connection with the crime, will hear full stories of exonerations, unless, as the police confidently hope and must expect, there will drop from the tongue of one some word which will cause a court sensation, a confession perhaps, and an arrest.

The inquest is the last card to which District Attorney Coatsworth so frequently referred not long since. He said that when it was played the authorities would win all or lose it. It will be begun at 10 o'clock Saturday morning in the magistrate's court in the police headquarters building, and will continue all day. If not finished then it will continue Monday and every day thereafter until the witnesses have all been examined.

All police cases will be set aside Saturday. The old court room, for years and years the magisterial home of Thomas V. King, a famous police justice, will be cleared for action. Policemen will stand at its doors and will form an aisle from the street to its main entrance. Only as many as can be seated, about 500, will be admitted.

"The inquest will be the most searching ever held in the county of Erie," said Judge Murphy. "I shall go into every phase of the situation, shall spare no one. No flinching will be permitted. Witnesses must answer every question put to them unless they wish to seek refuge in the legal objection that to answer would incriminate or degrade. Objections on the part of lawyers will not be noticed."

"The authorities are going to hold this inquest, and it is to be a real one. It is due to the innocent people of this community who have been under police surveillance. I shall bring out every fact possible in Burdick's life and methods."

The Burdick will, it is understood, disposes of an estate valued at between \$100,000 and \$150,000. Mrs. Burdick will be entitled to her dower rights in the estate no matter what the provisions of the will may be.

In the life insurance policies his wife is named as beneficiary. George C. Miller, attorney for Mrs. Burdick, would not discuss the document, but from other sources it was learned that it will occasion litigation.

Mrs. Seth T. Paine who is one of the witnesses wanted for the Burdick

inquest, has left the city. Whether she went is not definitely known by the police. A detective sergeant was looking for her with a summons to appear before Judge Murphy, who will conduct the Burdick inquest. When he called at the house he was informed that Mrs. Paine was not at home. He was not satisfied with this reply and entered the house.

After leaving the Paine home he went at once to the New York Central station. He was told by the ticket agent there that a woman closely answering Mrs. Paine's description had bought a ticket. He did not remember for what place, but he thought it was for Batavia. Mrs. Paine's husband is a dentist and practices in Batavia.

and for nearly six weeks he roamed the jungles of the island dodging the Spaniards and trying to find his way to a friendly seacoast village. He was lost, hopelessly lost, but finally managed to make his way to the coast and was picked up by a coasting bark friendly to the Cuban cause. Time after time he was apprehended in Florida by the United States authorities who knew him as a filibuster, but each time he made his escape to New Orleans until the storm had blown over.

Since the war Montgomery has been doing newspaper work in Houston, Texas, but the fever laid hold of him again, and when agents of the Cuban revolutionary general, Upton Jeffries, organized a filibustering expedition in that city, he was one of 150 to enlist. Week before last the party got away and went to New Orleans.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is recommended for everything but you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Birmingham, N. Y., on every bottle.

Early last week the 150 men shipped on a frigate from Colon, as laborers bound to Colombia to work on a new railroad. All went well until Montgomery attempted to board the boat when he was recognized and compelled to leave the docks. The frigate sailed without him. His side partner, another newspaper man from Houston, was left behind with him, but left New Orleans for Tampico while Montgomery came north on his way to Norfolk, Va., from which port he will sail on a frigate for Colon, this week. He is bound to get to Colon and from that point join the revolutionary forces under Jeffries at the latter's camp 60 miles inland from the city. Jeffries is said to have an army of 40,000 men, and is nearly prepared to seize the reins of government, which he has already had the pleasure of holding. He is also said to have a large force of men in Colon, sub rosa, ready to seize the city at a moment's notice.

General Jeffries went to Colon several years ago as a news correspondent. He is a native of New Jersey. He is an old friend of Montgomery, and the latter has been promised a commission by the revolutionist. The latter became mixed up in the politics of the country, took part in several revolutions, developed a following and when the proper time came he started a little revolution of his own. The story gained circulation in the south that the revolution was started and the filibusters were going to join it for the purpose of making trouble for the United States government in the building of the great canal across the isthmus. This is strenuously denied, however. At any rate Montgomery, newspaper man, war correspondent, filibuster and soldier of fortune, is about to cast his lot with the fortunes of General Jeffries and rise or fall with him. He will be in the revolutionary camp within a week, if not intercepted.

## WILL ASK FOR ADVANCE IN MAY

Trainmen of All Railroads Centering in Chicago Will Demand Increase in Wages.

Chicago, March 13.—The Record-Herald says:

Early in May a concerted demand will be made by the trainmen of all railroads centering in Chicago for a raise in wages amounting to between 12 and 15 per cent. Preceding their visit to Chicago the trainmen's committees are to make a similar demand upon the Northern Pacific and the Great Northern railroads.

They will ask that the pay of conductors and brakemen of through local and way freight, mixed and work trains be raised 15 per cent, with pro rata for overtime, and that passenger conductors, brakemen, flagmen and train porters be given a 12 per cent raise. Recent settlements upon this basis have been made with the Union Pacific and part of the Santa Fe roads, and it is expected that no difficulty will be experienced in inducing the Hill lines to meet the advanced schedules. The movement will effect many thousands of men and the railroad managers are comparing notes with a view of standing together in the replies made to the demands.

"Have Troubles of Our Own." Raleigh, N. C., March 13.—Governor Aycock said regarding the Wisconsin senate's plans for a race problem convention in Atlanta: "I think it a piece of foolishness. I will let Georgia attend to her own race troubles and let North Carolina attend to hers. We have troubles enough of our own and have always been diligent enough to meet and overcome them."

Rev. G. G. Bradley Dead. London, March 13.—The Very Rev. George Granville Bradley, dean of the Order of the Bath and lately dean of Westminster, died in his 82d year.

## WAITING FOR INQUEST

Believed That Matter of Importance Will Be Brought to Light at Hearing

### CASE WILL BE HEARD SATURDAY

Witnesses Must Answer All Questions.

Important Witness Has Left the City and Cannot Be Located—Burdick's Will Filed.

Buffalo, March 13.—Straight from the lips of the persons who were intimately associated with him, in his family, social and business pursuits, the public will hear the story of the life of Edwin L. Burdick, its worries, its disappointments and its scandals. Direct from those who discovered the body in his beautiful home in Ashland avenue on the morning of Feb. 27, it is to learn all the details of the tragic morning, and from those whose names have been mentioned with great care in connection with the crime, will it hear full stories of exonerations, unless, as the police confidently hope and must expect, there will drop from the tongue of one some word which will cause a court sensation, a confession perhaps, and an arrest.

The inquest is the last card to which District Attorney Coatsworth so frequently referred not long since. He said that when it was played the authorities would win all or lose. It will be begun at 10 o'clock Saturday morning in the magistrate's court in the police headquarters building, and will continue all day. If not finished then it will continue Monday and every day thereafter until the witnesses have all been examined.

All police cases will be set aside Saturday. The old court room for years and years the magisterial home of Thomas V. King, a famous police justice, will be cleared for action. Policemen will stand at its doors and will form an aisle from the street to its main entrance. Only as many as can be seated, about 500, will be admitted.

"The inquest will be the most searching ever held in the county of Erie," said Judge Murphy. "I shall go into every phase of the situation, shall spare no one. No flinching will be permitted. Witnesses must answer every question put to them unless they wish to seek refuge in the legal objection that to answer would incriminate or degrade. Objections on the part of lawyers will not be noticed."

"The authorities are going to hold this inquest, and it is to be a real one. It is due to the innocent people of this community who have been under police surveillance. I shall bring out every fact possible in Burdick's life and methods."

The Burdick will, it is understood, disposes of an estate valued at between \$100,000 and \$150,000. Mrs. Burdick will be entitled to her dower rights in the estate no matter what the provisions of the will may be.

In the life insurance policies his wife is named as beneficiary. George C. Miller, attorney for Mrs. Burdick, would not discuss the document, but from other sources it was learned that it will occasion litigation.

Mrs. Seth T. Paine who is one of the witnesses wanted for the Burdick

Inquest, has left the city. Whither she went is not definitely known by the police. A detective sergeant was looking for her with a summons to appear before Judge Murphy, who will conduct the Burdick inquest. When he called at the house he was informed that Mrs. Paine was not at home. He was not satisfied with this reply and entered the house.

After leaving the Paine home he went at once to the New York Central station. He was told by the ticket agent there that a woman closely answering Mrs. Paine's description had bought a ticket. He did not remember for what place, but he thought it was for Batavia. Mrs. Paine's husband is a dentist and practices in Batavia.

Ames Will Return to Minneapolis. Manchester, N. H., March 13.—Adelbert A. Ames, former mayor of Minneapolis and fugitive from justice, contrary to the advice of his physician, and it is believed here, without the knowledge of his counsel, decided to return to Minneapolis and stand trial. He will leave on the 10:49 train Saturday and will therefore be out of the state when the time limit in which he had to get bail is up, at 2 p. m. He will be accompanied by Mrs. Ames and their child. His decision to return was voluntarily made, but it was not announced until his wife's relatives had come forward with sureties enough for his bail of \$12,500.

Judge Day's Condition. Washington, March 13.—Dr. B. L. Hardin, the attending physician, made the following statement: "Judge Day has a moderately severe attack of pneumonia. He is very comfortable and his symptoms at present do not occasion alarm. Dr. Osler of Johns Hopkins university, will see him in consultation in the morning."

### A FINE ENTERTAINMENT

Given in the High School Course By the Bostonia Sextet—Next Attraction.

One of the finest numbers of the course of entertainments given by the High School lecture course was presented at the Grand last night by the Bostonia Sextet. The company is one of the best which has appeared before an East Liverpool audience. Each number on the program demonstrated that each member of the company is an artist of superior ability. The entire entertainment was very much enjoyed by a large audience. Never in the history of the High School has there been a course of entertainments which has met with such universal approval.

The next entertainment will be of unusual interest. Mrs. Ballington Booth, of Salvation Army fame, will lecture on "Lights and Shadows" of Prison Life. It is also expected that an entertainment will be given in place of the one omitted on the course a few weeks ago.

### Wedding Trip to Porto Rico.

Lisbon, March 13.—(Special)—Harry Lafferty Cooke, of Bridgeport, O., and Miss Mary Emma Way were married at noon today at the home of the bride's parents, Mr. and Mrs. Nicholas Way, on Lincoln avenue in this village. Rev. J. A. Ulman, of the M. E. church, officiated. Mr. and Mrs. Cooke will begin housekeeping soon at Bridgeport, where the groom has his headquarters as a division superintendent in the employ of the American Tin Plate company. With L. M. Scott and wife, formerly of Lisbon, they contemplate a trip in a few weeks to Porto Rico, in the interests of the tin plate company. Mr. and Mrs. Cooke were prematurely serenaded by a company of bellers last night, who refused to believe that the couple had not yet been married. The crowd dispersed after keeping up a horrible din for about four hours.

### Entertained W. C. T. U.

The Women's Christian Temperance Union held a social at the residence of Mrs. E. McIntosh on Pennsylvania avenue last evening at 8 o'clock. This was the occasion of the monthly meeting. When Mrs. McIntosh extended a cordial invitation to the society it was decided to combine with the regular business a social. Every one present enjoyed a most delightful evening, and the friends of temperance of the city are gratified over the revival of interest manifested in this society.

### Missionary Society Meeting.

The Home Missionary society of the First M. E. church held a very interesting meeting last evening at 7 o'clock. Mrs. Frank Crook was elected to prepare a paper to be read at the convention to be held at Steubenville April 30. Mrs. P. Fowler was selected to sing a solo. Delegates will be appointed to attend the convention at the next meeting of the society.

### Held a Quilting.

in interest. Last evening the largest congregation of the season assembled. Rev. Dr. Milton B. Pratt preached a fine sermon, which was listened to with great interest. Dr. Pratt will also preach this evening.

In New Quarters—The Knights of Pythias, the Pythian Sisters, the S. O. U. A. M. and the Daughters of Liberty have moved from the Golding building to the Oyster building on Sixth street and will hold lodge meetings there hereafter. New carpets and other new furnishings make the new quarters very attractive.

Called to Newark—The news that Rev. John M. Gaston, son of Mr. and Mrs. George Gaston, of this city, has been called to the pastorate of the First Presbyterian church at Newark, at a salary of \$3,500 a year, will be gladly received by his many friends in this city. The rise of the young minister has been rapid and he has been pastor of the Hazelwood church in Pittsburgh for several years. He will accept the call.

Arrests Are Needed—Boys who have been making themselves obnoxious about business places have been guilty of conduct on the stairway leading to the Fryett art gallery on Broadway which caused the police to be sent for. The offenders were gone when the officers arrived. A few arrests of lads who do not behave themselves would have a healthy effect and business men are watching to get a chance to teach them a lesson.

Thorn in the Flesh—An operation was performed yesterday by Dr. Norris on the hand of John Headley, of Thompson avenue. About a year ago a thorn was run into his hand at the base of his thumb. It was thought it had been removed at the time, and the

for months, but a few months ago it began to pain him and kept him from his work. The hand was cut open and a quantity of pus taken out, but the wound still refused to heal. Yesterday the hand was cut open to the bone and a piece of the thorn a quarter of an inch long was found. It was removed and it is expected that the wound will now heal in a few days and that he will be able to return to work in a short time.

TEN PIECES OF SHEET MUSIC FOR \$1.00.

Is This Old Music?  
NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that we can afford to sell it 10 pieces for \$1.00.

NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.

### A FINE ENTERTAINMENT

Given in the High School Course By the Bostonia Sextet—Next Attraction.

One of the finest numbers of the course of entertainments given by the High School lecture course was presented at the Grand last night by the Bostonia Sextet. The company is one of the best which has appeared before an East Liverpool audience. Each number on the program demonstrated that each member of the company is an artist of superior ability. The entire entertainment was very much enjoyed by a large audience. Never in the history of the High School has there been a course of entertainments which has met with such universal approval.

The next entertainment will be of unusual interest. Mrs. Ballington Booth, of Salvation Army fame, will lecture on "Lights and Shadows" of Prison Life. It is also expected that an entertainment will be given in place of the one omitted on the course a few weeks ago.

### Wedding Trip to Porto Rico.

Lisbon, March 12.—(Special)—Harry Lafferty Cooke, of Bridgeport, O., and Miss Mary Emma Way were married at noon today at the home of the bride's parents, Mr. and Mrs. Nicholas Way, on Lincoln avenue in this village. Rev. J. A. Uman, of the M. E. church, officiated. Mr. and Mrs. Cooke will begin housekeeping soon at Bridgeport, where the groom has his headquarters as a division superintendent in the employ of the American Tin Plate company. With I. M. Scott and wife, formerly of Lisbon, they contemplate a trip in a few weeks to Porto Rico, in the interests of the tin plate company. Mr. and Mrs. Cooke were prematurely serenaded by a company of bellers last night, who refused to believe that the couple had not yet been married. The crowd dispersed after keeping up a horrible din for about four hours.

### Entertained W. C. T. U.

The Women's Christian Temperance Union held a social at the residence of Mrs. E. McIntosh on Pennsylvania avenue last evening at 8 o'clock. This was the occasion of the monthly meeting. When Mrs. McIntosh extended a cordial invitation to the society it was decided to combine with the regular business a social. Every one present enjoyed a most delightful evening, and the friends of temperance of the city are gratified over the revival of interest manifested in this society.

### Missionary Society Meeting.

The Home Missionary society of the First M. E. church held a very interesting meeting last evening at 7 o'clock. Mrs. Frank Crook was elected to prepare a paper to be read at the convention to be held at Steubenville April 30. Mrs. P. Fowler was selected to sing a solo. Delegates will be appointed to attend the convention at the next meeting of the society.

### Held a Quilting.

The ladies of the Foreign Missionary society of the First M. E. church yesterday held an all-day quilting for the benefit of the foreign missions. There was a large attendance.

In New Quarters—The Knights of Pythias, the Pythian Sisters, the Sr. O. U. A. M. and the Daughters of Liberty have moved from the Golding building to the Oyster building on Sixth street and will hold lodge meetings there hereafter. New carpets and other new furnishings make the new quarters very attractive.

Called to Newark—The news that Rev. John M. Gaston, son of Mr. and Mrs. George Gaston, of this city, has been called to the pastorate of the First Presbyterian church at Newark, at a salary of \$3,500 a year, will be gladly received by his many friends in this city. The rise of the young minister has been rapid and he has been pastor of the Hazelwood church in Pittsburg for several years. He will accept the call.

Arrests Are Needed—Boys who have been making themselves obnoxious about business places have been guilty of conduct on the stairway leading to the Fryett art gallery on Broadway which caused the police to be sent for. The offenders were gone when the officers arrived. A few arrests of lads who do not behave themselves would have a healthy effect and business men are watching to get a chance to teach them a lesson.

Thorn in the Flesh—An operation was performed yesterday by Dr. Norris on the hand of John Headley, of Thompson avenue. About a year ago a thorn was run into his hand at the base of his thumb. It was thought it had been removed at the time, and the

for months, but a few months ago it began to pain him and kept him from his work. The hand was cut open and a quantity of pus taken out, but the wound still refused to heal. Yesterday the hand was cut open to the bone and a piece of the thorn a quarter of an inch long was found. It was removed and it is expected that the wound will now heal in a few days and that he will be able to return to work in a short time.

TEN PIECES OF SHEET MUSIC FOR \$1.00. Is This Old Music? NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that we can afford to sell it 10 pieces for \$1.00. NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.

## DISCOVERY OF GOLD MADE ON HANCOCK COUNTY LAND CLOSE TO TOWN OF CHESTER

**A Piece of Quartz Which Experts Say Is Rich  
in Precious Metal Found On  
Stevenson Farm.**

A piece of quartz was handed to a representative of the News Review today by John D. West, who claimed to have broken it from a much larger piece found near Chester. The rock bears unmistakable evidence of being gold quartz, with a large percentage of gold contained in it.

The piece of rock was taken to the office of Dr. W. L. Thompson, who examined it and stated, after breaking and reducing a piece of the quartz to a powder, that the ore, without question, was an excellent quality of gold. The piece of ore knocked from the large piece was not much larger than a peach stone, but the amount of metal secured from it was considerable and very heavy.

Dr. Thompson for 25 years was closely connected with the mining industry, and it took him but little time to form a favorable impression.

Mr. West and a friend, J. B. Mallin,

were leisurely strolling about the Thomas Stevenson farm in the vicinity of the reservoir, above Chester, when their attention was drawn to the glittering substance in the rock, and both were enough interested in the matter to secure a specimen of it. The large amount of the valuable metal secured from so small a piece of rock, would not necessitate a very large vein being discovered to place the finder in affluent circumstances.

This is not far from the oil developments on the Kinney farm and the quality of oil being drawn from the ground comes so near being pure, that the immediate territory may develop some surprises. The metal was later taken to a prominent jeweler and stood the severest tests and after a thorough examination, he pronounced it to be of exceptionally good quality and of a grade between 14 and 15 carats.

## EAST LIVERPOOL WILL STAND ALONE

ONLY CITY ABOUT HERE TO VOTE  
FOR SCHOOL BOARD.

Present Members Will Be Re-Chosen,  
But Can Serve Only  
One Year.

East Liverpool will likely be the only city of its size and class in the state that will elect members of the board of education at the coming spring election. According to a ruling of the supreme court those who are at the present time members of the board will hold the position for another year without an election. As a result all cities but East Liverpool will name no names under that head on the ticket.

The conditions existing in this city are different from those in any of the others heard from. The men who have received the nomination are now acting members of the board, and whether they be elected or not they would continue to serve for another year. There is but one difficulty apparent that can arise over their election, that is that next year when an order is issued that new members be elected, those who are nominees at the present time will be compelled to run for the nomination again notwithstanding that, according to the rule now in effect, that they will be elected for three years.

When such complications are likely

To the State Officials By the Question  
Raised—Success of the Beal Law  
in Closing Saloons — Other Notes  
from the Capital.

From a Staff Correspondent.

Columbus, March 13.—The question of school board elections is causing the state officials no end of trouble. Notwithstanding the ruling of the attorney general to the effect that no elections shall be held in cities where the ward boundaries have been changed, there seems to be a feeling of uneasiness about the matter among the educators and boards of elections as to what constitutes their duties in the premises. Communications are still pouring in daily upon the attorney general and the secretary of state for more light on the subject.

Cincinnati is ignoring the decision of the attorney general completely. The situation there differs from that

## A SPLENDID OFFER.

The News Review, in its issue of next Saturday, will inaugurate a voting contest which it will be worth while for representatives of organized labor of East Liverpool and vicinity to enter.

Briefly summarized the offer is this: To the person, male or female, receiving the highest number of votes on coupons cut from the News Review, A FREE TRIP TO EUROPE AND RETURN. To the person receiving the second highest number of votes, A TRIP UP THE GREAT LAKES OR TO SOME ATTRACTIVE SUMMER RESORT AT THE EXPENSE OF THE NEWS REVIEW.

No offer approaching this in liberality was ever before made by a newspaper in East Liverpool. The contest will be open to all representatives of organized labor in good standing, and men and women, boys and girls may vote. Rules and conditions of the contest will be published in full, along with the first coupon.

to arise it is thought by some inadvisable for any to run for election, but it has been stated that no steps will be taken to prevent the candidates remaining on the ticket if they desire.

Much controversy has been indulged in over the state in regard to the peculiar question and the supreme court has been applied to in numerous instances. Its decision was made official in the case from Steubenville. Two candidates for school board had filed a motion for a mandamus to compel the board of elections to place their names on the ticket and the court in refusing to rule favorably for the applicants announced that it did so because their right to be placed on the ballot was not clear.

A Hobo Asleep in a Pottery Arrested.  
John Allison's Canton  
Trip.

The slumbers of Aaron Lake, a hobo whose home is wherever he happens to stop, were rudely interrupted while he was snugly cornered in a shed at Thompson's pottery last evening, by Officer Patrick Woods. The officer escorted him to the city jail and gave him the best city provides. Before he was arraigned this morning the mayor was invited to take a peep at his personal appearance. As a result Mr. Lake was instructed to take a cold water bath. It was his first one in many months and he fears that he will not be able to stand the shock. Being penniless, he was ordered out of the city.

Officer Aufderheide left on the early train this morning with John Allison, who will spend the coming half year in the Canton workhouse.

of any other city in the state, in that all the school board members terms expire this spring and the reasons for not holding such elections in other cities does not apply to Cincinnati. Both Assistant Attorney General Sheets and Chief Clerk Alread, of the secretary of state's office, gave out opinions yesterday on the school board question, the former holding that under no circumstances can members of school boards be elected to represent wards which have been changed by the law, and the latter that such elections can be held in city districts where the members are chosen at large. Had the legislature passed a school code at the extra session, the present confusion would have been obviated.

The Beal local option law has been in force less than a year and under it over 500 saloons have been closed. Local option elections have been held in 177 municipalities and 114 of those have voted "dry." The Dow tax paid by the saloons closed was about \$175,000 annually. Next Monday the people of Ashtabula will vote on the question of whether the 105 saloons within its borders shall be retained or abolished.

The shortage caused by the theft of coal from cars, the application of car service, tolls on railroads and uncollectable accounts were among the important matters considered.

The manager of the Columbus base ball team will introduce an extremely novel feature this year. He will establish a nursery under the grand stand at the local base ball park where the babies and children can be cared for by maids while the parents are witnessing the game. The innovation will probably attract attention throughout the entire base ball world.

Governor Nash and party, including Auditor of State Guilbert, Attorney General Sheets and Secretary of State Laylin will arrive here today from Cambridge Springs, where they have been for a week, the guests of the Erie railroad.

## L. C. MOORE NOW OUT OF THE RACE

HE DECIDES NOT TO CONTINUE  
AS A CANDIDATE.

A Letter Explains His Reasons For  
Withdrawing From the Presi-  
dential Contest.

Lisbon, March 13.—(Special.)—County Chairman John S. McNutt, of the Republican central committee, gave out the following letter this afternoon, announcing the withdrawal of Lewis C. Moore, of Salineville, as a candidate for the nomination for prosecuting attorney:

"John S. McNutt, Chairman Republican Central Committee, Columbiana County, Lisbon, O.

"Sir—I regret very much the necessity of addressing you at this time, but circumstances over which I have no control compel me to withdraw my name as a candidate for prosecuting attorney of this county. I take this step after visiting in the short time given me, a large part of the county and after consultation with many friends, and a fair consideration of my private business. I now and here thank each and all of my friends throughout the county for the kindness shown me, for the pledges of support they gave me and for the interest shown in my candidacy, and I shall always remember them and be ready to reply if the opportunity should present itself.

"This withdrawal in no manner affects my politics. I am and always have been and expect to be a Republican, and I shall be in the future, as in the past, a supporter of the Republican party, its candidates and its principles.

L. C. MOORE."

## PITTSBURG TO WHEELING BY NEW TROLLEY LINE

Street Railway Company Arranging  
For Double Track Between  
The Two Cities.

Washington, Pa., March 13.—It is learned that the Western Street Railway company, of Pittsburgh, is making every arrangement possible preparatory to the construction of a double track street car line from Finleyville to Washington, a distance of fifteen miles, and it is given out that later on the company will extend the line to Wheeling. This line would join the company's Pittsburgh and Charlestown line, which will be in operation by July 1, at Finleyville. The road, if built, will give a twenty-five-mile route to Pittsburgh, and over this line the company proposes running electric cars between Washington and Pittsburgh.

Last night at a meeting of the East Washington council, A. M. Linn, a local attorney, was present, representing the Pittsburgh company, asking that an ordinance granting them the right of way through the borough be granted. The ordinance calls for operations to be commenced within a year, and the line to be completed within two years. The greater part of the right of way from Washington to Finleyville has been granted. The members of council will consider the matter at their next meeting.

Dr. Gunsaulus Coming Here. Arrangements have been completed for Dr. Frank Gunsaulus, of Chicago to deliver a lecture here Friday evening, April 3, at the Grand opera house. Dr. Gunsaulus has been secured to take the place of the number of the course omitted some time ago. The title of the lecture will be "The Eloquence of Puritanism."

Orinoco Blockade Raised. Washington, March 13.—(Special.)—A cablegram from Consul Russell at Caracas, Venezuela, says that the blockade of the Orinoco river, declared by Castro on March 7, has been raised.

## LARGEST CIRCULATION.

The Evening News Review has a larger paid circulation than both the other East Liverpool dailies put together. Neither of those papers has attempted to dispute this fact. And neither of them dares to make public its circulation figures or to accept the News Review's challenge to let a committee of business men see their books and find how much of their boasted patronage is real and how much mythical. Men who advertise can draw their own conclusions as to where advertising is most profitable.

## FELL FROM FREIGHT TRAIN LOSING BOTH OF HIS LEGS AND NOT LIKELY TO LIVE

**A Wellsville Brakeman the Victim of a Terrible  
Accident While at Work in  
the Yards Today.**

Bleeding and mangled from terrible injuries and without the slightest hope of recovery, James Lightner, a C. & P. brakeman, was taken to Pittsburg hospital on the noon train today. It is the opinion of the physicians that he cannot survive longer than a few hours. His death will make the third fatality in a few days among the railroad men near the same spot in Wellsville.

Lightner went out on a run this morning shortly after 7 o'clock and the accident happened before his train had cleared the Wellsville yards. He was walking the running board of a box car, and in stepping from one car to another he fell between them. Clutching wildly at the iron ladder in that awful second of his fall when a horrible death seemed so near, Lightner made a desperate effort to save himself, and the other brakemen who

noticed his sudden disappearance hastened to his assistance. Lightner could not arrest his terrible plunge, and in another moment the car wheels had crushed him. Both legs and the right arm were severed and his head was terribly cut.

Lightner was unconscious when he was picked up by the train crew and had lost a large quantity of blood. For this reason it is thought that he cannot stand an operation. The injury to his head is in itself fatal, the physicians state.

Dr. Fraser was taken to the scene with all possible haste and rendered medical attention. It was decided to take the injured man to a Pittsburg hospital on the noon train, owing to the nature of the injuries.

Just what caused Lightner to stumble and fall between the cars is not known. The train was not under full

## AN OBSTRUCTION IN THE STREET

CAUSED A CHILD TO FALL AND  
GET BADLY HURT.

As a Result the Mother Takes Steps  
to Institute a Damage  
Suit.

As the result of alleged negligence on the part of those upon whom the responsibility of keeping the streets free from obstructions rests a damage suit of no small proportions which will likely be instituted against the city. The fact became known today when Mrs. Joseph Elsenhuth appeared at the office of Squire McCarron, accompanied by her 3-year-old daughter Hazel, who by falling over an obstacle on the pavement leading from the Elsenhuth home on Avondale street, sustained serious and most painful injuries.

The little one was walking down the street yesterday afternoon with her mother when she stumbled on a part of a wrecked wagon extending from the road several feet on the pavement, and in falling a sharp piece of iron penetrated her eye, causing excruciating pain and what is thought may result in the loss of sight. Mrs. Elsenhuth carried the child home and a physician was immediately summoned. He was unable to determine just how serious the injury is, but gave the information that the unfortunate child may be maimed for life.

An attorney was consulted by Mrs. Elsenhuth this afternoon, and although the amount has not yet been decided upon, the city will have a fight against the payment of a large sum. It is stated by Mrs. Elsenhuth that the wagon lay across the pavement for at least four months.

## DANCER IS GREAT ON THE MISSISSIPPI

Fear That a Levee Near Baton Rouge  
Will Break and Cause  
Disaster.

New Orleans, March 13.—(Special.)—It is feared today that the Arlington levee, near Baton Rouge, will break and as a result hundreds of laborers have been summoned to the scene. Rain continues to fall and the river is rising steadily.

The people of the entire valley are in great distress over the impending danger and it is thought that only the interference of Providence can prevent the most terrible disaster ever experienced on the Mississippi river.

Crazed By an Injury.

Lisbon, March 13.—(Special.)—John Harkins, of Salineville, was brought into probate court yesterday afternoon and adjudged insane. Harkins, who is 55 years old, has been a coal miner nearly all his life and his insanity, which is the third attack, is said to be due to an injury received many years ago by a fall of slate. He will be taken to Massillon as soon as a permit is received.

## MONEY IN SIGHT TO START WORK

St. Clair Township Will Proceed  
With the Work of Paving  
Calcutta Road.

## CONTRACT FOR \$33,000

The entire amount of money required for the improvement of Calcutta road from the northern limit of the city to the southern limit of Calcutta has practically been promised, and the mammoth contract will be commenced by Rinehart Bros. during the first week of May.

Considerable difficulty confronted the trustees of St. Clair township last week when the bid of Rinehart Bros., which was several thousand dollars the lowest filed for the work, was found to exceed the legal amount allowed the trustees to bond the township for, but they went to work immediately and have secured the assurance of help from the county commissioners and others, and now the money will be raised without trouble.

The contract amounts to about \$33,000, and the sum that the township will issue bonds for is only \$27,000. The commissioners had previously agreed to give \$2,000, and at a meeting to be held next week will donate another similar sum. The remaining \$2,000 will be given by the contractors and a land company, which will be greatly benefited by the improvement.

James Rinehart, one of the contractors, stated today that when the work is completed it will be one of the best roads in the country, and will be a pride to every one connected with it.

## A LOCAL CROKER HAS ASSIGNED

Arthur J. McCoy, of This City, Turns  
Over His Business to  
An Assignee.

Lisbon, March 13.—(Special.)—Arthur J. McCoy, who has been conducting a grocery in East Liverpool under the name of the McCoy Grocery company, at 325 West Market street, has made an assignment of personal property to Hollis E. Grosshans.

The property assigned consists of books and accounts, merchandise, store fixtures, wagons, harness, etc., to the value of \$1,500. Appraisers David Wells, Daniel McIntosh and George Schmidt. The assignee's bond of \$3,000 has been approved.

Sebring Will Issue Bonds.

Sebring, March 13.—The election upon the proposition to issue bonds to the amount of \$4,000 to pay for the completion of the city hall and debt incurred by reason of the small pox quarantine, was held and was carried by a majority of more than three to one. The result was as follows: For the issue of bonds, 134. Against the issue of bonds, 41.

## HUGHES BUSY AT TRENTON

Personally Investigating the Sanitary  
Pressers' Grievance  
on Dunted Ware.

## FOR PERMANENT RESULTS

From a Staff Correspondent.

Trenton, N. J., March 13.—President A. S. Hughes, of the National Brotherhood of Operative Pottery, since his arrival here last Tuesday, has been conducting a personal investigation of the grievance advanced by Sanitary Pressers' local No. 45, growing out of the action of the manufacturers in compelling its members to shoulder the responsibility for "dunted" ware. Meantime he has sent a communication to the secretary of the manufacturers' association, asking for a conference, but as yet has received no reply.

President Hughes was present Tuesday night at the meeting of the pressers' local when the question was discussed in all its phases, winding up in the members informing the national executive that they were prepared to strike if the manufacturers refuse to abandon their policy in charging them for the defective ware.

According to the statistics presented at the meeting it is inferred that several of the sanitary potteries have lost considerable money during the past two months in being compelled to find a market for their products in the slip house. In fact, according to the reports submitted by the various shop committees the dunted ware problem has had the effect of placing many of them behind in their orders.

The settlement, if one is effected according to President Hughes, will have a permanent governing influence on the entire sanitary trade. The national executive board of the Brotherhood at its meeting last week, delegated President Hughes and Vice President Hutchins to conduct the terms of the settlement, with the conference committee of the local to act in conjunction with them. The committee representing the local is composed of Joseph T. Cotton, national statistician; Reuben McDevitt, William Wooton, William Christian and Thomas Dennis.

Unless the "dunted" ware problem is not given a satisfactory solution, the sanitary pressers will have few matters to bring before the national convention of the organization, which meets at Wheeling in May. The local is entitled to send 14 delegates, but at the meeting last Tuesday night but three were elected, as the members feel that it would only be an additional expense in sending the full quota set forth in the constitution. The delegates who will represent the local are Joseph T. Cotton, George Martin and William Wooton.

A composite child labor bill was placed on second reading after it had

been freely amended by the house of assembly last Wednesday night. It provides that no boys under 14 years of age shall work in factories, work shops or mills. The bill also prohibits children under 12 years of age from selling newspapers during the school hours or before 5:30 a. m. or after 7:30 p. m. The bill will come up for final passage next week.

The making of brick, sewer pipe and other clay products is the object of the Howard Clay Manufacturing company, incorporated in the county clerk's office a few days ago. The company has an authorized capital stock of \$250,000, and the incorporators are Emery V. Donaldson and Charles G. Edwards, of Baltimore, and Benjamin Wilson, of this city.

Assemblyman Colclough has introduced in the New Jersey legislature a bill making obligatory the use of blow fans in potteries and other manufacturing establishments where dust circulates. Colclough is a potter.

## DESTRUCTIVE BLAZE THROWS MEN IDLE

Fire at Rush Run Destroys Power  
House And Coal  
Plant.

Rush Run, March 13.—The power house and plant of the Lewis Coal & Coke company burned to the ground Wednesday night at 8 o'clock. The origin of the fire is unknown, but is thought to have been caused by electric wires becoming crossed.

The Lewis Coal & Coke company's mines are located on the Dr. Kelly farm, adjoining the C. & P. railroad tracks, midway between Rush Run and Warrenton. About 85 to 100 men are employed in the mines, which are lighted and operated with modern electrical machinery. The power plant, which was burned, is located on top of the hill above the tipples and at the head of the incline. The office of the company is located in Lewis Bros' store building, near the W. & L. E. railroad station at Warrenton, and all or near all the stock of the company is owned by Ellsworth Lewis, of Belaire, and William A. Ward, of Wheeling.

## HOSPITAL BENEFIT

Proceeds of Dr. Pratt's Lecture to  
Swell the Hospital  
Fund.

Arrangements have been completed by the Hospital association for a lecture to be delivered by Mr. Milton Butler Pratt, pastor of the First M. E. church of this city, for the benefit of the association. This lecture will be given next Thursday evening at the M. E. church. Dr. Pratt will lecture on "Abraham Lincoln."

The well known ability of Rev. Dr. Pratt will insure a large attendance at this lecture and will mean a considerable sum for the benefit of the hospital.

Judge Day is Better.

Washington, March 13.—(Special.)—Judge Day was pronounced by his physicians at noon today as being slightly improved.

## WITH THE WORKMEN IN THE CLAY PLANTS

### OWNS VALUABLE COINS.

John Swartz, a packer employed at the National pottery, who lives on West Market street, has recently received some valuable coins, the gift of his half-brother, Joseph Lucas, who is serving in the regular army in the Philippines. Mr. Swartz has quite a collection of coins and the addition sent by his brother are highly prized. One of the coins is made of copper and bears the date 1304. This is probably the oldest coin owned by a person in the city. Mr. Lucas is expected home some time in the coming year, as he has been in the army for about 30 years, but expects to retire after his present term of enlistment runs out.

### THE FIRE LOSS.

The recent fire in the decorating shop at the Dresden did not interfere to any great extent with the operation of that department and now all traces of it have been removed. Although the flames were confined to a very small territory, they caused a great

deal of damage. The sprinklers that were in action covered a large floor space and a great deal of ware that had been decorated was damaged to such an extent that it had to be washed and redecorated. The loss on this labor amounted to almost \$200. The Dresden continues busy in all departments.

### HENRY TO LEAVE.

Pat Henry, the kilnman at the National, who was called to Trenton a short time ago by the death of a sister, has returned to the city. His mother, who lives in Trenton, is quite sick and in order to be near her he will move to Trenton. He is working out his notice at the National and expects to leave some time next week. Mr. Henry is one of the biggest and best kilnmen in the country and he will leave behind him a host of warm friends who will greatly deplore losing him.

### WORK PROGRESSING.

Work is progressing finely at the Minerva pottery. The engine was started this week for the first time, and the making of saggers has begun.

### PACKERS TO MEET.

An important meeting of Packers' local No. 25 will be held this evening

at which the delegates to the national convention will be elected and steps taken to bring about the adoption of the piece scale, a question that has so far caused a great deal of strife and contention.

### CO-OPERATIVE STORE.

The American Sewer Pipe company is about to open a co-operative grocery near the sewer pipe works, east of Lisbon, for the benefit of its employees.

### NOTES OF THE WORKMEN.

Harry Dawson and Jack Creel, of the glost end at the Dresden, have been laid up several days this week with sickness.

Will Maloney, of the glost end at the Dresden, was called to his home in the west end yesterday by an accident that occurred to his little girl. The child sustained painful injuries in a fall.

### RAPID RISE TO FORTUNE

Sharon Man Who Engaged in Manufacture Cleared \$4,000,000 On a Deal.

Sharon, Pa., March 13.—John Stevenson, who recently sold his holdings in the Sharon Steel and Tinsplate companies to the United States Steel corporation, cleared \$4,000,000 through the deal. He received more than \$5,000,000 for his holdings in the steel company.

Stevenson's rise to fortune has been very rapid. He had less than \$20,000 when he moved to New Castle in the '80's, and induced William Patterson and other capitalists to embark in the wire and nail business. This prospered, and rod and billet mills were added. The capacity of the steel mill was too great, and a bar mill was built. These were sold to the United States Steel corporation when that concern was launched. After the New Castle plants were sold Stevenson moved his \$50,000 mansion to Sharon and became interested in the Sharon Steel company. He placed his money in that concern and it, too was gobbled by the combine.

Stevenson has now gone to Europe to secure patents held by Germans, and will again enter the manufacturing business.

### How Kennedy Lost \$10.

A special from Washington says: Representative James Kennedy, who succeeds R. W. Taylor in the Eighteenth Ohio district, discovered a new prerogative of office the other day. Ever since election to office he has been answering numberless letters relating to official business and putting a stamp on each. He was telling about this when a colleague said: "Kennedy, don't you know that every one of those letters could have been sent free?" The Youngstown man began to figure and found he was \$10 poorer than need be. "This cuts my visit down two days," he declared. "I must break even somehow."

### Independent Tug Fleet.

Cleveland, March 13.—L. S. Sullivan, of Toledo, was in this city organizing an independent tug system for the coming season of navigation. Mr. Sullivan says an independent fleet will be in operation at this port which will work in conjunction with independent fleets at Buffalo and Toledo.

### Teamsters Strike Increases.

Toledo, March 13.—The men employed by the A. J. Wolaver company, a large coal trucking firm, joined the teamsters' strike, taking off about 30 teams. There were several small disturbances, which the police were called upon to settle, but nothing of a serious character.

## LITTLE CHICKENS WERE MISSING

OWNER ACCUSED A BOY OF THEFT AND TROUBLE BEGAN.

Two Arrests And a Fine for Assault And Battery the Result of the Dispute.

Five little chickens, worth probably 20 cents a piece, caused a lot of trouble in the vicinity of Michael Costello's fruit store on Sixth street yesterday morning, and as a result the pockets of Squire McLane are bulging and hanging low.

For several days Costello worried over the loss of his birds and watched closely to locate them. In some way he became convinced that a young lad by the name of Scalpan knew something about them, and when he met the boy yesterday he accused him. The youngster stoutly denied any knowledge of the chickens, but stated that his brother knew all about them. Costello was sure he was on the right track then, and placing his hands on the boy's shoulder demanded that he go with him in search of the elder brother.

While on their way, the father of young Scalpan met the pair. A big fuss being made by his son he pounced upon Costello and gave him quite a severe drubbing. While the fight was in progress James Darrah appeared on the scene and proceeded to take a hand. The scrap did not last long after he mixed in it. It is alleged that only one blow was struck and that Jim landed it on the ear of the elder Scalpan, who, with a groan, tumbled to the pavement and for several minutes lay there as if dead.

The Scalpans were much enraged over the sudden turn in the scrimmage and proceeded to the office of the justice, where they had a warrant issued for the arrest of Darrah, charging him with assault and battery. He was arrested later and when arraigned pleaded guilty. For the offense he was fined \$2 and costs and upon payment was released.

Following close to this hearing Costello appeared at the 'squire's office and swore out a warrant charging Mr. Scalpan, father of the boys, with the same offense. He was arrested this morning and entered a plea of not guilty. His trial was set for next week, and then he wanted revenge, resulting in a warrant being issued for Mike Costello on charges similar to the others.

## NO MEETING CALLED BY THE CHAIRMAN

Another Indication That All Is Not Harmonious in the Local Democracy.

The working of the mind of the chairman of the local Democratic central committee is as a closed book to the rest of the Democratic leaders in this city. The News Review recently told of the breach which was threatened between the chairman of the committee and the balance of the local politicians. It does not appear to heal. Mexican salve and all other known varieties have been applied in allopathic doses, but still the sore spot continues to crop out, notwithstanding the efforts of both sides to keep up a tranquil appearance to the general public and to the rank and file of the party.

As stated before, the chairman of the committee was determined that a citizens' ticket should be placed in the field instead of a straight Democratic ticket. The other leaders of the party succeeded in thwarting this attempt and a straight ticket was named. At the same time the chairman of the Democratic central committee was ordered to call a meeting of the central committee the first part of this week, in order to rearrange the judges and clerks of the elections made necessary by the change in the boundaries in the wards of the city. So far no call has been issued.

The officers of the election must be named by a certain day and are selected by the central committees. They must be certified to before a certain date, or else they will not be qualified to serve. If the matter rests open until election morning then the judges are selected from the bystanders at the polls at the time the polls are opened. The local leaders are wondering why the chairman has ignored the order of the convention for a meeting of the central committee and it is possible some of them may take the matter in their own hands and issue a call if one is not forthcoming in a short time from the chairman.

## ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it. I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly,

## LOST \$100 A DAY FOR NEARLY 30 YEARS

A Bank at Burton Which Was Run At a Continual Loss.

Chardon, O., March 13.—The failure of the Boughton, Ford & Co. bank at Burton is now known to have reached the sum of \$813,633 in excess of the assets. Only a few business houses were wrecked by the crash, and the credit of the merchants of Geauga county has probably not been impaired. Individual depositors suffered the greatest loss, and to many of them the failure means ruin. One of the saddest things in connection with the failure, was the feeling of security manifested by elderly people in the stability of the bank. Some of the depositors will have passed away when a small dividend is finally declared. It is the most unfortunate

### OFFICERS ELECTED

By the Missionary Society of the Erie Street M. E. Church.

The meeting of the missionary society of the Erie street M. E. church last night at the home of Mrs. Elizabeth Owen, of St. George street, was well attended. The most important of the business before the society was the election of officers, the following ladies being elected to the respective positions:

President—Mrs. Laura Cooper.  
Vice President—Mrs. Isabelle Jones.  
Recording Secretary—Mrs. Sarah Dawson.  
Corresponding Secretary and Treasurer—Mrs. G. W. Orcutt.

The society is in a flourishing condition, and the subjects coming before the meeting added much interest.

### Camping Club Meeting.

The Oriental Camping club met last night at Hopkins' hall and elected Thomas J. Putnam in the place of George Nelson, who resigned at a former meeting. The place for holding the camp during the coming summer was discussed, and while five or six places have been suggested, nothing definite was done in the matter. A committee will be appointed at the next meeting who will visit some of the places and make all arrangements.

### Crowd Will Go to Toronto.

One of the largest excursions that will leave the East End will be the turnout of Cleopatra court No. 1101, when it visits the lodge at Toronto on Saturday evening, March 21. A committee of the court will try to make arrangements for special cars, as it is expected that at least 200 from here will attend. Invitations have been sent out to Chester, East Liverpool and Wellsville courts.

### New K. G. E. Castle.

A new castle of the Knights of the Golden Eagles will be organized in the East End, and the project is meeting with much success. Thirty names have been signed to the application for a charter, which will be forwarded to headquarters tonight.

### To Entertain Friends.

Miss Bertha Grant, of Pennsylvania avenue, will entertain friends to the number of 15 at her home this evening. The evening will be passed in the enjoyment of music and games. Refreshments will also be served.

### EAST END AFFAIRS.

Mrs. Sarah Dawson is visiting friends at Smith's Ferry.

Archie Seavright, of Pennsylvania avenue, is at his home, indisposed.

M. W. Taylor and O. M. Hendershot have gone to Beaver on business.

Miss Della Richmond, of High street, is threatened with fever.

Mrs. Thomas Hays, of High street, is recovering from a severe attack of pleurisy.

William Williamson, who has been visiting friends, has returned to his home at New Martinsville.

Reuben Martin, who attended the Finley funeral, left this morning for his home at New Martinsville.

Rev. J. N. Swan has gone on a visit to his son, who is pastor of the Presbyterian church at Newcomerstown.

The infant child of Mrs. Pearl Martin, of Pennsylvania avenue, which has been ill all winter, is much improved.

'Squire L. W. Carman will leave tomorrow morning on a business trip to Wellsburg, W. Va., and expects to be gone until Tuesday morning.

Will Duplicate Amount Raised. Halifax, N. S., March 13.—The governor of Acadia college at Wolfville has received an offer from John D. Rockefeller to give to Acadia one dollar for each dollar raised by the college, up to \$100,000, before Jan. 1, 1908.

American Tourists Reach Genoa. Genoa, March 13.—The Dominion line steamer New England arrived with 262 American tourists aboard. All are well and are proceeding on the New England to Alexandria, whence they will visit Cairo.

Within a few years has sprung up a most unique industry, that of converting the hitherto considered worthless Prairie or Wire Grass into Furniture, Carpets and Rugs.

By a patented process this grass which is as tough as wire is rendered so pliable that it can be woven into beautiful designs and shapes and makes the most elastic of Chairs and Rockers. It is more elastic than rattan and its color being a rich dark green it does not soil as does the rattan.

We advise that you get a few pieces for your home as they are the most comfortable you can possibly get.

### NEW ROADS FOR WEST VIRGINIA

Rivalry of Pennsylvania and Wabash Systems Will Open Up Vast Resources of the State.

Chaleston, W. Va., March 13.—A corps of engineers is now making a survey for a line for the Pennsylvania railroad from this city to Sutton, along the opposite side of Elk river from that traversed by the Charleston, Glendennin and Sutton road. When ex-Senator Henry G. Davis recently purchased this road, which runs up the Elk river 35 miles, it was generally understood that it was in the interest of the Wabash, to which Mr. Davis had just sold the West Virginia Central and the Little Kanawha roads and which has been engaged in connecting its lines so as to get a tidewater outlet to the east.

The Pennsylvania system, owning both the Chesapeake and Ohio and the Baltimore and Ohio, has been trying to block the progress of the Wabash ever since its intention became apparent. The control of the Charleston, Glendennin and Sutton road, which is to be extended at once to a connection with the Wabash's Little Kanawha extension, will open up a fine territory of coal and timber for that road and also will give it valuable connections between this section and the northern section of the state. The Pennsylvania, recognizing this, has set out to make a connection between its Baltimore and Ohio branches at Sutton, 100 miles north of here, and the Chesapeake and Ohio here, thus dividing the territory and the trade.

I was prescribed for by physicians with no noticeable results. A friend gave me a part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, have no hesitation in saying I realize that I am entirely cured. From this time on Chamberlain's Cough Remedy will be in my house constantly." This remedy is for sale by Alvin H. Bulger.

FRIDAY, MARCH 13, 1903.

The celebration of the centennial of Ohio, to be held at Chillicothe May 20 and 21, is of great interest to the people throughout the state, and Ohio's first capital is preparing to entertain on that occasion the largest crowd in the town's history. The News Review acknowledges the receipt, through the Scioto Gazette, of an invitation stating that the press committee will open special headquarters and afford every facility to visiting newspaper men for work and enjoyment. Chillicothe people are duly impressed with the magnitude and importance of the coming event and will do everything possible to make the celebration a credit to their city and to Ohio.

More railroads across Columbiana county are being projected or promised. We are willing to give them all a chance. The trouble has been heretofore to induce the promoters to take advantage of the chances given. But now capitalists and new men are now interested and it would be surprising indeed if some of the ambitious schemes now so numerous should not materialize.

Columbiana county will be 100 years old on May 1. Are the people going to celebrate the anniversary or to merge it with the centennial of the village of Lisbon? Columbiana county is big enough to have a good-sized celebration of its own.

## DO NOT DOSE THE STOMACH

Cure Catarrh by Nature's Own Method—Every Breath of Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete outfit of Hyomei costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and there is enough Hyomei for more than a month's treatment of catarrh. If one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

Will Reed has sold hundreds of Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

Those who are subject to catarrh or catarrhal colds will do themselves an injustice if they do not purchase a Hyomei outfit at once, so as to be prepared for the sudden changes of the season.

liberty to select as many other dates as he pleases for tree planting. It beautifies any man's property and adds to its value. Everybody who owns a piece of land should not neglect to have one or several Arbor days.

The senate is considering the question whether it is possible to improve its rules. To an outsider it would seem that a rule which would make it impossible for one or two members to do so much talking that the rest can do no business ought to be made and put in force instantly.

Wife Murderer Knapp is receiving floral tributes at Hamilton from women who refuse to give their names. If this isn't false modesty what would you call it?

Criticisms were hurled at the governor of West Virginia for putting 40,000 words in his message. Senator Morgan can put more than that in a parenthesis.

Now let Russia give its subjects civil as well as religious freedom and it will no longer be necessary for the czar to keep himself in a bomb-proof cage.

The keenest-sighted political observers can see nothing ahead for the Democracy but an impenetrable fog in which shipwreck is certain.

Cleveland is right. The Democracy needs an advisor. It needs to heed good advice, also, and that is something it never did.

## THE NEW OIL FIELD A PROMISING ONE

Prospects Great at Uniontown, Ohio. One Company Offered \$175,000 For Holdings.

Uniontown, O., March 13.—The Uniontown oil field will be the mecca of oil men from many parts of the country, during the coming season. Latest developments go to prove that the field is certain to attract attention, and while it may not prove to be so large as many had hoped, yet it undoubtedly will prove to be a profitable one.

The latest well to come in is one on the Caldwell farm. It was drilled in Wednesday and is good for thirty-five or forty barrels per day. The well is owned by the Hartley Oil & Gas company, the company which, so far, has been the most successful in the field.

A start has been made on the Hays farm, by the Doolittle company. The new well is being drilled at a distance of but 400 feet from a 45-barrel well on the Caldwell farm, which now contains four producers. Mr. Caldwell, it is understood, now is drawing something like \$500 per month on his one-eighth of the production.

The field now contains twenty-five producers and only three dusters have been drilled. That oil men, generally, have faith in the field is shown by the fact that the Hartley company has been offered the neat sum of \$175,000 for its holdings. The Caldwell company also has valuable holdings for which a fancy price has been offered.

## LOOKING AFTER INTERESTS

Chas. Morris Learns Some Interesting Facts About Durbin's Removal.

Charles Morris, of Allegheny, was a visitor in this city yesterday, looking after his property on Walnut street. Mr. Morris is a relative of Andrew Carnegie. The property which he is looking after was the building occupied by S. P. Durbin, who recently removed his fixtures from the building without his creditors learning what was being done. Durbin adopted an ingenious method in placing a small pox sign on the front of the house and no one would dare to cross his threshold. He was able to get away with his goods, elude his creditors and evade the payment of a month's rent. Mr. Morris expects to move to this city in a short time, but has not yet decided where he will live, as he intends to build, but so far has not found a desirable location.

## LOCAL MAN A DIRECTOR

W. E. Wells One of the Official Board of a Newly Organized Railroad Company.

The Lake & River railroad company has been organized as an outgrowth of the Richland & Mahoning Railway company, projected some time ago by C. W. French, of Cleveland. It is the intention of the new company to consolidate the roads projected by French and build a short line through the state from Chicago to Pittsburgh.

No surveys have yet been made and nothing definite has yet been done on the work. It is the intention of the company to run a spur of the road from some point yet to be determined, to this city.

W. E. Wells, of this city, has been chosen as a member of the board of directors of the company.

To Straighten the Road.

A number of options were taken yesterday by representatives of the C. & P. company on lots in and around Hammondsville. The lots are being secured, it is stated, so that some of the bad curves in the track can be straightened. Other options will be taken.

## OVER TWO BILLION IN THE TRUSTS

Showing of Pittsburgh in the List Reported By Congressman Littlefield.

Pittsburgh, March 13.—Pittsburgh is either the home or else an important part of no less than 46 corporations which are listed by Congressman Charles E. Littlefield, of Maine, as trusts engaged in interstate commerce for whose operations the Littlefield bill is designed. Congressman Littlefield divides these "trusts" into two classes. One he calls "industrial trusts," the other "local and natural monopolies." Of the first class Pittsburgh has 40, with a combined capital of \$2,172,604,000, and of the second class 6 with a combined capital of \$81,720,000. In computing the capital, both common and preferred stock as well as bonds, are taken into the reckoning.

The word "trust" as used by Mr. Littlefield means a corporation resulting from the combination of other corporations.

It is claimed that this list is the most accurate one of the trusts that has ever been collected. It gives \$9,231,136,689 as the combined capitalization of the industrial combines and \$4,519,597,819 for the local and natural monopolies of the country over. At several parts of the list there are doubtful statements, but on the whole it is probably the most accurate that has yet been produced.

### A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." A. H. BULGER.

## JUBILEE DINNER AT THE Y. M. C. A.

FREEDOM FROM DEBT TO BE APPROPRIATELY CELEBRATED.

The Event of March 24 Promises to Be Great in Association History.

Secretary Wright, of the Y. M. C. A., and the members of that organization are making great preparations for their banquet to be held in the Y. M. C. A. hall Tuesday evening, March 24. This is to be the jubilee dinner to commemorate the freeing of the organization from debt. While the subscriptions were all taken several months ago to pay the balance of the debt on the association, the money has just been turned over. It was a hard task to collect all the subscriptions at the time they were due and that work has just been completed.

It is the intention of having all prior secretaries of the local Y. M. C. A. here at the banquet and all will be called upon to make a few remarks. Several speakers of prominence will also be present and addresses will be given. Glenn K. Shurtleff, general secretary of the Cleveland Y. M. C. A., will be present and deliver an address on "Some Recent Phases of Association Work." T. J. Gillespie, secretary of the Lockhart Iron & Steel company, of Pittsburgh, will also be present and speak on the "Value of the Young Men to a Community." Dr. Milton Butler Pratt will also take for the theme of an interesting address the "Value of the Community to Young Men."

A large number of invitations will be issued and the members of the organization will be permitted to bring one or more friends with them. A banquet will be served at 7:30 in the evening and it has been decided to charge \$1.00 per plate to help cover the expense of the affair. Every effort will be made to make this one of the greatest events in the history of the local Y. M. C. A. and every indication points to the success of the affair.

### SHOWALTER'S HOPES

The Assistant District Attorney Says  
He Will Be the Next  
Congressman.

Assistant U. S. District Attorney Showalter, in an interview in Wheeling, says he is quite certain that he will be the next congressman from this district. In the interview Mr. Showalter spoke very confidently of his prospects and gave the reason for the faith that is in him.

"I did not expect to get the nomination in the last campaign. I entered the race merely to do the preliminary work. I wanted to meet the people and let them know who I was. These things I accomplished and I propose to win the nomination next time, no matter who enters the contest against me. I expect to have the Marion delegation solid, and look for strong support in Harrison and Wetzel. In every county in the district I have friends, and in Wheeling some of your most influential Republicans have pledged themselves to my candidacy. The nomination is coming to Marion, as sure as anything in politics, and I am going to be the next congressman from this district."

### THE BRIDGE TOLLS

Are Upheld By the United States  
Court And the Present  
Schedule Stands.

A decision was handed down yesterday in the United States district court at Parkersburg that will have the effect of imparting a more thorough understanding of the rules and regulations of the East Liverpool Bridge company. The trouble which ensued the early part of the year between the toll keepers and a crowd of men pressing over the bridge who refused to pay toll, except for the driver and teams, was brought before the notice of the court, and the court fully sustained the action of the receiver and Sept. Brown for enforcing the collection of tolls as heretofore collected, and entered an order directing him to enforce the tolls as heretofore listed during the time the bridge will be in the custody of the court, and to report at once to the court, the names of any and all persons refusing to pay tolls which are at present in vogue.

The rule relating to wagons and vehicles is: "Except in case of funerals and on Sunday, extra passengers over and above the driver and helper shall

be charged at the rate of five cents each."

### Election at New Cumberland.

The municipal election held in New Cumberland was a very quiet affair. There was but one ticket in the field and only in one ward was there more than one candidate for council. In the Fourth ward the contest was rather exciting between H. S. Cain and J. A. Smith, but the former won out easily. Bradley was elected mayor, Burford recorder, and Fickes, Cassidy, McNeil, Cain and Crow councilmen. Only 128 votes were cast.

### Landslide Blocked the Road.

A landslide took place some time last night on the Fairview road about half a mile back of Chester, which has left the road in an impassable condition. The slide occurred on the farm of C. R. Cunningham at the Porter bridge, and from appearances came from the top of the hill, completely covering the public road with rock and earth. It will take some days to clear it.

## WELLSVILLE

### STREET NUMBERS

And Street Signs Are One of the Acknowledged Needs of  
Wellsville.

All the residences and business buildings in Wellsville should be renumbered. Should the receipts of the local postoffice increase to such an extent that free delivery is established this would be a necessity, as well as a convenience. A number of years ago the houses were all numbered. Should an inspection be made now, not one-fourth of the houses would be found with numbers. The other fourth of the numbers are so rusted that they are illegible.

In connection with the house numbers are the street signs. Should a stranger come into the city and wish to make a tour of the town it would be a difficult task unless he engaged some person familiar with the streets to act as guide.

In the West End there are four "Short" streets. How all received this same name is a mystery. A stranger in this part of the city would have no little trouble to get his bearings. Street signs at the corners would soon do away with this difficulty.

Before these things can be done council will be compelled to take action. Some expense would be attached to the work, but with such results, as it would bring council should not hesitate to act. Mayor Fogo has always favored this plan, and does not understand why it has not been carried out before.

### BURGLARS ACTIVE

A Number of Wellsville Business Places Visited by Light Fingering Gentry.

Several Wellsville business houses were visited by thieves early Tuesday morning. Patrick Fitzpatrick's saloon, in the West End, was entered by the rear door, the cash register emptied of its contents, which was about five dollars, and a small quantity of whisky taken. "Ginger" Davis' place on Front street was also visited. An entrance here was effected through a rear hall door leading from Main street. Davis reports his loss to be small, five dollars in cash, which amount is always left in the register for change and one quart of his best whisky. Had the thief been more diligent in his search for money at Davis' place he could have added about \$20 more to his plunder as it was found undisturbed in the back of the drawer covered with some papers just as it was left.

Butler & Howe's dry goods store was another place which received a call but was not entered, as the colored man who sleeps in the store was awakened by the noise at the back door and set up a scream which frightened the intruders away. No clue as to who the guilty party is has yet been found, but an effort is being made by the local police to locate the thief.

### WEST END BUILDING BOOM

New Houses in That Section Are Springing Up With Great Rapidity.

Business in the West End is advancing rapidly and the people in that vicinity look for the greatest boom in their history this coming summer. Houses on Clark and Kelly avenues are being built as fast as the material arrives. One firm of this city, White & Wilkes, has the contract for the stone work of 16 of the foundations.

The tract of land back of Commerce street, between Fifteenth and Eighteenth streets, which was once known as the Wellsville fair grounds, is being built up so rapidly that by the dawn of another year it will be a cluster of dwellings. The new two-story building being erected by H. C. Aughinbaugh, at the corner of Eighteenth and Main streets, is being pushed ahead with all possible speed. The people of the West End think it is only a matter of a few years when that part of the city will be the business center of Wellsville.

### A DOUBLE FORCE

Will Be Put on at the Wells Stone Quarry as Soon as Improvements Are Done.

Improvements at the Wellsville stone quarry, near Wellsville, are progressing rapidly. A new rock-bedded road has been built from the main road on the west side leading to the quarry and also one from the east side. In all probability one of these roads will be used to have a switch connecting with the C. & P. railroad run up to the quarry.

The stone taken from this quarry is being used by most of the local contractors, and they report it to be excellent. The company has established a large trade and has a number of large orders to fill. About 12 men are

employed, but as soon as the switch is put in the force will be doubled.

### FIRST IN EVERY BRANCH

Prof. G. A. Armstrong, Formerly of This City, Distinguished As a Harvard Student.

The many friends of Prof. G. A. Armstrong, formerly instructor in science and mathematics in the East Liverpool high school, will be glad to hear of his success in Harvard university, where he is taking post graduate work. Prof. Armstrong has recently passed every examination with a credit of "A" in every branch except one.

When it is taken into consideration what this means at an institution like Harvard, it will be seen that Mr. Armstrong is maintaining his reputation already established as being a brilliant student. His five years' work in this city was marked with great success and during that time he made many firm friends who will rejoice with him at his success at Harvard.

### TEMPORARY ROAD TO AVOID THE MUD

Otherwise Teams Could not Get to the Wharf—Contractors' New House Boat.

The river is falling somewhat more rapidly than had been expected, and today there is about a 16-foot stage. The local wharfboat would have been inaccessible owing to the deep mud left upon the banks by the receding waters had not Wharfmaster Martin-dill constructed temporary roads with broken ware from the potteries. Business was never better than it has been this week and freight receipts and shipments have been unusually heavy. The passenger lists of the packets have been unusually long.

The big two-deck houseboat, Lone Star, recently purchased by the contracting firm of C. A. Sims & Co., which will be utilized by them as a home for a number of their workmen while the work of grading for the new double tracking of the C. & P. is now moored at the local wharf, just above the Pilgrim coal flat. The Lone Star is one of the best boats of its kind on the river and can be converted into a veritable floating palace. It has ten rooms.

Today Mr. Sims was at the wharf to arrange for the removal of the boat to Yellow Creek, where a large force of men are at work on the grading. The Greenwood will take her down to-night if the arrangement can be made.

The Virginia lost so much time on her last up trip that she will be held over at Pittsburgh so that she can come out on her regular time Saturday. The Greenwood did not come up until 1 o'clock this morning, the time being lost by the heavy business she encountered. She will be down to-night at 8 o'clock.

### KENNEDY SIGNS WITH PITTSBURG

Well Known Bellaire Ball Player Becomes a Member of the Pirates.

Bellaire, March 13.—William Kennedy, the well-known Bellaire professional base ball player, has signed with Pittsburgh and has received orders to join the team next Monday. This bit of information was announced by the friends of the pitcher yesterday morning, and it proved to be the base ball development of the week. It is the intention of the Bellaire man to go at once to Hot Springs, where they begin their practice games.

Kennedy was with Brooklyn for a good while and won an enviable reputation for good, strong pitching, but unfortunately he was compelled to secure his release, as it was feared that he would not recover of what was thought to be an attack of consumption. Since he has been out of the game Kennedy has had good luck with his health, and he is now as sound as a dollar.

## REALM OF SPORTS

## COLLEGE PRESIDENT

## FOND OF FOOTBALL

Players Should Be Strong And Well Trained, Says Head of Western Reserve University.

President Charles F. Thwing, of Western Reserve university, does not agree with Prof. Hollis, of Harvard, on the subject of foot ball.

President Thwing is a lover of the popular college game. Prof. Hollis is not. This is the difference.

About three months ago, before any agitation had been started by Prof. Hollis in an effort to abolish the game at Harvard university, Dr. Thwing started an investigation of his own to ascertain the causes which have led to the death of men who have played foot ball.

President Thwing had a suspicion that the cause of death in many of the cases reported did not arise from legitimate conditions of foot ball. His suspicion has been more than confirmed in certain cases. On the dangers of the game he says:

"Foot ball is a dangerous game when the player is not in a good physical condition, or when he has not been well trained, or when the team against which he is playing has not been well trained."

"Investigation has proved that in several cases in which death resulted in the games of last year the players were not in good condition, or they had never played before the game in which they met their death, or that the team opposing them had men who were ignorant of the game. Of one of the men who met his death it is said: 'He had heart disease occasioned by cigarette smoking and the excitement of the game was too much. He was not a student; he was an amateur player; the team opposing him was not well trained.' Of another man, living in Hartford, Conn., who was killed, it is said: 'He had never played in a game until the day of the accident, and then went in to take the place of a friend.'"

The result of the examination helps to prove what President Thwing has long felt that for the men in good health, properly trained, and playing with other men who are also properly trained, foot ball is as free from danger as most college sports which are good for American college men.

"There are certain physical conditions which should be required of all who aspire for positions on any team," said President Thwing. "A man who intends to play foot ball should be strong. He should have an active heart. He should be well trained. He should see to it before entering a game that the men whom he is playing against are properly trained and rugged men."

"When these conditions are obtained there can be no harm in foot ball. It is the most popular game of the American colleges today."

"The different colleges of the country should see to it that all of these conditions are fulfilled. They should see that good trainers are provided for the candidates who aspire for positions on the 'varsity teams.'"

## BOXING BILL WILL PASS

Such Is the Opinion of Senator Frawley, Father of the New York Measure.

Every sporting man in New York will turn his eyes toward Albany for the next week or so, and when he directs his gaze away from the capital boxing in New York state will have been either sanctioned or condemned by the legislators. If legislative sentiment and the sanguine statements of Senator James J. Frawley count for anything, boxing will again resume its favored position under the aegis of the law.

Senator Frawley is the father of a bill having for its object the reinstatement of boxing in legal favor. The game is now in worse odor in the Empire state than it has ever been, but the majority of those familiar with

## JUDGE GLANCY

Of Hornellsville, N. Y., Hands Down an Important Decision.

Judge James H. Glancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worthy of the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Tift of 878 River street, Troy, N. Y., suffered from liver trouble and his blood was all out of order and after using "Favorite Remedy," has this to say:

"For any one suffering from that run down or tired out feeling, caused by blood or liver trouble, Dr. David Kennedy's Favorite Remedy is the best medicine you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy.

It matters not how sick you are, how long you have suffered, or how many physicians have failed to help you, Dr. David Kennedy's Favorite Remedy will cure you if a cure is possible.

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

the sentiment of the legislature declare emphatically that, could boxing be permitted to resume its place on the athletic calendar under conditions that would not outrage the public's sense of decency, the lawmakers would gladly allow it to be resumed. The aim of Senator Frawley's bill is in line with this sentiment against malodorous tactics in the sporting world.

Senator Frawley says there is not the slightest doubt that his bill will pass both houses at Albany without friction, and that the governor will sign it.

"No one can reasonably object to good, clean bouts, such as are assured by my bill," he says, in substance.

Sporting men seem to be confident that the measure will meet with legal approval.

## BOWLING MATCHES

Exciting Games Between Colts And Windsor And Eclipse And Crescents.

Two exciting games were played last night on the Imperial bowling alleys in this city between the Colts and Windsor and the Eclipse and Crescent teams. The bowling was pretty even throughout and the interest was maintained till the last. The score follows:

Colts—Rigby, 161, 194, 144; Clark, 179, 184, 179; Powell, 156, 116, 140. Windsor—Wood, 136, 177, 141; Brick, 109, 128, 114; Blind, 147, 132, 135. Eclipse—Logan, 134, 158, 130; McNicol, 138, 147, 142; Rose, 157, 149, 132. Crescents—Litten, 146, 151, 117; Schultz, 153, 136, 157; Blind, 136, 156, 153.

## Season's Averages.

The season for the East Liverpool Bowling league has been finished. Much interest was taken in the game and the Raistons easily won out. The standing of the clubs is as follows: Raistons, won 12, lost 3, 800 per cent; Walkovers, won 8, lost 7, 533 per cent; Queen Quality, won 6, lost 9, 400 per cent; Regals, won 4, lost 11, 266 per cent.

## SPORTING MISCELLANY.

"Mugsy" McGraw has signed Jack McLean, a catcher once tried by Boston.

Al Miller, of Zanesville, well known outfielder, has signed with New Orleans.

Burke, traded by Pittsburg to St. Louis for Kruger, refuses to join the Cardinals unless he is assured that he will not be asked to play anywhere but third base.

Pitcher Wilhelm, of the Pirates, is ill at his home in Wooster from the effects of being poisoned by pineapple that had been canned in tins. His whole family was similarly affected.

Among the ball players boiling out at Hot Springs are Jack Doyle, Kruger, "Ducky" Holmes, Dan McGann, McGinnity, Jim Callahan and Jake Beckley. Others who have just left are Clarke Griffith, McGraw, Jack O'Connor and Mique Kahoe.

## Refused Nomination.

## VOTE ON TREATY AGREED TO.

Cuban Measure With Amendments Agreed on by Committee—Little Opposition Looked for—Approval of House of Representatives Required.

Washington, March 13.—There were important developments regarding the treaties pending in the senate. It was decided to vote on the Panama canal treaty on Tuesday next, and the Cuban reciprocity treaty was reported to the senate by the committee on foreign relations. The end of the work for which the extra session was called, therefore, is in sight. The agreement to vote on the canal treaty was arrived at noon and without discussion of moment. The terms had been made satisfactory to Senator Morgan before the request to fix a day for a vote was preferred by Senator Frye, so the former made no objection.

The Cuban treaty with the various amendments agreed on by the committee on foreign relations then reported by Mr. Cullom and at his request it was read for the information of the senate. The reading was followed by a formal request by Mr. Cullom to take up the Cuban treaty for discussion, but while this was denied still the greater part of the session was devoted to it. The amendments made include, in addition to those of last session, a provision requiring the approval of the house of representatives to make the treaty effective.

With the adoption of this amendment the Democrats as a body probably will cease opposition to the Cuban treaty, but some of them, the sugar interests of whose states are affected by the treaty, will continue to oppose it. The Republican side of the senate will vote practically, if not absolutely, solidly for the treaty, and it is now generally believed that it will be ratified after action on the Panama treaty.

Individual Democratic senators will offer a number of amendments to the canal treaty, and they will unite in pressing some of them, but if they should be voted down, as seems likely, a number of the Democrats will vote for the ratification of the treaty.

The progress made leads many senators to predict an adjournment by the close of next week. The action of the committee on commerce in postponing a vote on Dr. Crum's nomination is generally accepted as disposing of that matter for this session.

## WHAT CONSTITUTES REASONABLE DOUBT?

JUDGE LAUBIE, OF CIRCUIT COURT, RAISES AN ISSUE.

Disagrees With a Supreme Court Decision—Eminent Jurists Support Him.

Youngstown, March 13.—Because of the decision of the circuit court of this district it is probable that another standard definition of "reasonable doubt" will have to be established in Ohio. Since the December term, 1843, when Judge Burchard, in the case of White versus the state of Ohio, affirmed the present commonly used definition, the courts have not questioned the term as defined. Recently, however, Judge Laubie has raised the point and has been sustained by Judges Burrows and Cook, that the term as popularly defined throws the burden of proof on the defendant when it should be on the state, applying to criminal cases. The disposition of this circuit court to reverse the old dictum of the supreme court of 1843 is becoming pretty well known to attorneys throughout the district and many cases are being taken up on error in cases in which the Burchard definition of reasonable doubt has been applied in the charge to the jury.

It was on this point that Attorneys Frank Jacobs and W. S. Anderson yesterday went before the circuit court with the cases of Henry E. Ellis and William Allen. Ellis is now serving a term of eight years in the penitentiary for alleged assault on a 16-year-old girl. Allen is serving time in the reformatory, having been sent up for holding up a man with whom he was seen one evening when they were both drunk and were at one time together. Both of these cases were tried originally before Judge Robinson.

In charging the jury Judge Robinson, on both occasions used the following: "You will be justified and are required to consider a reasonable doubt as existing in the material facts, without which guilt cannot be established, may fairly be reconciled with innocence."

On this very point Judge Laubie expressed himself in part as follows in the case of Thompson versus the state of Ohio, in Columbiana county, several weeks ago. He said:

"And there is the part of the (Burchard) charge that we have heretofore held in similar cases, or in criminal cases. We have done so in the face, it is true, of an old dictum of the supreme court, upon the question; but it is so plainly and palpably wrong, that we have forbidden it, and concluded to hold it to be wrong and erroneous, and therefore, as I say, we will call attention to it in this charge. There are two objections to it. One is that it applies to all material facts, and not single one, and the other is that it substantially throws the burden of the proof upon the defendant of his innocence."

If the circuit court decides in the Ellis and Allen cases as it did in the Thompson case, new trials will be granted the prisoners. The only point the attorneys raised was that of the definition of reasonable doubt.

## Bananas Scarce.

Kingston, Jamaica, March 13.—Owing to the extreme scarcity of bananas the United Fruit company has decided to alternate their Jamaican service with Port Limon, Costa Rica, their steamers thus leaving Jamaica and Port Limon every fortnight. This arrangement will be only a temporary one. The scarcity of bananas is due to the largely increased demand and the drought, which, however, is now breaking.

## Disputes Will Be Arbitrated.

Chicago, March 13.—Eight thousand metal polishers, platers, buffers and brass molders and 12,000 allied craftsmen are benefited by an agreement made between the Chicago Brass Manufacturers' association and the local unions of the employees. The agreement provides for a nine-hour day without reduction in wages, which is the beginning of a movement to extend all over the country. The principal feature of the agreement is that no strike or lockout shall occur during the life of the agreement and all disputes are to be settled by arbitration.

## Rebels Capture Fort and Town.

New Orleans, March 13.—The fruit steamer Duncan, of the Vacuero line, reached quarantine from Ceiba, Honduras, with the most significant war news since the outbreak of the Bonilla rebellion. A battle was fought at Ceiba the night of March 6 and the forces of Bonilla defeated the government forces, killing six, wounding 14 and capturing the fort and town. American Vice Consul W. C. Wildt sent a message by one of the passengers asking that a warship be sent to protect American interests.

## Life Plant Cures Rheumatism.

Because it purifies the Blood. Rheumatism is caused by the presence of an excess of Uric acid in the Blood. Uric acid is caused by a peculiar fermentation product. You must remove the cause to cure Rheumatism. Drive out the Uric acid and prevent its formation. Life Plant opens up the organs of excretion, which in time carry off the Uric acid, and thus removes the cause. It not only removes the cause, but it prevents the formation of the Uric acid, and prevents a recurrence of the disease. It renews life, restores and renews the vital element in the blood and makes you strong and vigorous. Read what Geo. Crater says:

"I was on this point that Attorneys Frank Jacobs and W. S. Anderson yesterday went before the circuit court with the cases of Henry E. Ellis and William Allen. Ellis is now serving a term of eight years in the penitentiary for alleged assault on a 16-year-old girl. ## LIKES TO MIX IN WARFARE

Soldier of Fortune Who Has Taken  
Part in Many Filibuster-  
ing Expeditions.

### NOW ON HIS WAY TO COLON

Where He Proposes to Join the Revo-  
lutionists—A Connecticut Yankee  
Whose Career Has Been Strange,  
Romantic and Perilous.

Columbus, March 13.—During the  
whole of the past week and up to  
Monday evening of this week there  
labored in the ranks of the local news-  
paper men, one of the most remark-  
able characters the profession has  
produced in the last decade. He  
drifted silently into the city from the  
south, secured a temporary position  
during his brief stay, and on Monday  
evening "he folded his tent like the  
Arab" and as silently stole away.

This strange character is C. B.  
Montgomery, native of Connecticut,  
one of the old regime in the news-  
paper world, reporter, editor, war cor-  
respondent, filibuster, soldier of for-  
tune, revolutionist, anything you  
please, and anything for excitement.  
For many months previous to the  
outbreak of the Spanish-American war  
he was the associate of the late  
Stephen Crane, and with him was one  
of the two survivors of the ill-fated  
tug Commodore which went down off  
the coast of Florida while on its way  
to Cuba with recruits and supplies  
for the Cuban insurgents.

Montgomery took part in 22 filib-  
uster expeditions to Cuba, and was  
once captured by the Spaniards. He  
made his escape the following night.

and for nearly six weeks he roamed  
the jungles of the island dodging the  
Spaniards and trying to find his way  
to a friendly seacoast village. He  
was lost, hopelessly lost, but finally  
managed to make his way to the coast  
and was picked up by a coasting  
bark friendly to the Cuban cause.  
Time after time he was apprehended  
in Florida by the United States author-  
ities who knew him as a filibuster,  
but each time he made his escape  
to New Orleans until the storm had  
blown over.

Since the war Montgomery has been  
doing newspaper work in Houston,  
Texas, but the fever laid hold of him  
again, and when agents of the Colum-  
bian revolutionary general, Uxto Jeff-  
ries, organized a filibustering expedi-  
tion in that city, he was one of 150  
to enlist. Week before last the party  
got away and went to New Orleans.

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-  
papers is sure to know of the wonderful  
cures made by Dr. Kilmer's Swamp-Root,  
the great kidney, liver  
and bladder remedy.

It is the great medi-  
cal triumph of the nine-  
teenth century; dis-  
covered after years of  
scientific research by  
Dr. Kilmer, the emi-  
nent kidney and blad-  
der specialist, and is  
wonderfully successful in promptly curing  
lame back, kidney, bladder, uric acid trou-  
bles and Bright's Disease, which is the worst  
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not rec-  
ommended for everything but if you have kid-  
ney, liver or bladder trouble it will be found  
just the remedy you need. It has been tested  
in so many ways, in hospital work, in private  
practice, among the helpless too poor to pur-  
chase relief and has proved so successful in  
every case that a special arrangement has  
been made by which all readers of this paper  
who have not already tried it, may have a  
sample bottle sent free by mail, also a book  
telling more about Swamp-Root and how to  
find out if you have kidney or bladder trouble.

When writing mention reading this generous  
offer in this paper and send your address to  
Dr. Kilmer & Co., Bing-  
hamton, N. Y. The  
regular fifty cent  
dollar size are sold by all good druggists.

Don't make any mistake, but re-  
member the name Swamp-Root, Dr.  
Kilmer's Swamp-Root, and the address,  
Binghamton, N. Y., on every bottle.

Early last week the 150 men shipped  
on a frigate from Colon, as laborers  
bound to Colombia to work on a new  
railroad. All went well until Montgo-  
mery attempted to board the boat when  
he was recognized and compelled to  
leave the docks. The frigate sailed  
without him. His side partner, another  
newspaper man from Houston, was  
left behind with him, but left New  
Orleans for Tampico while Montgo-  
mery came north on his way to Norfolk,  
Va., from which port he will sail on a  
frigate for Colon, this week. He is  
bound to get to Colon and from that  
point join the revolutionary forces un-  
der Jeffries at the latter's camp 60  
miles inland from the city. Jeffries  
is said to have an army of 40,000 men,  
and is nearly prepared to seize the  
reins of government, which he has  
already had the pleasure of holding.  
He is also said to have a large force  
of men in Colon, sub rosa, ready to  
seize the city at a moment's notice.

General Jeffries went to Colon sev-  
eral years ago as a news correspond-  
ent. He is a native of New Jersey.  
He is an old friend of Montgomery,  
and the latter has been promised a  
commission by the revolutionist. The  
latter became mixed up in the politics  
of the country, took part in several  
revolutions, developed a following and  
when the proper time came he started  
a little revolution of his own. The  
story gained circulation in the south  
that the revolution was started and  
the filibusters were going to join it  
for the purpose of making trouble  
for the United States government in  
the building of the great canal across  
the isthmus. This is strenuously  
denied, however. At any rate Mont-  
gomery, newspaper man, war corres-  
pondent, filibuster and soldier of for-  
tune, is about to cast his lot with  
the fortunes of General Jeffries and  
rise or fall with him. He will be in  
the revolutionary camp within a week,  
if not intercepted.

### WILL ASK FOR ADVANCE IN MAY

Trainmen of All Railroads Centering  
in Chicago Will Demand In-  
crease in Wages.

Chicago, March 13.—The Record-  
Herald says:

Early in May a concerted demand  
will be made by the trainmen of all  
railroads centering in Chicago for a  
raise in wages amounting to between  
12 and 15 per cent. Preceding their  
visit to Chicago the trainmen's com-  
mittees are to make a similar demand  
upon the Northern Pacific and the  
Great Northern Railroads.

They will ask that the pay of con-  
ductors and brakemen of through  
local and way freight, mixed and work  
trains be raised 15 per cent, with pro-  
rata for overtime, and that passenger  
conductors, brakemen, flagmen and  
train porters be given a 12 per cent  
raise. Recent settlements upon this  
basis have been made with the Union  
Pacific and part of the Santa Fe  
roads, and it is expected that no diffi-  
culty will be experienced in inducing  
the Hill lines to meet the advanced  
schedules. The movement will effect  
many thousands of men and the rail-  
road managers are comparing notes  
with a view of standing together in  
the replies made to the demands.

"Have Troubles of Our Own."

Raleigh, N. C., March 13.—Governor  
Aycock said regarding the Wisconsin  
senate's plans for a race problem con-  
vention in Atlanta: "I think it is a  
piece of foolishness. I will let Georgia  
attend to her own race troubles  
and let North Carolina attend to hers.  
We have troubles enough of our own  
and have always been diligent enough  
to meet and overcome them."

Rev. G. G. Bradley Dead.  
London, March 13.—The Very Rev.  
George Granville Bradley, dean of the  
Order of the Bath and lately dean of  
Westminster, died in his 82d year.

## WAITING FOR INQUEST

Believed That Matter of Impor-  
tance Will Be Brought to  
Light at Hearing

### CASE WILL BE HEARD SATURDAY

Witnesses Must Answer All Questions.

Important Witness Has Left the  
City and Cannot Be Located—Bur-  
dick's Will Filed.

Buffalo, March 13.—Straight from  
the lips of the persons who were im-  
timately associated with him, in his  
family, social and business pursuits,  
the public will hear the story of the  
life of Edwin L. Burdick, its worries,  
its disappointments and its scandals.  
Direct from those who discovered the  
body in his beautiful home in Ash-  
land avenue on the morning of Feb.  
27, it is to learn all the details of the  
tragic morning, and from those whose  
names have been mentioned with  
great care in connection with the  
crime, will it hear full stories of ex-  
oneration, unless, as the police con-  
fidently hope and must expect, there  
will drop from the tongue of one some  
word which will cause a court sensa-  
tion, a confession perhaps, and an ar-  
rest.

The inquest is the last card to  
which District Attorney Coatsworth  
so frequently referred not long since.  
He said that when it was played the  
authorities would win all or lose it.  
It will be begun at 10 o'clock Saturday  
morning in the magistrate's court in  
the police headquarters building, and  
will continue all day. If not finished  
then it will continue Monday and  
every day thereafter until the wit-  
nesses have all been examined.

All police cases will be set aside  
Saturday. The old court room, for  
years and years the magisterial home  
of Thomas V. King, a famous police  
justice, will be cleared for action. Po-  
licemen will stand at its doors and  
will form an aisle from the street to  
its main entrance. Only as many as  
can be seated, about 500, will be ad-  
mitted.

"The inquest will be the most  
searching ever held in the county of  
Erie," said Judge Murphy. "I shall  
go into every phase of the situation,  
shall spare no one. No flinching will  
be permitted. Witnesses must an-  
swer every question put to them un-  
less they wish to seek refuge in the  
legal objection that to answer would  
incriminate or degrade. Objections  
on the part of lawyers will not be  
noticed."

"The authorities are going to hold  
this inquest, and it is to be a real  
one. It is due to the innocent people  
of this community who have been un-  
der police surveillance. I shall bring  
out every fact possible in Burdick's  
life and methods."

The Burdick will, it is understood,  
disposes of an estate valued at be-  
tween \$100,000 and \$150,000. Mrs.  
Burdick will be entitled to her dower  
rights in the estate, no matter what  
the provisions of the will may be.

In the life insurance policies his  
wife is named as beneficiary. George  
C. Miller, attorney for Mrs. Burdick,  
would not discuss the document, but  
from other sources it was learned that  
it will occasion litigation.

Mrs. Seth T. Paine, who is one of  
the witnesses wanted for the Burdick

inquest, has left the city. Whither  
she went is not definitely known by  
the police. A detective sergeant was  
looking for her with a summons to  
appear before Judge Murphy, who  
will conduct the Burdick inquest.  
When he called at the house he was  
informed that Mrs. Paine was not at  
home. He was not satisfied with this  
reply and entered the house.

After leaving the Paine home he  
went at once to the New York Central  
station. He was told by the ticket  
agent there that a woman closely an-  
swering Mrs. Paine's description had  
bought a ticket. He did not remem-  
ber for what place, but he thought it  
was for Batavia. Mrs. Paine's hus-  
band is a dentist and practices in Ba-  
tavia.

Ames Will Return to Minneapolis.  
Manchester, N. H., March 13.—Adel-  
bert A. Ames, former mayor of Minne-  
apolis and fugitive from justice, con-  
trary to the advice of his physician,  
and, it is believed here, without the  
knowledge of his counsel, decided to  
return to Minneapolis and stand trial.  
He will leave on the 10:49 train Sat-  
urday and will therefore be out of the  
state when the time limit in which he  
had to get bail is up, at 2 p. m. He  
will be accompanied by Mrs. Ames  
and their child. His decision to re-  
turn was voluntarily made, but it was  
not announced until his wife's rela-  
tives had come forward with sureties  
enough for his bail of \$12,500.

Judge Day's Condition.  
Washington, March 13.—Dr. B. L.  
Hardin, the attending physician, made  
the following statement: "Judge Day  
has a moderately severe attack of  
pneumonia. He is very comfortable  
and his symptoms at present do not  
occasion alarm. Dr. Osler, of Johns  
Hopkins university, will see him in  
consultation in the morning."

driven horse it balks. The reason for  
this lies the close nerve relationship  
existing between the brain and the  
stomach. Nature intended the stom-  
ach to have regular hours. A time  
to work, a time to rest—and when  
you break up this habit, you upset the  
whole arrangement. The stomach  
nerves become exhausted, the glands  
refuse to act, the food does not digest  
—lies heavy, ferments and repeats.  
There is pain, gas forms, bloating oc-  
curs, the heart becomes irregular and  
a nervous, irritable feeling sets in.

## SOCIAL EVENTS

### A FINE ENTERTAINMENT

Given in the High School Course By the Boston Sextet—Next Attraction.

One of the finest numbers of the course of entertainments given by the High School lecture course was presented at the Grand last night by the Boston Sextet. The company is one of the best which has appeared before an East Liverpool audience. Each number on the program demonstrated that each member of the company is an artist of superior ability. The entire entertainment was very much enjoyed by a large audience. Never in the history of the High School has there been a course of entertainments which has met with such universal approval.

The next entertainment will be of unusual interest. Mrs. Ballington Booth, of Salvation Army fame, will lecture on "Lights and Shadows" of Prison Life. It is also expected that an entertainment will be given in place of the one omitted on the course a few weeks ago.

### Wedding Trip to Porto Rico.

Lisbon, March 13.—(Special)—Harry Lafferty Cooke, of Bridgeport, O., and Miss Mary Emma Way were married at noon today at the home of the bride's parents, Mr. and Mrs. Nicholas Way, on Lincoln avenue in this village. Rev. J. A. Uman, of the M. E. church, officiated. Mr. and Mrs. Cooke will begin housekeeping soon at Bridgeport, where the groom has his headquarters as a division superintendent in the employ of the American Tin Plate company. With I. M. Scott and wife, formerly of Lisbon, they contemplate a trip in a few weeks to Porto Rico, in the interests of the tin plate company. Mr. and Mrs. Cooke were prematurely serenaded by a company of bellers last night, who refused to believe that the couple had not yet been married. The crowd dispersed after keeping up a horrible din for about four hours.

### Entertained W. C. T. U.

The Women's Christian Temperance Union held a social at the residence of Mrs. E. McIntosh on Pennsylvania avenue last evening at 8 o'clock. This was the occasion of the monthly meeting. When Mrs. McIntosh extended a cordial invitation to the society it was decided to combine with the regular business a social. Every one present enjoyed a most delightful evening, and the friends of temperance of the city are gratified over the revival of interest manifested in this society.

### Missionary Society Meeting.

The Home Missionary society of the First M. E. church held a very interesting meeting last evening at 7 o'clock. Mrs. Frank Crook was elected to prepare a paper to be read at the convention to be held at Steubenville April 30. Mrs. P. Fowler was selected to sing a solo. Delegates will be appointed to attend the convention at the next meeting of the society.

### Held a Quilting.

The ladies of the Foreign Missionary society of the First M. E. church yesterday held an all-day quilting for the benefit of the foreign missions. There was a large attendance.

in interest. Last evening the largest congregation of the season assembled. Rev. Dr. Milton B. Pratt preached a fine sermon, which was listened to with great interest. Dr. Pratt will also preach this evening.

In New Quarters—The Knights of Pythias, the Pythian Sisters, the S. O. U. A. M. and the Daughters of Liberty have moved from the Golding building to the Oyster building on Sixth street and will hold lodge meetings there hereafter. New carpets and other new furnishings make the new quarters very attractive.

Called to Newark—The news that Rev. John M. Gaston, son of Mr. and Mrs. George Gaston, of this city, has been called to the pastorate of the First Presbyterian church at Newark, at a salary of \$3,500 a year, will be gladly received by his many friends in this city. The rise of the young minister has been rapid and he has been pastor of the Hazelwood church in Pittsburg for several years. He will accept the call.

Arrests Are Needed—Boys who have been making themselves obnoxious about business places have been guilty of conduct on the stairway leading to the Fryett art gallery on Broadway which caused the police to be sent for. The offenders were gone when the officers arrived. A few arrests of lads who do not behave themselves would have a healthy effect and business men are watching to get a chance to teach them a lesson.

Thorn in the Flesh—An operation was performed yesterday by Dr. Norris on the hand of John Headley, of Thompson avenue. About a year ago a thorn was run into his hand at the base of his thumb. It was thought it had been removed at the time, and the

for months, but a few months ago it began to pain him and kept him from his work. The hand was cut open and a quantity of pus taken out, but the wound still refused to heal. Yesterday the hand was cut open to the bone and a piece of the thorn a quarter of an inch long was found. It was removed and it is expected that the wound will now heal in a few days and that he will be able to return to work in a short time.

TEN PIECES OF SHEET MUSIC FOR \$1.00. Is This Old Music? NO!

10 pieces of copyright music, latest popular pieces of the day, for \$1.00.

Why, you ask, do we make this offer, do we buy this music so cheap that we can afford to sell it 10 pieces for \$1.00. NO!

The reason, in order to keep up to date we have standing orders with the leading publishers for from 1 to 10 copies of each new issue. These are sent us soon as they are off the press. In 10 years we have accumulated more music than our limited space will allow, our shelves are running over. We must make more room or reduce our stock. We decide to sell 10 pieces for \$1.00, or sent prepaid to any address for \$1.10.

This music we have in stock and will not include the last copy of any one piece. Our clerks will not be allowed to play over music in this offer. We will, however, allow you to select three pieces that we have in stock, we will give you seven more either instrumental or vocal of our own selection, copyright music. Ordinarily these 10 pieces would cost you at least \$2.50.

While this offer is not something for nothing it is very close to it. Offer for 30 days only.
